Editorial team. General Editors: David Bourget (Western Ontario) David Chalmers (ANU, NYU) Area Editors: David Bourget Gwen Bradford.

Publication history[edit] Elongated Man was created by writer John Broome and penciler Carmine Infantino , with significant input from editor Julius Schwartz , who wanted a new supporting character for the Flash. Despite the acknowledgement that Schwartz did not realize DC owned the name Plastic Man acquired in along with other Quality Comics properties , Infantino and inker Murphy Anderson stated that he never used him as a reference for anything. However, in , he became a member of the Justice League of America, and he is mostly seen in that title from to Fictional character biography[edit] As a teenager, Ralph Dibny was fascinated by contortionists , or people who displayed feats of agility and suppleness. He learned that all of the body-benders he spoke with drank a popular soda called "Gingold. Ralph Dibny was one of the earliest Silver Age DC heroes to reveal his secret identity to the public, and also one of the first to marry his love interest. After teaming up with several other superheroes like Batman, Green Lantern, the Atom, Zatanna and the Justice League of America, he became a member of the team. Eventually, his wife became a member as well. The couple was also notable in having a stable, happy, and relatively trouble-free marriageâ€”an anomaly in the soap operatic annals of super hero comic books. The healthy, stable relationship between Ralph and Sue, and the events that led to and resulted from her death, were used as primary narrative devices throughout the series for examining the respective personal relationships of other JLA and JSA members and to a lesser extent, members of the supervillain community. The latter arc was produced before Identity Crisis but published afterwards. He confronts Cassandra Sandsmark , [6] and she tells Dibny that she is in a cult that believes that Superman can be resurrected. She invites him to the ceremony. Despite his initial agreement, Dibny and his friends disrupt the ceremony, but the effigy of Sue crawls to Dibny and calls out to him as it burns; Dibny suffers a nervous breakdown as a result. A voice from within the helm of Doctor Fate , unheard by the other members of the group, speaks to Dibny and promises to fulfill his desires if he makes certain sacrifices. The Perfect Accomplished Physician comes to the rescue. Both he and the Yeti are members of the Great Ten, defenders of China. He begins the spell to resurrect Sue, puts on the helmet of Fate, and shoots it, revealing Felix Faust , who was posing as Nabu. Through his death Ralph has trapped Faust and Neron in the tower, seemingly for eternity, though his methods of doing so are unknown. These events take place just prior to Countdown , indicating that Faust had only been there for a few weeks. In Batman and the Outsiders 5, it is revealed after appearing unknown in the previous two issues that Ralph and Sue have gained or discovered the ability to possess human bodies, like the ability of Boston Brand, AKA Deadman. Reign in Hell[edit] Ralph and Sue, in their ghostly forms, appear before Doctor Occult with news of the war brewing in Hell. Sent by Giovanni Zatara , who as a member of the Hell Resistance Movement hopes to take advantage of the war, they ask Doctor Occult to aid him in his plan. They then dissipate and leave him to make his decision. At the end of the issue in the promotional profile image of the Black Lantern Corps his hand is easily identifiable as popping out of its grave. Big Shot, reporting to the Riddler who in this incarnation of the team serves as " Mockingbird. Powers and abilities[edit] The Elongated Man gets his abilities from a combination of drinking a refined version of a soft drink named Gingold that contains the extract of a fictional fruit called gingo and his natural latent metahuman physiology. The extract interacts with a latent gene that Ralph has, thus activating his super powers. It was revealed in Invasion 3 that it was a metagene reaction to the Gingold elixir that had always provided him with his stretching powers, meaning that he is, in fact, a metahuman and that an ordinary human would not develop such powers through ingesting the extract. Also, most people are extremely allergic to highly concentrated Gingold. As his name suggests, the Elongated Man can stretch his limbs and body to super-human lengths and sizes. These stretching powers grant the Elongated Man heightened agility enabling flexibility and coordination that is beyond the natural limits of the human body. He can contort his body into

SHAPE SHIFTING AND TIME TRAVELING : LINKS IDENTITY ISSUES

RACHEL ROBISON pdf

various positions and sizes impossible for ordinary humans, such as being entirely flat so that he can slip under a door, or using his fingers to pick conventional locks. He can also use it for disguise by changing the shape of his face, although this is painful and difficult for him. He is largely able to withstand corrosives, punctures and concussions without sustaining injury. It has been demonstrated that he is resistant to high velocities that would kill an ordinary person and that he is also more resistant to blasts from energy weapons that would kill ordinary humans. In addition to his stretching abilities, Elongated Man is professionally trained as a detective and is highly skilled in deductive reasoning. Often considered one of the most brilliant detectives in the DC Universe compared with Batman only differing in the actual course of their logic. He is a talented amateur chemist as well. A meta-side-effect of his powers coupled with his detective skills is enhanced olfactory sense, allowing him to "smell" when something is "not right", or if a clue or mystery is at hand. This results in a rubbery "nose twitch". Firehawk once told Ralph that Green Arrow said the nose twitch was not a real thing but rather something he made up to get more press. Later Dibny is seen hawking a "male enhancement" drink "Gingold" in a TV infomercial. He is then recruited to aid Batman in his attack against the American government taken over by Lex Luthor. Countdown to Final Crisis[edit] Recently the Ralph Dibny of Earth , where secret identities are no longer needed by superheroes, has been seen in Countdown to Final Crisis. This version was a police detective until Barry Allen discovered that he had committed perjury and he was removed from the force. As a private investigator , Ralph winds up specializing in infidelity cases. Labs where Caitlin Snow helps him take control of his elastic powers. Labs team and works with him to help become a superhero. Cisco Ramon creates a special, unadorned costume for him to use. Ralph debuts as a solo superhero while Barry is in prison after being framed, and is at first nicknamed "Stretchy Man" before appearing in his new costume and being dubbed Elongated Man in a misunderstanding with the press. Although he appears in numerous episodes as a background character, he has only three episode with speaking roles. As they were on crowd control, he complains to Booster Gold about his position. This soon annoys Booster Gold, with Elongated Man saying that the squeaky wheel gets the grease. As he is helping clean up the mess in the city, Booster Gold walks past him alongside Dr. Flash asks Elongated Man if Flash seems immature. The Elongated Man appears in Batman: The Brave and the Bold , voiced by Sean Donnellan. This version possesses shape-shifting abilities. The two ductile metahumans constantly bicker on who is the better partner to Batman. Batman later gives the truth: The Dark Knight prefers to work alone between them. Additionally, Elongated Man appears in a non-speaking cameo in the two-part episode "The Siege of Starro! He joins the other superheroes in a musical number that asks Superman, Batman, and Wonder Woman about being called "Super Friends". In his part, Elongated Man stated that he was strapped for cash and asking Superman for money seems to be Kryptonite. He was caught by Flash, who runs around the place to tie him up on pillars and building structures. Then the Flash teases him with a flick of his elongated body with a rubber sound. In the animated film Justice League:

Avengers[edit] Jack of Hearts arrives at the Avengers mansion. The zombified hero explodes damaging the mansion. Ant Man, who approached his former teammate, is seemingly killed in the blast but in truth is teleported away by future versions of his daughter, Cassie Lang, and her teammates, the Young Avengers. Elsewhere, the mind-controlled Wanda arrives at the United Nations where she has a conversation with Captain America who announces that he is ending their fledgling relationship. Furious, Wanda uses her powers to cause Tony to suddenly become drunk and belligerent at an important meeting where the Avengers would have their UN security clearance revoked following the events of Secret War. With Doom and the mind-controlled Wanda watching from the shadows, She-Hulk is hexed by Wanda and becomes consumed with bloodlust, tearing Vision in half and brutally assaulting Wasp and Captain America. As the super-hero community gathers at the mansion, the Avengers do not know that several of the members are constructs created by the possessed Wanda on behalf of Doctor Doom to spy on the Avengers. As the Avengers fear that Ultron may be behind the attack, Doom orders Wanda to summon an armada of Kree soldiers to attack Manhattan. In the ensuing battle, Hawkeye is killed when his arrows are hit causing their explosives to go off. In his dying moments, Hawkeye takes out a Kree battleship in the blast after taking flight with a commandeered Kree jet pack. Reluctantly he allows Magneto to take his daughter with him after he vows to help her. Iron Man eventually defeats his impersonator and bring down the ring of corrupt senators who were behind the murder and Force being blackmailed. Realizing that his loved ones are being targeted by his enemies, Stark gives a press conference where he announces that he is resigning as Secretary of Defense and will no longer actively be Iron Man, in favor of returning to "subordinates" filling the role for him. Thor[edit] A mystic force that is the living embodiment of Ragnarok has begun slaying the Asgardian Gods, in rapid succession. Investigating the genocide of his people, Thor discovers that the universe itself is seeking to eliminate the Asgardians for cheating death by surviving countless previous attempts by the universe to fulfill Ragnarok and wipe out the Asgardians. Ultimately Thor allows himself to be destroyed, as all known Asgardians are destroyed. M when Cap starts having hallucinations; some of them involving encounters with his fellow Avenger Wanda Maximoff aka the Scarlet Witch. Meanwhile, Falcon is gifted a new enhanced costume from Wakanda and uses it to escape the feds. Captain America discusses his past, most notably his guilt from the death of Bucky, with Scarlet Witch and she eases his trouble. While they engage in a romance, Cap cites that he can not give her the normal life she desires due to his own emotional issues. Wanda, oddly tells him she has no recollection of their romance, indicating that Cap hallucinated the whole thing. The kiss transforms him into her spider-creature. However the kiss has an unexpected side-effect of making him "pregnant", which regressed him back into his human form. As a side-effect, Peter now finds himself able to produce organic spider-webbing from his wrists and has a psychic link with all insects. The queen seemingly dies in the collapse of the underground subway. Fantastic Four[edit] While the Avengers face the destruction of their mansion and the invading Kree armada, Wizard and the Frightful Four launch a surprise attack on the Fantastic Four, defeating the heroes and seizing control over the Baxter Building. The Fantastic Four regroup and beat the villains. Captain America[edit] Following the events of "Disassembled", Captain America is naturally depressed and rekindles a relationship with Diamondback Rachel Leighton. During these events Steve realizes his love for Rachel. Aftermath[edit] In the wake of "Avengers Disassembled", two new Avengers series were created. The New Avengers title replaced the Avengers title with a new No. This new title continued with the creative team of writer Brian Michael Bendis and artist David Finch. The other title, premiering February , was Young Avengers , which featured teenage heroes, each of whom excepting Hawkeye related in some way to the legacy of the Avengers. The group was revived by its creators in July

SHAPE SHIFTING AND TIME TRAVELING : LINKS IDENTITY ISSUES

RACHEL ROBISON pdf

with the bimonthly series Avengers: This in turn led into the House of M mini-series and crossover, also written by Bendis. As for the Avengers killed during Disassembled saga, they have all returned to life in separate events. Hawkeye was rematerialized by Wanda during the House of M story. Ant-Man is thus brought to the present along with the Young Avengers. List of crossover issues[edit] Avengers â€™ main story.

Character history[edit] She first appears in the Fifth Doctor serial Planet of Fire , in which she encounters the Doctor and Turlough on the island of Lanzarote. After an encounter with the Master and the shapechanging android Kamelion who disguises himself as her stepfather, Professor Howard Foster , Peri asks to join the Fifth Doctor on his travels, while Turlough departs to return to his home planet of Trion. As they are both suffering from spectrox poisoning on Androzani, the Fifth Doctor decides to give what antidote remains to Peri, sacrificing himself to save her. As she looks on, he regenerates into the Sixth Doctor at the end of The Caves of Androzani and she continues to travel with him, despite the fact that one of the first things the temporarily unstable Sixth Doctor does is try to strangle her The Twin Dilemma. Peri is a bright, spirited young woman in her early twenties, who travels with the Doctor because, like many of his companions, she wants to see the universe. Although she shares a more abrasive relationship with the Sixth Doctor, there is an undercurrent of affection in their verbal sparring. Peri travels with the Doctor for an undisclosed period of time; some sources say she travels with him for mere months, while others say years. Between the events of Revelation of the Daleks and the season-long story The Trial of a Time Lord , the character is shown to have matured somewhat coinciding with an month production break between the two stories and her relationship with the Doctor becomes less combative. In the second segment of the Trial story arc, Mindwarp , Peri is abducted by an arthropod-like creature named Kiv, who apparently transplants his brain into her body. Soon after, the Doctor is led to believe that Peri is dead, and is severely distressed by this. Peri has, in fact, survived, saved by, and marrying, King Yrcanos of Thoros Alpha, a warrior king who had assisted the Doctor and Peri during the Mindwarp incident. It is not known what happens to Peri after she marries Yrcanos. Other appearances[edit] Peri Brown has the distinction of being the first humanoid television companion to appear in the Doctor Who Magazine comic strip previously the strip, which began in , depicted the Doctor either travelling alone or with companions created for the strip, while the robotic television companion K9 was featured in several DWM comic strips featuring the Fourth Doctor. Her first appearance is in "Funhouse Part 1" DWM in which she appears in two panels as a scantily clad apparition manifested by a villain. The epilogue to the Target Books novelisation of Mindwarp by Philip Martin states that Peri returns to the 20th Century with Yrcanos where the latter becomes a professional wrestler. This tongue-in-cheek conclusion is not reflected in any televised story, and is generally ignored by fandom. In the novel, the Seventh Doctor makes peace with Peri after she finds her way back to Earth through a temporal rift on Krontep, and returns her to her time. Forward reveals that Peri had been sexually abused by her stepfather. In several of these stories, the Fifth Doctor and Peri are joined by another companion, the Egyptian princess Erimem. In the audio play Her Final Flight , the Sixth Doctor finds Peri on a remote planet, where she apparently dies of a virus, although it is revealed that the entire story was part of a fantasy designed to make The Doctor kill himself. Another audio play, Peri and the Piscon Paradox , states that the Time Lords made several adjustments to her time line, resulting in at least five alternate versions of Peri with different fates, including one that thought she never travelled in the TARDIS but instead moved to California and eventually hosted a talk show called The Queen of Worries after divorcing her abusive childhood sweetheart. Bryant played the role of "Miss Brown" in the first three installments of the BBV video series The Stranger , opposite Colin Baker as the Stranger; although the character is never explicitly identified as being Peri much as the Stranger was never directly linked to the Doctor there are nonetheless similarities in the two characters, with one major difference: Bryant uses her natural English accent for Miss Brown rather than affecting an American one as she did with Peri. List of appearances[edit].

Is the show entertaining? Is there queer representation? Does it make us laugh or cry, or inspire us to rise up and resist the forces that oppress us? Or does it help us forget our troubles? The following shows check at least one if not more of these boxes. So relax, pull up a chair, and happy viewing!

I Love You, America Button-pushing funny woman and longtime lefty Sarah Silverman has a history of reaching across the aisle, as it were. Premieres September 12 at 10 p. There she meets Michael Ted Danson a devilish angel or is he an angelic devil? The series, from Parks and Recreation creator Michael Schur, is arguably the quirkiest show on television. Premieres September 27 at 8 p. Created by Raphael Bob-Waksberg, the show is a humorous satire of the politics of Tinseltown, as seen through the eyes of various anthropomorphized animals like BoJack and his feline agent Princess Carolyn Amy Sedaris. Premieres September 14 on Netflix.

Single Parents A necessary look at unconventional families and the struggles single parents face, this comedy is a must-see for queer viewers. The show, which was originally meant to be a CW companion to Riverdale before it moved to Netflix, stars Kiernan Shipka Mad Men as Sabrina Spellman, a half-witch on the eve of her 16th birthday, who must reckon with her dual identity while also fighting the forces of evil. Each episode will be framed as a mini-film, with one reportedly inspired by horror classic The Exorcist. Premieres October 26 on Netflix.

Empire This look into the world of hip-hop brought viewers sass and an unflinching portrayal of the struggles black gay men face. Premieres September 26 at 8 p.

Murphy Brown The Trump administration, with its relentless attacks on the news media, spurred journalists like Dan Rather to come out of retirement to defend the freedom of the press. Premieres September 27 at 9: Premieres October 4 at 9 p. The 10th and last season premieres this fall “ with the hope from some reviewers that the show will severely shake things up before the final send-off. Cam and Mitchell got knocked for their sexless existence, but many think their portrayal of loving dads to little Lily helped soften gay folks to America. What awaits Cam and Mitchell in this season is unclear, save for the fact that they are now taking care of Cal, a little boy whose mother is in jail. Premieres September 26 at 9 p.

Atypical Atypical, created by Robia Rashid, made television history last year for its lead character, Sam Keir Gilchrist , a teenager with autism. Through Sam, viewers of the Netflix show could understand the struggles that come from living with a developmental disorder as well as the impact on a family. Many queer fans could also relate to Sam and his difficulty fitting into a society that was not made for them. Premieres September 7 on Netflix.

Crazy Ex-Girlfriend Rachel Bloom is back for a final season portraying the Ivy League lawyer who still clumsily falls in and out of love like the rest of us. LisaGay Hamilton, who won hearts on The Practice back in the day, plays Colonel Kayla Price, a queer woman of color and an astronaut who champions the importance of science in a planned mission to Mars that comes on the heels of one that ended in swift disaster. A welcome break from the standard all-American cheering on for the space race, The First takes into consideration issues like funding the space program when environmental and social programs to help people lack money. Premieres September 14 on Hulu.

The Flash premieres October 9 at 8 p.

Black Lightning The CW superhero world has a reputation for being big on LGBTQ representation, but that universe really outdid itself with Black Lightning, about a family of superheroes of color who battle racism and other social problems by day and villains by night. Premieres October 9 at 9 p.

The Conners While transphobic Trump supporter Roseanne Barr was fired in the wake of her racist tweet, for which she made lame excuses, the show will go on for the working-class Conner family in the fictional Midwestern town of Lanford. Premieres October 18 at 8 p. But the cultural significance of this sitcom does not end there. On Black-ish, intersectional, heartfelt storytelling is just a given. The candid look at blackness, family, and suburbia is full of teaching moments that never feel didactic. The show, which is to feature a queer woman of color “ Deborah Fields, a. **House of Cards** The sixth and final season of this political potboiler will have President Claire Underwood Robin Wright front and center “ her husband, former president Frank

SHAPE SHIFTING AND TIME TRAVELING : LINKS IDENTITY ISSUES

RACHEL ROBISON pdf

Underwood, is now dead. Disgraced gay harasser Kevin Spacey, who played Frank, was fired from the Netflix show after dozens of his accusers went public. So get ready for eight *Cards* episodes where conniving Claire runs the world — Hillary had the presidency stolen from her, but at least we can live vicariously through Claire Underwood. The season drops November 2 on Netflix. Premieres October 31 on CBS: *Superstore* America Ferrera has stepped up as a major voice of *The Resistance*, and her sitcom, which explores class and family, is no exception. Premieres December 30 on Fox. A horror film about a literal girl from hell, the original movie was silly, shocking, and, at times, terrifying. The dynamic between the mother and daughter is at the heart of the movie, so swapping the maternal character for a paternal one played by executive producer Rob Lowe is a tad concerning. Premieres September 9 at 8 p. The gimmick of the blind audition and the big reveal! Premieres September 24 at 8 p.

Meanwhile, Mystique had an affair with the mysterious Azazel from La Isla des Demonas and became pregnant with their child. The baby was born visibly mutated with blue fur all over, pointed ears, iridescent eyes, and a prehensile tail. Mystique passed out and left young Kurt Wagner floating down a river during her escape. Margali took the baby back with her to the circus. Later, Kurt and Stephan forged a true friendship as they grew older, and Stephan knew that his magical heritage might lure him to evil one day. So, Stephan had Kurt promise him a blood-oath, that if he ever killed without reason, Kurt would kill him as well. Fearing the worst, Margali worked with Armen Freilich to free Kurt. As he fled, he accidentally knocked over a torch, igniting the circus. Getmann and his men chased Kurt through the forest and were about to shoot him in the face when he teleported for the first time. Two days later, he was discovered and welcomed and Kurt happily found a home trading shelter for labor. One evening, Armen burst in the door, apparently being chased by Getmann and his goons for escaping. Father Wagner tried to stop them from taking the boys, but the men proved too strong and set the church on fire during the brawl. Kurt ported Armen to a nearby farm before going back and beating on Getmann. Just as he was about to kill Getmann, Father Wagner reminded Kurt of his humanity. With the tides turned, Getmann and his men took aim to kill both Kurt and the Father but were frozen. Years later, the Texas millionaire Arnos Jardine, who ran a large circus based in Florida, heard of the circus Wagner worked for and bought it. Jardine intended to move its best acts into his American circus. Appalled, Wagner quit and made his way towards Winzeldorf, Germany, where Stephan was. Kurt discovered that Stephan had gone mad and had brutally slain several children. Two nights after leaving the circus, Wagner found Stephan and fought him, hoping to stop his rampage. Then the villagers of Winzeldorf, who assumed him to be a demon who was responsible for the child killings, discovered Wagner. They were about to kill him, when they were all psionically paralyzed by Professor Xavier, who had come to recruit Wagner into the X-Men. However, Margali was not there and she held Wagner responsible for murdering Stefan. X-Men Wagner helped Prof. Xavier and Cyclops rescue the original X-Men from Krakoa. The second group of X-Men were mostly adults and required no tutoring from Professor X, but trained in the use of their powers, in the Danger Room. Investigating the murder of an old friend, Eric Hoffman, Kurt briefly battled Spider-Man, and The Punisher, until the real killer, Jigsaw, was revealed and the trio defeated him [5]. While meeting Amanda at an airport, Kurt recognized the plane of Arcade and overheard that he had been contracted, by Arnos, to kill Spider-Man and refused. There, he faced Margali Szardos, who held Kurt responsible for the death of Stephan. When Nightcrawler convinced Margali that Stephan had gone insane, she forgave Kurt and departed.

The Legend of Zelda and Philosophy is a series of essays that explores topics both confined to the game, as in Rachel Robison's "Shape Shifting and Time Traveling: Link's Identity Issues", to more.

Detective Comics May Arthur Brown was a game show host until he turned to a life of crime. He is the father of Stephanie Brown. The Brave and the Bold 78 June The original Copperhead, John Doe, was a criminal who committed numerous thefts in Gotham City wearing a snake costume before finally being apprehended by Batman and Batgirl. Donning a costume and taking the name "Count Vertigo", he embarked on a life of crime. Despite primarily being an enemy of Green Arrow and Black Canary, he has been known to come into conflict with Batman. He also set out to kill his descendant, Bruce Wayne. Electrocuter [] [] [] Batman January The original Electrocuter is an unnamed vigilante who murders criminals with electricity. He is eventually killed by Adrian Chase. He is a vigilante like his predecessor. Detective Comics May Lester Buchinsky is the brother of the original Electrocuter who started off as a vigilante like his brother but soon became a mercenary. Living Hell 1 July Former crooked investor Warren White thought he scored a legal victory when he won the insanity plea in court. After much torture and abuse, a disfigured Warren White was driven insane. He is among the villains who are executed by the second Tally Man. He is among the villains who was killed by Bruno Mannheim. Completely delusional, yet quite dangerous, he usually uses electricity-based weaponry to emulate the lightning bolt of Zeus, and at one point formed the New Olympians consisting of characters based on Greek mythology characters. Though briefly cured of his delusional state, he reverted to his Maxie Zeus persona when the Joker murdered his nephew. Green Arrow 12 March Onomatopoeia is a serial killer who targets non-powered, vigilante superheroes. He earned his name because he imitates noises around him, such as dripping taps, gunshots, etc. No personal characteristics are known about Onomatopoeia, including his real name or facial features. Onomatopoeia is a superb athlete, martial artist, and weapons expert. He carries two semi-automatic handguns, a sniper rifle, and an army knife. Prometheus 1 February While the original Prometheus, Curtis Calhoun, was an enemy of Blue Beetle, the most notable villain to use the name is a twisted mirror image of Batman. As a child, he watched in horror as police slaughtered his parents in a Bonnie and Clyde style shoot-out. He swore revenge upon "justice". Flash Comics 36 December Peter Merkel is a master contortionist and hypnotist who has fought Batman on many occasions. Since the New 52, he has been an inmate at Arkham Asylum. He has the ability to communicate with and train rats, and uses them to plague Gotham City. Shortly after the Infinite Crisis began, Ratcatcher was killed by an OMAC agent in hiding who identified the Ratcatcher as a gamma level threat and vaporized him. He is behind Flashpoint where he was killed by Thomas Wayne, but brought back to life later developing the new grudge over his killer and his family. Opposed Batman in the Button where he was decimated by an unknown being. Eventually, brought back even after this. All-American Comics 61 October Cyrus Gold was a Gotham City merchant who was murdered and thrown into Slaughter Swamp, where he was transformed into an undead, incredibly strong, zombie-like creature. Solomon Grundy was initially an enemy of Green Lantern, but has had numerous encounters with Batman. Detective Comics 74 April Dumphrey and Deever Tweed are a pair of cousins whose similar looks often have them mistaken for identical twins. Green Lantern 10 Winter A caveman that was exposed to a meteorite that gave him immortality, and who has manipulated history, such as being a Pharaoh in Egypt and assisting the murder of Julius Caesar. The League of Assassins[edit] Main article: The group has been led at times by Dr.
