Sweet bells jangled/rang on and on and on and on and on and on [2 guitar solos] Four or five hours of work in a day/rest for music and for play Mission music rise from the fjord.

There is much evidence in the play that Hamlet deliberately feigned fits of madness in order to confuse and disconcert the king and his attendants. His avowed intention to act "strange or odd" and to "put an antic disposition on" I I. The latter phrase, which is of doubtful interpretation, should be taken in its context and in connection with his other remarks that bear on the same question. To his old friend, Guildenstem, he intimates that "his uncle-father and aunt-mother are deceived," and that he is only "mad north-north-west. But the intimation seems to mean nothing to the dull ears of his old school-fellow. When completing with Horatio the arrangements for the play, and just before the entrance of the court party, Hamlet says, "I must be idle. This evidently is a declaration of his intention to be "foolish," as Schmidt has explained the word. This pretense of madness Shakespeare borrowed from the earlier versions of the story. The fact that he has made it appear like real madness to many critics today only goes to show the wideness of his knowledge and the greatness of his dramatic skill. In the play the only persons who regard Hamlet as really mad are the king and his henchmen, and even these are troubled with many doubts. Polonius is the first to declare him mad, and he thinks it is because Ophelia has repelled his love. He therefore reports to the king that "Your noble son is mad" II. His instructions to his henchmen, "Get from him why he puts on this confusion" II. Was not like madness. But it serves his wicked purpose to declare him a madman, and to make this the excuse for getting rid of him by sending him to England. In this as in everything the king is insincere, and seeks not the truth but his own personal ends. She is herself, rather than Hamlet, "Like sweet bells jangled out of tune, and harsh. The poor distracted girl is no judge of lunacy, and knows little of real sanity. She cannot enter into the depth of his mind, and cannot understand that it is her own conduct that is strange and incoherent. He saw much to be gained by it, and to this end he did many things that the persons of the drama must construe as madness. His avowed intention was to throw them off the track. To understand the madness as real is to make of the play a mad-house tragedy that could have no meaning for the very sane Englishmen for whom Shakespeare wrote. Shakespeare never makes of his dramas mere exhibitions of human experience, wise or otherwise, but they are all studies in the spiritual life of man. His dramas are always elaborate attempts to get a meaning out of life, not attempts to show either its mystery, or its inconsequence, or its madness. If Hamlet were thought of as truly mad, then his entrances and his exits could convey no meaning to sane persons, except the lesson to avoid insanity. But it needs no drama to teach that. Against this it may be urged that Hamlet could not be said to be niggard of his answers when none were required of him. A railroad town founded by a Civil War veteran, it was named after poet and journalist Howard Glyndon, who, it turns out, was the pen name of Laura Redden Searing, one of those faded midth century bards whose verses bring to mind rosewater and hoop skirts. Redden, born in , was left deaf by "brain fever", probably spinal meningitis, at the age of twelve. Add to that the murder of her father in , and her job as a Civil War correspondent, and you have a pretty grim youth. As Vallier writes in her introductory essay, "Before the poet can sing, speak, or write she must be wounded beyond the imagination of her readers. A star pupil at the Missouri School for the Deaf, she found in writing a way to communicate with the world that for her had fallen silent. While in school, she submitted articles to the St. Louis Republican, who recognized her talent and sent her to Washington in to cover the war. She was pro-Union, as her poems from that period attest. She published a collection of them under the title *Idyls of Battle and Poems of the Rebellion* that may have been the first book of poems about the war. Containing odes to Fredericksburg and Gettysburg, and a heroic profile of Grant, it is not surprising that President Lincoln was one of her admirers. From "In Time of War": As the Civil War wound down, further adventures awaited our poet. Their unhappy romance he died four years later was to form the backdrop of her poetic masterpiece. A long romantic poem set in seventy parts, *Sweet Bells Jangled* is surprisingly forward-looking for its time. The sections alternate between lyrics of various meter and a prosaic narrative that, barely one generation after Whitman, gives the illusion of a 20th century artist trapped in the 19th: Redden went on to become a wife to Edward Searing, who she later divorced and a mother. She did not, however, build on the artistic breakthrough of *Sweet Bells Jangled*. Though some of her later poems "At the Grave of Keats", "The Hills of Santa Cruz" exhibit the fine tuning of Swinburne and were praised by Whittier, they give no hint of the poetic revolution that was just around the bend of the 20th century. It seems strange that the period of the Civil War, when poetry would seem most needed, coincided with a great dearth of poetic genius in America. Between Whitman and Longfellow on the one side and Robinson and Masters on the other, only Emily Dickenson is still widely read, and she spent the most isolated of lives. Even so, *Sweet Bells Jangled* is a fascinating read, enlightened by the capable scholarship of Jones and Vallier. The town of Glyndon should be proud.

Laura Redden Searing () defied critics of the time by establishing herself as a successful poet, a poet who was deaf. She began writing verse at the Missouri School for the Deaf in , and, under the pseudonym Howard Glyndon, soon found herself catapulted into national prominence by her.

Her supportive parents learned sign language so they could communicate with her. In , she lost her hearing at age 11 due to the illness spinal meningitis. She learned sign language and the American Manual Alphabet. Personal life[edit] Laura Catherine Redden graduated from the Missouri School for the Deaf, a secondary school, in . She did not enroll in college. Her literary skills and unmarried status made it acceptable at the time for her to enroll at certain colleges. However, there were no colleges that accepted deaf women. The National Deaf-Mute College now Gallaudet University was established in and did not admit female students until . While there, she studied German, French, Spanish, and Italian. She became engaged to Michael George Brennan in , but the engagement ended shortly after. They had one child, Elsa Waller Searing, on May 4, . Edward Searing stayed in New York and they divorced in . Redden Searing died in and was buried in Colma, California. It falls on a lonely grave Lying away to the West, Where a hero heart is mouldering away,— The heart that loved me best! The topics of the essay were deafness, sign language , and writing. In , Redden graduated from the Missouri School for the Deaf. Upon graduation, she was offered a teaching position at MSD which she declined. In , the St. Louis Presbyterian hired her as a columnist and assistant editor. In , she became an editorialist for the St. In , she was sent by the St. Louis Republican to Washington D. She was a pro-Union loyalist and wrote poems about the experiences and human interests of the battle field. She also wrote to Abraham Lincoln and Ulysses S. Grant during the war. The name was officially adopted during the American Civil War as a correspondent for the St. This brings up the possibility that the pen name disassociated her identity from critics to her Union Army sympathies. However, in all of her published works, the pseudonym was accompanied by her real name in smaller letters. This indicates that the pseudonym was not to conceal her gender or identity. It is likely that the double identity was to defy the expectations of what a female writer of that era could produce.
