9/24/ PM. skyscraper. This is one of my favorite songs by Demi Lovato. I looked up how to play the song on the internet, but the sheet music was much more helpful.

Problems playing this file? As the song progresses, the piano is accompanied by heavy percussion and breathy backing vocals. In the second verse, Lovato "begins to find more strength". The song has a simple musical structure. According to the sheet music published on Musicnotes. With the song, Lovato hopes that "people are able to relate to it and realize that they are able to rise above and overcome any obstacle, no matter the circumstances and shine like a skyscraper". It sold 11, copies which was her highest UK charting song at the time and her third top forty entry in the UK. It reached number seven on October 7, , giving Lovato her second UK top ten single. It was the toxicity took over my mind for so long, that oozed out of every pore that I had because I was suffering inside The music video was filmed at white sands, NM. She said, "he had a great way of really interpreting the song into a video and I was just really thankful that he did such a great job. But he is such an incredible artist and he really knew how to interpret that into a incredible video. I kept crying, I was so emotionally invested The video begins with Lovato walking towards the camera on a desert road in Bonneville Salt Flats while wearing a long white dress. In the first chorus, a glass heart enclosed in a glass box is shown, surrounded by fog, and Lovato continues to walk down the road. In the second verse, she is surrounded by a black fabric that represents the "toxicity" that took over her mind in the past. In the bridge, the glass box, with the heart inside, is hit, and the surface breaks. Release and reception[ edit ] The music video premiered on July 13, on E! News , and it was released by Vevo on July 14, James Montgomery of MTV News was very positive on the videoâ€”especially the scene when Lovato looks into the camera and almost breaks into tears. And that simplicity is perfect here, because the song provides all the pyrotechnics necessary. Lovato performed the song in English, while she performed in Spanish, at the second verse of the song. The song also appeared on Today and Extreme Makeover: Appearances in other media and cover versions[ edit ].
