

1: Order of Star Wars Books - www.enganchecubano.com

A list of all Star Wars books. This includes all film novelizations, novels, comics, young readers, reference books, and roleplaying sourcebooks. All books are presented here in in-universe chronological order, as opposed to real-world release dates. 21 BBY Catalyst: A Rogue One Novel by James.

You sound much more organized than I am! I have my personal favorite books, but the conversation is usually about what the other person wants from the series. I have them in chronological order, and I had to make a spreadsheet because there are so many books now that I forget. That brings up a point I think that I think a lot of people might be thinking about, especially if they go into it without having had a conversation with other fans about it first. Is it valuable to read Star Wars books in chronological order? Or in release order? I encourage people to think about and realize you by no means have to read everything. People should be open-minded. A New Dawn , which was the first novel published in the current releases, is an appropriate place to start for some people. That book also introduces Rae Sloane, later Grand Admiral Sloane, who is a great character who recurs in later books. I really enjoyed following her story, because she appears in several short stories and the Aftermath series. Which reminds me, the only books I would recommend reading in chronological order are the Aftermath trilogy, which are the only series of books outside of middle grade. It does include some original trilogy characters, but it focuses on a new cast and talks about the state of the galaxy after Return of the Jedi. And the way it ends, it ties nicely into the sequel era. I also think a couple good ones for the original trilogy era are the Battlefront books. There are two now. The first one was Twilight Company and it was about the rebel side, and the newest one, Inferno Squad , is from an Imperial point of view. Both books are really good. It takes that message of hope that is so central to Star Wars and puts it in this very gritty, very realistic atmosphere. I appreciate that we have an avenue to explore that in Star Wars thanks to the novels. Lost Stars is so good. I get so excited when someone asks me what they should read. There are so many options! They take place in between these films that we all know or sometimes concurrently with them, and they add shades of understanding. You can go into the movies with more perspective. It makes little differences, but important ones. Yeah, and differences as important as we get to meet Korr Sella before we meet her in her small part in the movie, and you really get to find out what her story is. It talks about the characters of The Force Awakens before the movie starts. This is making me want to re-read a bunch of novels. The the last thing that I wanted to say was that I was always a big fan of Legends. Let us know in the comments below!

2: In what order should the Star Wars movies be watched? - Science Fiction & Fantasy Stack Exchange

Star Wars (present). Since , the official Star Wars canon includes all the movie episodes, The Clone Wars film and the television shows Star Wars: The Clone Wars and Star Wars Rebels, as well as any books, comics, and video games published after April

This is a massive list, so we hope you enjoy this Star Wars Legends timeline. This includes primarily all movies and television programs, novels, YA books, short stories, comic books, and video games of a canonical nature. This list does not attempt to split up any novels so that they are read congruently, but rather focuses on an easy to follow reading list. In the event that two works cover the exact same timeframe the one published first is read first. Additionally, the placement within the timeline is often based on where the work ends rather than where it begins. There may be a few exceptions which will be pointed out in individual reviews. There are a few pieces of Star Wars media that are not included either because of lack of availability or because of a lack of relevance to the canon. These include Role-Playing-Game scenarios and books for child readers. If there is something that is not included in the list that you think contributes to the overall timeline, let us know and we will make the change. The first timeline only includes links to material that is officially approved by the Lucasfilm Story Group as official canon in the new continuity. What is Star Wars? Star Wars is a space fantasy story told about a galaxy far, far away, and a long time ago. The cornerstone medium for the Star Wars series is film. Most of the other stories, told through other mediums, revolve around the films. See below for what we include in this timeline. The overall story, though broad, usually focuses on the Skywalker legacy. Primarily Anakin Skywalker, his son Luke Skywalker, and the generation following that. Simply put, Anakin turns evil and helps form the Galactic Empire, oppressing the galaxy. He is redeemed by his son Luke, but his legacy lives on when his grandson also turns evil. The film was hugely popular, spawned two sequels, and eventually gave rise to an enormous franchise. The success came partially from massive merchandise sales that included comics and books. Much of those stories were never meant to be that cohesive with the films anyway, but it was a start. Later, the expanded universe grew with the important addition of Heir to the Empire, a book by Timothy Zahn. The book was marketed as the first real sequel to the original films. It launched a new era for the expanded universe, one in which most of the stories coincided with each other. The Phantom Menace was released in . The prequel trilogy was not as well received, as it was quite different than the originals, thereby disrupting the expectation that older fans had on the subject. But younger people who grew up with the prequel trilogy loved it as well. Lucas would eventually delve into the world of 3D animation for a new animated series that came out in , The Clone Wars. The Force Awakens was the first film to come out in the Disney Era, and was greeted with enormous financial and critical success. The future of the franchise remains highly promising.

3: List of Star Wars comic books - Wikipedia

A complete list of all full-length Star Wars novels in chronological order. STAR WARS BOOK LIST This is a simple list of all of the full-length Star Wars novels to date, in chronological order of when the stories take place.
