The novel "Robinson Crusoe" which sends a young Englishman adventuring in the highlands of Scotland, during the Jacobite uprising which sought to put Bonnie Prince Charlie on the British throne "is regarded as the first historical novel. Note that Scotland, that savage tribal land just across the border from hyper-civilized England, was the original adventure frontier. From multiple points of view, we read about a brilliant scientist and his creation: Also at that tourney is a mysterious archer named Locksley. Who can it be? This popular book was single-handedly responsible for the medievalist craze in early 19th-century England. Despite its flaws "there are many! A great adventure, and the Artful Dodger is such a memorable character. Adventure aficionados consider this one much superior to his Leatherstocking tales! Perhaps more than you want to know about how whaling works, but one of the all-time great yarns. Generally considered the first English-language detective novel. An engineer, a sailor, a young boy, a journalist, and an African American butler escape a Civil War prison in a hot air balloon and crash land on a Lost-type island in the South Pacific. Who is observing them, helping them? Marred by didactic lessons of all sorts. He was poking holes in the prevailing sentimental and Romantic ethos of the literary establishment. With the help of Alan Breck, a daring Jacobite, David escapes and travels across Scotland by night "hiding from government soldiers by day. Weird fun, particularly if you like reincarnation stuff. In a later novel, She and Quatermain will cross paths! Two British adventurers become kings of a remote part of Afghanistan, because "it turns out "the Kafirs there practice a form of Masonic ritual and the adventurers know Masonic secrets. Perhaps more of an ironic homage to than a sardonic inversion of the genre. Actually one of his best adventures! Considered one of his best books. Perhaps the first political thriller. Edward Prendick, a shipwrecked man, is left on the island home of Doctor Moreau, who creates human-like beings from animals. After Moreau is killed, the Beast Folk begin to revert to their original animal instincts. Published posthumously, in In the process, he races across India; Kipling "an imperialist, but a keen observer of India all the same "brilliantly captures the essence of that country under the British Raj. Conan Doyle, however, is a great adventure writer. And this novel is not your typical Sherlock Holmes story; it is jam-packed with thrills and chills. Its protagonists are archetypes of the amateur adventure hero, the likes of whom would later appear so memorably in the novels of John Buchan. A clash of opposing philosophies, one of which "quasi-Nietzschean; more accurately Social Darwinist "is embodied by Wolf Larsen, a brutal yet enigmatic sea captain. An ambitious longshoreman thwarts a worker revolution in a South American mining town" and attempts to enrich himself in the process. Sir Percy Blakeney, the effete aristocrat who is secretly the daring Scarlet Pimpernel or vice-versa , would inspire characters such as Zorro and Batman. Our protagonist is White Fang "so named by Grey Beaver, an Indian who takes the cub in and raises him. When a gold hunter, Weedon Scott, purchases him from the dog-fighter, will White Fang at last be tamed? Also his head and limbs were copper, and these were jointed or hinged to his body in a peculiar way, with metal caps over the joints, like the armor worn by knights in days of old. These stories were first published in the French magazine Je sais tout beginning in July The preceding chapters are perhaps less thrilling than these, but still funny, sweet, and utterly charming. In this Haggard-esque yarn set in the early 20th century, David Crawford, a young Scotsman seeking his fortune in Blaauwildebeestfontein, South Africa, runs afoul of Laputa, leader of a planned rising of the Zulu and Swazi peoples against British colonial rule. Donning the necklet of Prester John, the fabled king said to rule over a Christian nation lost in the Orient, Laputa gathers the tribes and initiates the uprising. The first terrific yarn from Buchan, who would develop into one of the all-time greatest adventure writers. When Marquise de Langrune is murdered, her friend Rambert accuses his son, Charles, of having committed the heinous crime. Faustroll travels "in a high-tech capillarity, surface tension, equilateral hyperbolae are involved amphibious copper skiff "from the Seine from point to point through the neighborhoods and buildings of Paris. But he

manages to send a telepathic letter to Lord Kelvin describing the afterlife and the cosmos. Jarry is best known as the author of the proto-Dada play *Ubu Roi*. This posthumously published novel is regarded, by exegetes, as the central work to his oeuvre. Not long after, another party is marooned on the coast: Will Tarzan assume his rightful role, as Earl of Greystoke in England? Or will he remain in the jungle? Serialized in *All-Story Magazine*. Having assembled a crew of adventurers, the brilliant, blustering physiologist and physicist Prof. Challenger journeys to a South American jungle in search of a lost plateau crawling with iguanodons. Doyle followed up this bestselling novel with *The Poison Belt* and *The Land of Mist*, as well as two short stories about Challenger. Reissued by Penguin Classics. Will he and Jane fall in love? One of the most influential western novels. *Riders of the Purple Sage* has been filmed five times; a comic-book version was published by Dell in . The barbaric, nomadic Green Martians are 15 feet tall, with six limbs; they inhabit the abandoned cities of Barsoom that is, Mars. It was originally titled *Under the Moons of Mars*. The unnamed narrator, along with apparently every other surviving human, lives trapped in the Last Redoubt, a eight-mile-high metal pyramid-city constructed by their ancestors using now-forgotten technologies. In this first *Fu Manchu* novel, assembled in from stories published in magazines during , colonial police commissioner Nayland Smith is in hot pursuit of Fu Manchu, an agent of a Chinese secret society, the Si-Fan. Which may sound like the set-up of *The Shining*, but in fact this is an apophenic adventure. Is everyone involved in a crime caper of some kind? What are they up to? Before Earl Derr Biggers invented his famous detective character Charlie Chan, this was his most popular book. It was adapted by George M. Cohan as a hit play, then several times as a movie; the version written by Cohan is the best-known of these. One day, however, a Mr. Sleuth arrives at their door and offers them a generous monthly fee for the use of their rooms. The pace is slow, the tonality brooding and melodramatic. Hitchcock also adapted the story, in , as the first installment in the radio drama series *Suspense*. Lovecraft was a fan; check out his adventure *At the Mountains of Madness*. Its protagonist, Lafcadio, a would-be Nietzschean superman who reads only adventures like *Aladdin* and *Robinson Crusoe*, stumbles upon a plot involving the Pope. A coded message, Professor Moriarty, and a backstory based on the supposedly real-life exploits of the Molly Maguires in Pennsylvania! When mining engineer Richard Hannay discovers the existence of a ring of German spies who have stolen British plans for the outbreak of war, he is framed for murder. Fleeing to Scotland, he must elude not only spies but the police. Adapted into a humorous adventure movie of the same title by Alfred Hitchcock. When young Van Jennings and his friends " Terry and Jeff " invade an isolated society composed entirely of women, they carry with them not only brightly colored scarves and beads but sexist ideological baggage. Jeff is an idealist who regards women as things to be served and protected; Terry is a cynic who views women as conquests. Van, a sociologist, is uniquely able to apprehend the social construction of gender roles and the fact that a woman-only social order is superior in every way to western civilization. First serialized in ; read it on [HiLobrow](#). Read it on [HiLobrow](#). This swashbuckler is set in the late 16th century. Tressilian then returns to England for revenge. Sandy Arbuthnot, an Orientalist and master of disguise; the doughty Afrikaner hunter and scout Peter Pienaar; and the fat, dyspeptic American anti-fascist John Blenkiron. Can Hannay and his companions stop the plot in time? The character of Sandy Arbuthnot is loosely based on the extraordinary real-life Orientalist and British diplomat Aubrey Herbert. The fifth of twenty-six Tarzan books, and one of my favorites. At the outset of the First World War, Captain King, a kind of secret agent for the British Raj, is ordered to investigate the possibility that Turkey might try to stir Muslims into a jihad against the British Empire. The protagonists of the stories presented in this anthology constitute a lively and varied line-up of exemplary characters: from the enamored heir of the courtesy of knights to the astute woman who amuses herself behind her husband's back.

Insulted, Venus sends her son, Cupid Latin name for Eros , to make Psyche fall in love with the ugliest creature in the world. Cupid, however, falls in love with her himself and magically prevents anyone else from doing so. However, Zephyr, the West Wind, carries the waiting Psyche to a majestic palace where she bathes and feasts royally, attended by mysterious voices. At night, she feels a man next to her who introduces himself as her husband. For a while, a pattern develops where Psyche remains alone during the day and then at night sleeps with a husband she never sees. She at last convinces the mysterious man to allow her sisters to visit her, even though he warns her it will end in tragedy. Knowing she has never seen her husband, they slyly plant the idea in her head that he is a horrendous monster. Plagued by doubt, Psyche decides she must see what he looks like and, if he is a monster, stab him through his heart. That night, she lights a lamp and sees that her husband is the unbelievably beautiful Cupid. Cupid flees the house and runs to Venus to heal his wound. Venus, enraged that Psyche has once again defied her, forces her to perform four seemingly impossible tasks. First, she must sort an enormous mound of seeds in one evening, but ants come to her aid and she succeeds. Second, she must fetch the golden wool of a flock of vicious wild sheep, but a reed by the riverbank tells her where to find wool that the sheep had snagged on thorns. Third, she must fill a flask with water from a treacherous waterfall of the river Styx, but an eagle swoops down and fills it for her. Finally, Psyche must journey to the underworld and convince Proserpine Latin Persephone to place some of her beauty in a box, but a tower on the way speaks to her and tells her how to easily complete the task. The box appears empty, but a deep sleep overcomes her. Finally healed, Cupid rushes to her, and he then convinces Jupiter Latin Zeus to make her an immortal, which at last persuades Venus to accept her. The two lovers reside in Babylon, but their parents hate each other and forbid their marriage. Talking through a crack in the wall of the building their families share, they eventually decide to elope, agreeing to meet outside the city walls at a well-known mulberry tree. Thisbe gets there first but flees when she sees a lioness, intending to come back later. But she drops her cloak, and Pyramus, finding it bloody and torn by the lion, thinks she has been killed by the lion. Pyramus kills himself, covering the white berries of the mulberry tree with blood. Returning to find him dead, Thisbe then kills herself with his sword. The berries of the mulberry tree have forever stayed red to commemorate the tragic end of their love story.

PDF Mythology Part 2: Cupid and Psyche There was a king who had three daughters, the most beautiful of whom was Psyche. She was so beautiful that men worshipped her instead of Venus. Venus was enraged by this and sent her son Cupid to make the girl fall in love with a horrible beast. Apollo told her father that his daughter was doomed in a prophecy. He commanded the girl to be left at the edge of a cliff. Psyche waited there for her doom, but a soft wind lifted her and took her to an enormous beautiful house. Spirits spoke within it and told her that they were her servants. At night, her husband came to her and made love. This happened for awhile. One night, he warned her that her sisters were coming to visit her: He relents and the next day they are carried to the house by the same wind. They saw her wealth and were immediately jealous. Psyche asked Cupid the next night if she might see her sisters again and he gives in to her but warns her that they are planning evil. When they came, they reveal the oracle of Apollo and convince her that her husband might be a hideous beast. That night, after having hidden a lamp and a razor to kill him if necessary, Psyche looked on the form of her husband and the oil from the lamp burned him. He fled and she wandered around looking for him for many days. Venus allowed none of the gods to hear her prayers. She eventually came to Venus herself and asked for Cupid. Venus gave her the impossible task of sorting an enormous pile of different grains by dawn. Psyche was heart broken and could not start her task, but a group of ants performed the task for her. Her next task was to gather the golden wool from fierce sheep; she accomplished this by pulling the wool from briars. Next, Venus made her get a vile of water from the river Styx. When she was about to kill herself, an eagle performed this task for her. Finally, Venus charged her with going to the underworld and getting a box of beauty from Persephone but not to look in the box. When she came back from the underworld, she opened the box and fell into a deep sleep. Cupid woke her and asked Jupiter to call an assembly of the gods. Zeus made Psyche into a deity and Cupid married her.

Speaking from experience, one of the reasons why I choose to live nomadically is because I want to live a life full of adventure. Sure, I could be earning 10x more compared to what I do now but would I really be happier? To write, to explore, and to inspire people along the way. I found my adventure in the oddest of places, deep in the sand dunes of Mu Nei, Vietnam when I met my partner Tom. Since then, it has been a rollercoaster ride of traversing through five continents and starting a business together. What if I fail? What if I get into an accident? What if I end up hating it? Let me tell you one thing. Fear of the unknown is normal. It is perfectly normal to be scared, excited, and nervous all at the same time. As soon as you take the first big step, that is when you will be reminded that adventure is out there. That there are a million and one new things to see and discover and you are just getting started. Have stories to tell not stuff to show. This simply sums up what I try to do in my life. This has ultimately shaped my view on the world and has helped me become a better person. Adventure is an attitude that we must apply to the day to day obstacles in life. It made me think of my life, what I was doing, and what I wanted to do. Coming from a third world country, I know by experience that travel is a privilege. I worked hard for my degree, I hustle between one freelancing job to the next, and I work endlessly on this blog all because I want to keep doing what I do. I want to be more and do more. Most of all, I want to be happy. I know that some people have families or other obligations. Everyone can choose their own adventure. After my partner and I met, we decided to start this because we wanted to stay connected to something that we loved, traveling.
