Aired On 09 Dec Solving Problems Through Prayer. Becoming a Christian doesn't mean that you won't have problems. It does mean, however, that you have an asset when these difficult times come.

However, it does mean you can turn to your heavenly Father instead of wrestling with difficulties in your own strength, according to your own wisdom. This is exactly what Jehoshaphat did when he learned that three armies were about to attack his kingdom, Judah. The king immediately turned to the Lord by calling his people to fasting and prayer. God is interested in your problem. Jehoshaphat immediately turned to prayer when he learned of the impending attack 2 Chron. If you are His child, the Father is interested in helping you overcome anything that is discouraging or defeating you Ps. God is greater than your problem. Jehoshaphat knew the immense danger his nation faced, yet he acknowledged the mighty power of the Lord to overcome anything 1 Chron. The Father is perfectly capable of leading you to victory, no matter what the situation may be Jer. Our first response should be to seek the Lord. Jehoshaphat immediately turned to prayer 2 Chron. In times of crisis, do you initially go to the Lord? I challenge you to seek Him first. Let God put your problems in perspective, and then tell a wise friend who can support you with prayer and godly advice. God may want to involve other people in praying for your situation. Sometimes the things that worry us affect other people, such as our families, churches, or communities. Jehoshaphat involved the whole nation in praying for the Lord to deliver them from their enemies 2 Chron. One of the greatest blessings in life is having godly, trustworthy friends who know how to intercede on your behalf. God will provide a solution to your problem. While the people of Judah were in prayer, the Lord revealed that He would fight the battle on their behalf 2 Chron. We also can trust that God, who for our sake did not spare Jesus the agony of the cross, will willingly give us what we need Rom. The Father will sometimes delay answering prayers because He wants to develop in us greater spiritual maturity. He is more interested in our character than our comfort. Our prayers should be God-centered, not problem-centered. When you pray, do you tend to focus on the trial before you? Important decisions typically challenge our confidence to some degree. In 2 Chronicles Sure enough, in confusion, their enemies turned on and killed each other vv. However, if the answer is truly from Him, He will provide the faith needed to follow His commands. The Lord knows every intimate detail of any situation, including the personality and past of each person involved. If we are willing to trust in our heavenly Father, we will discover the best solution possible. Do you think God is interested in your trials? Use the prayers of the Manifestations as they have the greatest power. Then remain in the silence of contemplation for a few minutes. Arrive at a decision and hold this. This decision is usually born during contemplation. It may seem almost impossible of accomplishment but if it seems to be as answer to a prayer or a way of solving the problem, then immediately take the next step. Have determination to carry the decision through. The decision, budding into determination, is blighted and instead becomes a wish or a vague longing. When determination is born, immediately take the next step. Have faith and confidence that the power will flow through you, the right way will appear, the door will open, the right thought, the right message, the right principle, or the right book will be given you. Have confidence and the right thing will come to your need. Then as you rise from prayer, take at once the 5th step. Act as though it had all been answered. And as you act, you, yourself, will become a magnet, which will attract more power to your being, until you become an unobstructed channel for the Divine power to flow through you. Many pray but do not remain for the last half of the first step. Some who meditate arrive at a decision, but fail to hold it. Few have the determination to carry the decision through, still fewer have the confidence that the right thing will come to their need. But how many remember to act as though it had all been answered? How true are these words "Greater than the prayer is the spirit in which it is uttered" and greater than the way it is uttered is the spirit in which it is carried out. Shoghi Effendi Pilgrim note The above five steps were suggested by the beloved Guardian Shoghi Effendi to a believer as a means of finding a solution through the use of prayer. This statement belongs to the category of statements known as "pilgrim notes", and as such has no authority, but since it seems to be particularly helpful and clear it was felt that believers should not be deprived of it. 4: Charles Stanley " Solving Problems Through Prayer

Problems are tremendous opportunities for learning more about God. Through prayer we make our requests known to Him so we can witness His power in our dilemmas. Prayer is a power base of instruction and a potential foundation to a deeper knowledge of the adequacy of God.

God was working in powerful ways. Daily there were reports of new people coming to faith in the risen Savior. It was an exciting time. But the early church was not a perfect church. Now Luke shows us another problem that occurred in the midst of this phenomenal growth: Luke has followed a pattern from chapter one that alternates between a picture of the church alone and the church in relation to the world James Boice, Acts [Baker], pp. In chapter one, the church is alone, gathered for prayer in the upper room, where they elect an apostle to replace Judas. In Acts 2, we see the church in the world. Peter preaches and 3, souls are saved. At the end of Acts 2, Luke gives another picture of the church life. In Acts 3 through 4: For the rest of chapter 4 and through the first part of chapter 5, we again get an inside view of the church. They gather for prayer, and we learn of their unusual generosity and care for one another. But we also learn of the hypocrisy of Ananias and Sapphira. Now Luke again turns inward, showing us this problem that occurred within the church at this time of unusual growth. By introducing us to Stephen, he sets the stage for the next outward scene, where Stephen is stoned and the church is scattered. By this alternating pattern, Luke seems to be showing us that the church must maintain a balance. Some churches are so outwardly focused that they fail to attend to problems within. If those problems are not addressed, the church may grow at first, but eventually the internal problems will result in discord and disintegration. Other churches are so inwardly focused that they forget their mission in the world. If they do not recover their sense of mission, they will be consumed with bickering and self-centeredness, leading to demise. Healthy churches maintain the balance of dealing with internal problems, but also staying focused on the task of taking the gospel to the world. Our text reveals to us some principles for solving problems that arise in the local church. Since seven is the biblical number of perfection, I want to give you seven principles for problem solving in the church, derived from our text. In the words of Proverbs 3: Rather, in all his ways he acknowledges the Lord. He does not act with human or worldly wisdom, but in accordance with the wisdom revealed in Scripture. The apostles hear of this problem in the church. They reiterate this in 6: Before the apostles laid hands on them, publicly setting them apart for this ministry, they prayed 6: This is vital to solving any problem in the church! The entire congregation, especially the leaders, must walk in daily, practical reality with the living God, in submission to His Word, in dependence on Him in prayer. Many churches are run like American politics, with influential men forming power bases, working behind the scenes to get enough votes to orchestrate a victory. But they are not seeking the mind of God in submission to the Word and the Holy Spirit. These books give the overall impression of being based on the Bible, but often they are based on the latest secular ideas. Spiritual people may glean some insights from such books. Note also that spiritual people are concerned for the total person. This problem arose in connection with distributing food to needy widows in the church. The Bible has a special concern for widows and orphans see 1 Tim. In that culture, widows often were left destitute, with no family and no means of support. The church tried to meet these needs. True spirituality is not impractical and other-worldly. As Amy Carmichael once pointed out to some critics of her ministry to the needy people of India, souls are rather securely fastened to bodies! Even spiritual people have problems. We have already read of the sense of unity and community in this early church. They had the best leaders imaginable in the twelve apostles. They were growing in a way that can only be attributed to the power of the Holy Spirit. And yet they had this problem. Whenever you have growth through new conversions, you will have problems. Spiritual babies always dirty their spiritual diapers. They wake you up in the middle of the night with their crying. Like all babies, spiritual babies are usually self-centered at first. Even mature believers are not exempt from self-centeredness, struggles, and sin. So every church, especially every growing church, is going to have problems. This problem was probably not deliberate. The Hellenistic Jews felt like their widows were being slighted, while the Hebrew widows were getting more than their fair share in the daily distribution of food. The Hellenistic Jews mostly came from

outside of Palestine, spoke Greek, and were largely influenced by the Greek culture. But getting saved did not erase all of these background factors. This applies both to the church and to entering a marriage, by the way! That is a lifelong process. There would not be all of the exhortations to Christians to love and forbearance in the New Testament, if it were automatic. Even spiritual people have problems and conflicts. Note also that this problem arose out of a ministry. It was because they were trying to serve the Lord by meeting the needs of these widows that this conflict arose, not because they were worldly-minded and doing nothing about the problem. We are not told whether the Hellenistic Jews went directly to the apostles and discussed this problem, or whether the apostles heard about it through the grapevine. We are told that the Hellenistic Jews had a complaint. Leaders cannot deal with problems that they do not know about. When the apostles heard about the problem, they called together the whole congregation. They did not blame anyone or lash out in self-defense. Rather, they explained their philosophy of ministry, laid out some guidelines, assigned the congregation the task of finding seven qualified men to deal with the problem, and gave those men the authority to deal with it. Spiritual people are committed to harmony expressed through diversity. Even though these two groups had diverse backgrounds and even different mother tongues, they wanted to work this problem out in a spirit of unity, not division. There are legitimate times to separate from professing Christians or churches, although that subject is beyond the scope of this message. But unless there are biblical grounds to separate, God is glorified when people from diverse cultures and backgrounds worship Him together on the common ground of salvation through Jesus Christ. God wants us to reach all segments of society so that those from every walk of life will gather in love and unity to sing His praises. So we must commit ourselves to work through our problems whenever it does not compromise essential truth. Often problems in the church can be explained and resolved by understanding spiritual gifts. Not even the apostles could do it all. They were gifted and called to the ministry of prayer and preaching the Word. They were not control-freaks, who had to direct every aspect of church ministry. They were willing to delegate responsibility to other godly men who could deal with the problems. The laying on of hands symbolized the apostles giving recognition and approval to these capable men to carry on this aspect of ministry. One key to solving church problems is to recognize and implement the division of labor on the basis of spiritual gifts. No one man or group of men, however gifted, can carry on the work of the local church. It is only when every member gets involved in serving in accordance with his or her gifts that the church will be strong. Also, we need to understand that often people grumble about problems that are directly related to their area of spiritual gift. If someone complains that the church does not do enough in outreach, you are probably looking at a person with the gift of evangelism. If she complains that the church is not friendly enough, chances are she has the gift of hospitality. The one who grumbles about how disorganized the church is probably is gifted in administration. The man who laments the lack of discernment of spiritual error is probably a prophet. The key to resolving differences is for each person to recognize the validity of all the gifted members and to use his or her gift to work on the problems that he perceives. The church will only be strong when every member commits himself to the ministry that God has gifted him to do. It has kept me focused on my major task when many other things pressure me to spend my time in other ways. Prayer and the ministry of the Word are interrelated. You cannot properly preach the Word unless you wait upon God in prayer. Also, prayer is essential because even when God has gifted you to preach His Word, you will always be overwhelmed with how inadequate you are for the task 2 Cor. You must pray that God will bless your preaching of His Word with lasting fruit. It takes time to prepare biblical sermons. They could not do both.

Print This Post Prayer is the way to solve all problems. You have heard it time and time again that whatever problems you face, take it to the Lord in prayer. Cast all your cares upon the Lord for he cares for you. Prayer is our relationship with the divine. The One that is above all is like a father and mother to all creation. The Source whom all things flow and the providence for all needs in the universe. We are all aspects of the Source and individuations of the One. Prayer is a means of communicating with our Higher Self of all. Ask and it is given. You do not have because you do not ask. You ask and do not receive because you ask not in alignment with the intents of your Higher Self. No matter what you ask, your higher self will always answer according to its own intents. You can only ask for something good according to your level of awareness of divine will and intelligence. We gain awareness through revelation or learning from mistakes. No one is required to pray and ask perfectly. We all learn to pray better prayers as we develop in spiritual intelligence. The best way to learn is to keep praying. Each time we pray, we get feedback from the universe which allows us to know the effectiveness of our prayers as well as the will of the divine. God answers all prayers in perfection. Deal with the inner world and the outer world will start to change. When you pray, God works. Even if nothing seems to be happening, something is happening in ways that are unseen. Events are being arranged and when you least expect it, what you desire can be manifested in the right time and the right way. Stop trying to work on the outer world when you cannot, but go within and pray. When you pray, you will feel as though your problems have been resolved somehow. It is the peace of God that passes all understanding. Prayer connects your spirit with the spirit of God. Your spirit has received an answer and even though you may not know it consciously, it will be revealed to you in divine order and divine timing. Unresolved problems can cause us worry and anxiety. Resolve it through prayer and be at peace. The first thing you need to believe is in the power of God. Enlisting the help of divinity is the whole basis of prayer. When you pray, you must be conscious of the power of God, otherwise you are speaking empty words to empty space. The secret of power is consciousness of power. The second thing you need to believe is that you have received what you pray for. What you ask is given but you can only receive it by your faith. You also need to believe that nothing is impossible. You can pray for anything but you can only have the faith to receive what you believe is possible. When you have a mindset that all things are possible, then you open yourself to unlimited possibilities by which what you pray for can be brought to pass for you. Believe in all possibility to ask and receive without limitation. One final thing you need to believe is that even if nothing seems to be happening after you pray, God is still working things out for you. The primary and end all purpose of prayer is to be at rest. When your heart is at rest, that is when God is able to move in your world. But when you are restless in spirit because of worry and anxiety, God will be at rest instead. The pilot and autopilot cannot operate at the same time. Be still and know that God is God. Prayer sets God in motion and faith keeps him moving. The best way to pray is to be inspired to pray. You do not have to pray all the time. Each time you pray when there is a need to be fulfilled and problem to be resolved is a chance to experience the grace of God. You must pray fervently if you want to move things in the supernatural realm more powerfully. The effectual fervent prayer of a righteous person has great power. The intensity of intention determines the energy that is put forth into its manifestation. Think of your prayer as feeding energy to angelic entities that carry out the manifestation of your prayer. Some things only happen when one prays long and hard enough. There needs to be enough energy to break through all resisting oppositions. Pray continually for continuous results. Remember that if you want to manifest the best every time, you have to keep intending for it. What you create through prayer should be sustained and improved by prayer.
