Beschreibung bei Amazon The agents of large publishing houses are starting to take a closer look at self-publishing sales. These are indicators of trends and have led to a new category for publishers to consider, that of young adult romance fiction. The success of some self-published authors has turned some heads in the industry. One of the most successful self-published authors is Colleen Hoover. She was one of the first to be picked up by a large publishing house for her first book entitled Slammed. Background As an independent American author from Texas, Colleen Hoover came to writing as a hobby, but still something she felt compelled to do. Like most modern working women, she balances her work, her marriage, her two young sons and still finds joy in writing and promoting her own creations. As all good writers realize, she writes what she knows – family, friendship, change, and especially love. Her plots and characters have immense appeal among young women readers, and she sets her characters in modern day situations of friendship, new relationships, first love, and heartbreak. She takes the perspective that falling in love can be a lot like falling into poetry. In this story we meet Layken, an 18 year old forced into the new setting of small town Michigan after being raised in Texas. Her father has died tragically and she is losing hope. In her new home she makes new friends and meets an attractive neighbor. The neighbor is also her poetry teacher and he attends slam poetry readings. More drama ensues and their relationship is slammed to a sudden halt. They struggle to find balance between the feelings that pull them together. Add to this an important secret that threatens to keep them apart. In this story it is only through poetry that the truth is in their hearts, and the characters of Layken and Will hope for a future where their love can be a cause for celebration, not regret. Point of Retreat In the sequel to her enormously popular bestseller Slammed, Colleen Hoover continues the story of Layken and Will and their passionate connection. As their emotional story continues, an unforeseen and stunning revelation twists the plot right from the get go. The two must decide if they are willing to fight for a future together when it is all put at risk of falling apart. Will the drift back into solitude and heartache or persevere and overcome together. Sometimes a relationship is truly tested. How far will these characters go to prove their love for each other? How far apart do they have to fall to realize how much they belong together? What is the point of retreat? How will the decisions they make effect the people around them that they hold near and dear to their hearts? This is a genuine story of young newlyweds, and the years of discovery still going on between these two beloved characters. By the end of the trilogy, it is apparent that the future rests on how well Layken and Will manage to deal with their pasts, together. Other Books Colleen Hoover continues to craft novels that have become bestsellers, and not through the conventional publishing house methods. She is a forerunner in an emerging group of independent romance writers that connect with their fan base in blogs, websites and book signings. Today, it is easier than ever to truly communicate with an author and to get response to comment, praise and even criticisms. This is what fuels self-published independent authors. Instant response from their readership, that can guide their projects, and even their plots, to meet the demands of their readers. For her fan base, Hoover has also made available a novella for free called Finding Cinderella. This is the beauty of internet marketing and social media. Even though Finding Cinderella is a sequel of sorts, it can stand alone too as its own work. Hopeless Here Colleen Hoover has emerged with a new story based on Sky, a high school senior who has her first romantic encounter with Dean Holder, a boy with a reputation and a mysterious past. Writing about dealing with people who have devastating pasts is very current theme for Colleen. The two are drawn to each other, even when they try to resist, and as secrets are revealed, their bond is intensified. Change in both of them is paramount and both characters hope to heal their emotional scars and live with less boundaries in their young lives. In the companion book Losing Hope, Colleen take the story further, but this time from the perspective of Dean, the troubled youth with secrets to reveal. Feelings of guilt and remorse have plagued the young Dean, and he searches for a sense of peace in his dilemma with Sky. When they finally reconnect, a greater pain embraced the young man. Connecting with Colleen Hoover Colleen Hoover is a regular blogger and also posts random videos on Instagram for her followers. She will candidly talk about
