I love this cover by the way. In the story, the heroine, Katrina, is blond-haired, stubborn, almost out of funds and is demanding her inheritance in order that she might marry into royalty. She has also grown up without ever knowing her parents "who perished out West" or her uncle, who holds the purse-strings to her inheritance. There are problems "mainly that her uncle will not release her funds until she comes West and parades her fiance in front of him for his approval. I must admit that it really is a lot to ask of a young woman who has known only the comforts of New York City" still it was rather fun to play around with her outrage. Of course the story goes on from there "spoiled, rich-girl meets handsome, yet determined young Indian warrior. Now, the truth of the matter is that the character of Katrina was patterned after my daughter, Trina, who is definitely not blond. Not that Trina is spoiled, but at the writing of this story, Trina was a teenager "about nineteen, I believe" and she definitely had her likes and dislikes. Off to the side here is a picture of Trina with her daughter and my granddaughter, Lila. In writing this book, I often had pictures of clothing and what the heroine might have looked like at that time. I love this clothing, I must admit and sometimes wish we could go back to an age where women looked so very feminine. Now this picture to the left really "in my mind" has the look of my heroine at this time. There is one scene in this book that I particularly like. At the writing of this book, I had just the previous year, married my husband, Paul. When I married Paul, however, I also discovered that he was extremely close to his brother, Bob "this picture to the right is of Bob and Paul" Paul is the one sitting down. But this particular scene was about these two fellows and what they would do if they were there to rid themselves of this very unwanted person, and send him packing for home. The reason I have to show you is that this cover is also one of my most favorite covers. White Eagle motioned the marquess forward just as Katrina began to set foot into the boat. But White Eagle motioned her away, despite her protest, making signals to his friends to bring forward the marquess and his dogs. White Eagle turned to Katrina. She watched as the marquess sauntered toward them. It is about time. White Eagle beckoned to Good Dancer to come forward, and after some counseling, Good Dancer strode toward the water, taking the rope of the boat in his hand and leading the craft into the water. He began to swim ahead of the boat, tugging the craft out into the swirling currents. No sooner had the marquess set out in the boat, when White Eagle directed both Katrina and Rebecca into the wagon. This being done, White Eagle and Night Thunder took hold of the rest of the horses and began guiding those animals, too, across the water. No one appeared to notice the bull boat being led farther and farther downstream, away from the main party; not even the marquess, who, it would seem, was busily engaged in gazing at the sky and sipping the wine he had managed to bring with him. Trouble hit without warning. One of the ponies pulling the wagon stepped into a pool of quicksand and jerked on his bridle, unseating the drivers and shooting them forward. The horse next to it reared, becoming entrenched, itself, in the mire and only the fast action of the two drivers saved the wagon from the same fate. One of the horses tried to rear again, its action tilting the wagon off kilter. Katrina screamed; Rebecca, also. The two women held onto one another as readily as they did to the wagon, and Katrina, as the wagon sank deeper and deeper, decided it would be better to jump for freedom, rather than sink into the muck of the sand. Now, ready, one, two, three. Suddenly it was over. Strong hands caught hold of Katrina and pulled her out, bringing her up and onto a horse. My friend has her. The currents unseated them, and White Eagle barely held on to the pony by its tail, though he never took one arm from around her. Soon, the other shoreline beckoned, and, within moments, the pony leapt to its feet, White Eagle able to do the same almost as quickly. Still, White Eagle jumped back onto his mount and guided it once more into the water, Katrina watching him cross over, to the other side. Good Dancer and Night Thunder had already rushed to the wagon, Night Thunder having deposited Rebecca safely on solid ground much as White Eagle had done with Katrina but, rather than chance the danger of the river, Night Thunder had settled Rebecca upon the safety of the eastern shore of the river, the opposite shore from where Katrina now stood. Katrina looked around her to see if she could find any sign of

the bull boat, but there was nothing to be found; as best she could tell, the marquess had not landed upon this same shoreline. Yet there stood Good Dancer, trying to extricate the wagon. And he had been the one leading the bull boat. Where were the Englishman and his dogs? Had they been set adrift? Far from being alarming, the thought was amusing. Katrina returned her attention to the ponies and the wagon. The Indians and the two servants sprawled for the moment upon the sandy shore—but on the opposite side of the river. And no one seemed in any hurry to see to the marquess and his concerns, wherever he was. Almost an hour passed, an hour during which the Indians sat up and smoked, working over something, while the white men rested. Katrina had tried to communicate to them all by shouting across the distance of the river. But it was almost impossible—nothing could be heard over the noise of the river. The most she learned was that Rebecca remained unhurt. Finally, the Indians arose; to go in search of the marquess, she supposed. But what had happened to the marquess? He stood drenched from head to foot, while the Indians, in contrast, remained amazingly dry. And then she saw that White Eagle did not return with the others. Without realizing what she did, she started toward the river, more willing to face it than remain in ignorance. They are turning back. Why is she still over there? When will you and the other guides be bringing her across the river? She has no one to watch over her and protect her there. Either I must go with her or she must be brought to me. They are as helpless as newborn babes. She must stay with me. It is better they stay together. Night Thunder will be with her. This I can promise you. Is that what bothers you? Good Dancer and his wife will join us as soon as the others have started back to the fort. And with us as yet unmarried? So mayhap you are correct in your judgment. And so she did the only thing afforded her in her situation. Do come on in and leave a comment. And of course the Giveaway Guidelines all apply. 8: Soaring Eagle's Embrace -- book review

Soaring Eagle is a delightful male lead as he quickly changes from antagonist to protagonist. On the other hand, it is frustrating is that the lead female spends much of the tale in denial until a photograph persuades her to reconsider.
