

1: Summer vacation - Wikipedia

Summer is the hottest of the four temperate seasons, falling after spring and before the summer solstice, the days are longest and the nights are shortest, with day-length decreasing as the season progresses after the solstice.

They believe that over-schooling could lead to nervous disorders, depression, insanity, and separation anxiety towards families. Some critics of summer vacation point out that American students spend approximately 26 weeks per year in school, but Asian students are "in school for 260 days". Summer holidays in Japan start from late-July until early-September. Also the majority of students get two weeks of holidays during winter, which varies depending on the region of the country from late July or mid-July to early August. From mid-December to late February 2 months Secondary education: From early December to early March 3 months University education: Typically Christmas summer holiday in Australia last approximately six weeks, usually from late December depending on school level to late January. This is significantly shorter than North American summer holiday, but Australian schools also break for 2 weeks at Easter, and in June and September, giving students and teachers a total of twelve weeks of annual holidays. In many public schools, years 10 through 12 will finish before December 15, allowing time to complete exam marking and results. Year 10 commonly finishes at the end of November, Year 11 at the end of October, and year 12 Senior Year also at mid or the end of October after 3 weeks of end-of-year exams. This can bring the normal 12 weeks of vacation to 20 weeks of vacation. The intervening periods of school operation without holidays are called "School Terms", each term lasting approximately ten weeks. All Australian states have relatively similar holiday periods between each term, but there is the ability for this to change, as it did in the Melbourne Commonwealth Games, when the first term in Victorian schools was shortened to 6 weeks and the other subsequently extended to 12 weeks due to severe disruptions to the public and private bus networks used by school students. Most private schools in Australia have up to four weeks of additional holidays, due to their longer teaching hours during term.

Austria[edit] In Austria, summer vacation dates vary by region, however the break lasts nine weeks throughout the whole country. School usually ends in early July and starts in early September. School recommences on the first Monday in September in Vienna, Lower Austria and the Burgenland and on the second Monday of September in the other regions.

Bangladesh[edit] In Bangladesh, summer vacation begins in mid-May and ends in mid-June 4 weeks. According to Bengali calendar summer vacation related with availability of different kinds of summer fruits in the month of Joishtho mid May to mid June. This is slightly odd for schools to open before the summer solstice begins. Also, it is becoming difficult for children to attend school in high temperatures.

Barbados[edit] In Barbados, summer holiday dates have varied throughout the years due to the beginning of the hurricane season on June 1st. Because of this, major storms affecting the island can cause schools to remain closed for days resulting in a pushback of vacation dates, for example with Hurricane Tomas in 2004. Currently, summer holiday begins in late June or early July and ends in the second week of September.

Belgium[edit] In Belgium, summer vacation lasts in general from July 1 until September 1 2 months. Universities and colleges have longer vacations they also start July 1 but last mostly until mid-September 3 months. This is because there are resits at the end of August and the beginning of September. In Bolivia, summer vacation runs from early December to early February [5] 2 months.

Bosnia and Herzegovina[edit] In Bosnia and Herzegovina, the start of summer break varies by school, but usually starts at the beginning or mid-June. School starts on the first Monday of September. There is also a three-to-four weeks long break during winter typically starting on 31 December. School is not out on Christmas or Easter, but students who celebrate those holidays are allowed to miss that day of school.

Brazil[edit] In Brazil, summer break lasts between 50 and 60 days; from late November - early December, to early February, typically February 14. In addition, for the majority of Brazilian students there are two to three weeks off for Winter in July.

Bulgaria[edit] In Bulgaria, the time of the break differs according to the grade of the students. The following periods are applied: May 24 - September 15 2nd-4th grade: May 31 - September 15 5th-7th grade: June 15 - September 15 8thth grade: June 30 - September 15 12th grade:

School year ends in mid-May. However, in some provinces students get a Professional Activity day on the final Friday of that school week, and their last day would be on the Thursday. Depending on the province, students can get 2-3 months of summer vacation. This may vary in Quebec earlier due to provincial June 24 holiday. The last day of summer vacation is Labour Day. This can vary in Private schools. School generally resumes the day after Labour Day in September.

Chile[edit] In Chile, summer vacation lasts from early or mid-December until late February or early March 10, 11 or 12 weeks. In addition, schools have two or three weeks off for Winter in July, and one-week-long break for National Holidays in mid-September.

Colombia[edit] In Colombia, summer vacation varies. Public schools and some private schools run "Calendar A" which has a break between June and July. Only some private schools run "Calendar B" in which there is a long vacation in July and August. On the other hand, "Calendar A" has a long vacation around Christmas.

Costa Rica[edit] In Costa Rica, summer vacation lasts 2 months. Usually begin in late December and end in early February. There are a few schools using the "american" style, those school usually take vacations in late May and then resume again in early August.

Croatia[edit] In Croatia, the school year finishes around 10th June and it usually starts on the first Monday of September, but if the first Monday is on 1st or 2nd September, the school year is more likely to start on the second Monday. Winter break usually begins a few days before Christmas and it lasts until mid January. Eastern break lasts 10 days. High schools colleges usually return to school in early August, but for younger students it can be in the middle.

Ecuador[edit] In Ecuador, summer vacation varies. The Coastal region runs vacation January or February, but in the Sierra region, summer vacation follows the pattern in July and August.

Egypt[edit] In Egypt, summer break lasts from the beginning or the middle of June until the middle of September 3 Months - 14 Weeks in public schools, though length slightly differs according to age. In most private schools, summer break lasts from the middle or end of June to the beginning of September 2. School begins every year on September 1, with a week off in October, 2 weeks off at Christmas, a week off in February and a week off in spring.

Ethiopia[edit] In Ethiopia, the school year usually ends in late May to mid-June and begins in mid-September 8 to 12 weeks.

Finland[edit] In Finland, summer vacation starts on Saturday in late May, or in the beginning of June. Usually, school starts again on August 7 to This may vary for private schools.

Germany[edit] In Germany, summer vacation lasts six and a half weeks. The exact dates vary by state as well as from one to the next year, from the earliest mid-June to late July to the latest late July to early September. In Germany the annual holidays are split into winter holidays about one week , Easter holidays mostly about two weeks , summer holiday about six and a half weeks , autumn holidays about one to two weeks and Christmas holidays about one to two weeks. Some states like Bavaria also have holidays for Pentecost. Summed up over the whole year the holidays are about thirteen weeks.

Greece[edit] In Greece, the summer vacation lasts for 3 months. Schools close on June 14 and reopen on September Universities generally close in mid-July, but with great differences between faculties.

Guatemala[edit] In Guatemala, the summer holidays start in middle October and end in early January approx 12 weeks.

2: Summer in the U.S.A.: 20 Best Vacation Destinations

Summer is the season of blossom and bounty, when the days are long and we can breathe easy in the sun's warmth while enjoying the companionship of our family and fiends. Our Host, Kate Durocher, and her team of home and lifestyle experts is here to show America how to enhance those summertime celebrations with their best tips, tricks, and recipes.

In temperate regions, we notice that the Sun is higher in the sky throughout the day, and its rays strike Earth at a more direct angle, causing the efficient warming we call summer. In the Northern Hemisphere, the summer solstice is the day with the most hours of sunlight of the whole year. At the winter solstice, just the opposite occurs: The Sun is at its southernmost point and is lowest in the sky. In this system, summer begins on June 1 and ends on August. Astronomically, however, the first day of summer is said to be when the Sun reaches its highest point in the sky, which occurs on the summer solstice June 20. The summer solstice in the Northern Hemisphere ranges in date from June 20 to . This occurs in part because of the difference between the Gregorian calendar system, which normally has 365 days, and the tropical year how long it takes Earth to orbit the Sun once, which has about 365.2422 days. To compensate for the missing fraction of days, the Gregorian calendar adds a leap day about every 4 years, which makes the date for summer jump backward. Water is slower to heat or cool than air or land. At the summer solstice, the Northern Hemisphere receives the most energy highest intensity from the Sun due to the angle of sunlight and day length. Eventually, the land and, especially, oceans will release stored heat from the summer solstice back into the atmosphere. Historically, this day was the midpoint of the growing season, halfway between planting and harvest. Folks celebrated by feasting, dancing, singing, and preparing for the hot summer days ahead. Read more about the ancient Quarter Days! See YOUR sunrise times! This is related to the angle of the setting Sun. See YOUR sunset times! See more about this ancient site. After all, these northern people have merged from some long, dark winters! According to ancient Latvian legend, Midsummer Even St. Read more about fern folklore. If there are many falling stars during a clear summer evening, expect thunder.

3: Summer in America (TV Movie) - IMDb

Summer Camp in America will be the best summer of your life. Are you ready for the biggest adventure of your life? You'll spend your summer having fun in the sun while you teach activities to excited children.

Bookstore Slideshows Summer in the U. Kickstart your summer travel planning with our roundup of 20 top picks and 15 honorable mentions, including old standbys as well as undiscovered gems. So pack your bags, gas up the car, unfold your map, and hit the road to visit one of these great American summer escapes. Tybee Island, Georgia Frommers. Yes, Tucson is hot in the summer, with average temps of or higher. Tucson boasts some of the most lovely courtyard dining and drinking anywhere, and even in summer the nights cool sufficiently to sit outside. DoubleTree Hotel Tucson Photo: In addition to its reputation as a classy, upscale spot, Santa Barbara embraces its grungier side, too—hip eateries, wineries, and stores have popped up in an industrial area formerly known as the Funk Zone. Ithaca , a pedestrian-friendly college town full of eclectic shops and high-quality restaurants, is an ideal home base for exploring the area. Dine outside at the Moosewood Restaurant , a famous spot that began as a vegetarian collective and spawned a series of bestselling cookbooks. Head to the Farmers Market in its permanent lakefront pavilion for a mix of local produce and prepared foods. Rent a sailboat or canoe and head out onto Cayuga Lake—or admire the water from patches of green like Stewart Park and Cass Park. These trails are closed from November to April due to icy conditions, but in the warmer months they offer shady trails, dramatic vistas, and very chilly! Inn on Columbia Photo: You can also buy local fruit and homemade pastries and take them straight to the beach. From here, you can drive down the coast, stopping in towns like family-friendly Lincoln City, bustling Newport, and quirky Yachats. To travel here is to be transported to a slower, dreamier place where mountains and sand meet and there are very few cars. Despite feeling remote, the San Juans are close to Seattle, a city that loves summer perhaps more than any other in the country. Those looking for a leisurely day of riding can tool around the mostly flat, rural Lopez Island. Morse, Madonna, and Sterling. Green Mountain Inn Photo: View of Smugglers Notch near Mt. For a low-key alternative to bustling Provincetown, try the sleepy, artsy town of Wellfleet. The calm waters of the bay are great for wading as well as various watersports such as kayaking; beaches on the ocean side, meanwhile, have bigger waves and windsurfing opportunities. Hike and bike along miles of the national seashore, or visit the nearly 1,acre Wellfleet Bay Wildlife Sanctuary , where you can get close to a unique salt marsh, wooded areas, a barrier reef, and fascinating marine life. What really sets Wellfleet apart, though, are its galleries, most of which are only open between May and October. The town has more than 20 of them, showcasing a wide variety of arts and crafts created locally as well as internationally. Gallery openings typically take place on summer Saturday evenings. Its large pedestrian-only Market Square is spacious, inviting, and features fountains meant for splashing around in. During the summer months, patrons of the many restaurants and bakeries on the square sit at wrought-iron tables out in the open or under shade trees. Live music, from bluegrass to contemporary rock, is easy to find and enjoy here—particularly at the Blue Plate Special , a free noontime show held at WDVX on weekdays. Above all, make sure you get out on that river. The Oliver Hotel Photo: According to the U. Geological Survey, recent warming trends have decreased the size and number of glaciers here. Ranger-led programs, including guided hikes, talks, and boat tours, are also popular.

The "Most Anticipated Indian Movies and Shows" widget tracks the real-time popularity of relevant pages on IMDb, and displays those that are currently generating the highest number of pageviews on IMDb.

When to Book Your Mexican Vacation to Get the Best Deals South and Central America make up a huge area of land, spanning two continents, numerous climates, countless cultures and more than a dozen countries. Tourism in this part of the world is a different story from travel in Europe and North America – the seasons are swapped in some places, for example, and crowds fluctuate at different times. Do your homework before heading off on a South or Central American adventure to avoid getting caught up in either bad weather or suffocating crowds. Ironically, in South America, the rainy season coincides with summer, which in turn aligns with winter in North America and Europe. The wet season in South America extends from January through March, which also brings the warmest temperatures to most regions in the area, especially along the coast. The rest of the year is relatively dry, but brings cooler temperatures and some precipitation in some areas. Chile and Argentina, for example, get heavy snow in some areas during the months of July and August. In Central America, the wet and dry seasons are swapped. January, February and March are the driest months of the year in most parts, though December through February can bring snowfall to mountainous areas in Northern Central America. In most areas, however, September and October are the high-precipitation months, especially in Costa Rica. The closer you get to the equator, the more consistent year-round seasons tend to be. For this reason, most parts of Central and South America remain visitor-friendly at all times of the year. Just keep in mind some exceptions to the usually moderate weather in these areas: The Inca Trail in Peru closes during the month of February each year due to heavy rainfall. The Amazon gets the worst of the wet season. Its driest months are usually October and November, making this the best time of year to visit the jungle. Mountain passes in Chile and Argentina can get blocked by snow in July and August, and some beach resorts in these countries close their doors during winter months. For example, July and August are usually the driest months in South American countries. These months also coincide with most North American and European holidays, so they usually bring the largest crowds from those parts of the world. Machu Picchu in Peru and the Galapagos Islands off the coast of Ecuador are two of the most popular attractions in South America during this time of year. In Central America, Costa Rica and Belize also pull high numbers of visitors during July and August, and the whole region sees a spike in tourism from late November to April, which often comes with price hikes and booked-out accommodation options. February to mid-April in particular marks the peak season for cruise ships, meaning port cities in Mexico, Honduras, Costa Rica and the Panama Canal can be extremely busy. Just keep in mind that the rainy season can hit Costa Rica particularly hard.
