

healers to prioritize the left flank, the Americans organized twenty lancers to charge at the Human Empire decoy force. Most were successfully blocked, but a few of the guardians were skewered. In order to protect a fallen guardian, Asuna allowed herself to be pierced by a lance. While Bercouli was stuck in this state, Vector severed his left arm. In the ruins, Asuna struggled not to scream from the pain of being pierced with a lance. After removing it from her body, she quickly dispatched the shocked American player by piercing his heart with her rapier. Seeing a third wave of twenty lancers having formed at that moment, Asuna summoned Renri to the middle. Before sprinting towards the enemy, she requested him to handle the lancers that managed to breach her defence. Meanwhile, Bercouli stumbled as he stepped on his left arm in confusion. After widening the distance between Vector and himself, Bercouli stopped the flow of blood with non-verbal Sacred Arts, while pondering on how to defeat his enemy. Realising his impasse, Bercouli glanced at Alice. For a moment, Bercouli regretted not being able to grant Alice fatherly love, but resolving himself that parents die protecting their children, he sprang at Vector once more. In the meantime, Asuna had successfully repelled the third and fourth waves of lancers, but not without consequence. Her clothes were ripped and stained with her blood and that of her enemies. Even though she had a gaping hole in her, the enormous amount of Life she had did not allow her to fall. Exhausted, she lifted her rapier when the fifth wave appeared in her vision. As the lancers began their charge, Asuna saw the formation of a string of digital code that was blue, rather than crimson this time. The line of code began to turn into a human figure about ten meters above the ground and started to spin like a tornado. The dumbstruck lancers were ripped to shreds as they gazed at the sight. At that moment, thousands of additional blue strings of code began raining down from the sky. Bercouli, however, was focusing only on one thing throughout the fight - unconsciously counting time. However, before Bercouli could execute his attack, Vector sensed that he was plotting something and attacked him, forced Bercouli to evade and thus making him miss his opportunity. Although Bercouli successfully dodged the first four attacks, the fifth one grazed him, causing his consciousness to dim and giving Vector the opportunity to pierce him. As Bercouli fell backwards, his dragon Hoshigami suddenly attempted to attack Vector. As she felt a hand caressing her hair, she looked up and saw the figure of the middle-aged swordsman. To her shock, Alice noticed the numerous grave injuries on his body and thus understood that his Life had been depleted. After the deceased Bercouli comforted her from the beyond, he saw an image of the Highest Minister Administrator and his dragon, Hoshigami, formed from his memory. After Bercouli leapt onto Hoshigami and helped Administrator onto the dragon, the three departed. Meanwhile, under the distant northern sky, the main Human Empire army and the Dark Territory were in a standoff. Upon realizing that he had predicted his death and was now dead, she began sobbing. Recalling that Bercouli decided to protect their child and let him live till the end of his time, Fanatio swore to raise the child properly. Subsequently, Lisbeth and Silica landed in front of Asuna and the two joined hands with her, while numerous Japanese players continued to descend to the ruins. After Asuna learnt that Yui was responsible for gathering the reinforcements, Renri approached them and enquired who the new visitors were, thus Asuna explained to him and the others that they were her friends from the real world that had come to help them. At the end of their conversation, Asuna ordered Lisbeth and Silica to take two hundred players to form a support team, and requested Renri and the Guardians to merge with the ascetics to focus on healing, while she herself fought at the front line. There, she noticed that several leaders of the fairy races of ALfheim Online, the members of the Sleeping Knights, and even players from Gun Gale Online had come to help. Thus, she steeled her resolve and, determined to minimise casualties and agony of pain felt by the Japanese players, fought at the foremost line. Meanwhile, a Japanese player named Hirono Takashi, who had decided to come to Underworld with his avatar Velios due to trusting his instincts, began to question his decision. What awaited him after entering the world was a hulking man in crimson armour wielding a halberd. Although Velios attempted to retreat, the tip of the halberd still managed to cut his shin, causing him intense pain. Velios managed to repel further attacks and was taken to the rear for healing. Just as he felt like quitting, he began gazing at the girl healing him. Watching her at work, he became overwhelmed by emotion and unconsciously hugged the girl when she was done. After the girl comforted him, Velios asked her for her name and learnt that she was Frenica Szeski. Giving her his real name, he asked if they could meet after the war and she declared that they would. With that answer, Takashi returned to the front

lines, determined to fight bravely till the end. Chapter 21 - Awakening.

Kirito, ande logo e tire as roupas. Abrindo a janela indicada por Asuna. A turva luz azul da lua era filtrada pela janela, formando sombras complexas na cama. Eu imaginei o que aconteceria se eu gritasse "Desculpe! Meu dedo tocou levemente a curva gentil que era o ombro de Asuna. O corpo dela estremeceu fortemente. As bochechas dela coraram e as sobrancelhas estremeeceram. Os montes que estavam geralmente escondidos pela roupa de cavaleiro e armadura eram maiores do que eu tinha imaginado, cheios e empinados. Infelizmente o quarto inteiro estava iluminado apenas pelo brilho azul da lua e- "Asuna, ligue as luzes. Deixando escapar um gemido rouco e alto da garganta dela, Asuna tremeu e o corpo dela pulou antes de desabar em cima de mim. Ela ainda estava respirando pesadamente, o corpo dela tremia levemente. Meus dedos se moviam, fazendo o corpo dela se contorcer e tremer. Desistindo, eu me devotei a examinar o lugar escondido da Asuna. Mas essa era a primeira vez desde que eu entrava em SAO que tinha ficado assim. Mas nesse ponto, eu tinha uma outra pergunta. Tendo colocado ele inteiro dentro de Asuna, eu deixei os meus desejos me controlarem enquanto eu continuava penetrando ela pouco a pouco. Respirando pesadamente, eu abracei o corpo da Asuna que estava mole depois do orgasmo. Nossos fluidos corporais continuavam saindo. Logo quando eu pensei, "A essa altura eu vou gozar imediatamente-" "Ah, ah, ah, ha Toda vez que eu batia no interior de Asuna, nossos sucos saiam enquanto o lugar do nosso contato derretia em calor infinito. Asuna estava gemendo delirantemente com um olhar de prazer no rosto.

Sword Art Online Translation of Sword Art Online ME 10, Sword Art Online Sword Art Online 1. Putting the index and middle fingers on my right hand together, I lightly extended them out.

I remember seeing an ad on TV for this, this could be considered rape. At the tips were a pair of nipples- Click to expand Did you expect them not to be there? Or did you not know that girls had those too? At their tips were a pair of nipples which were difficult to distinguish from the surrounding area- Click to expand As I tortured both breasts- Click to expand This is what Asuna is to Kirito guys, an object for his sexual pleasure. Her arms which now encircled the back of my head tightened their grip. Letting out a hoarse, high pitched cry from the depths of her throat, Asuna twitched her body jumped once before collapsing against me, She was still breathing heavily, her body intermittently convulsed slightly Click to expand Oh pure and holy Asuna fucking came like a whore after having her tits played with for a few minuets. After I learned about it But talk about fucking wish fulfilment up the ass. Not only does Kirito make Asuna cum without even getting down there. But the "most attractive" female in all of SAO masturbated to him. Just wow, can we please go deeper into your fantasies Reki Kawahara? Also count the times Asuna fucking came, she came like 4 times and Kirito once. I gently moved the hand that had been abusing her breasts downward. Straight out lust when you are using descriptive language like that. Get over yourself, you are just doing this for yourself even though you only came once. But of course that was just Reki Kawahara desire to be a sex god. Abusing her breasts, did you fucking read that out loud this is starting to sound like rape again. I used the index finger and the middle finger of my left hand to stimulate the area around her vagina. While taking care not to touch the center, I enjoyed the sensation of squeezing the two mounds together, then pulling them apart. This is the part where we try to figure out what porn Reki Kawahara was watching at the time he was writing this. Hell I would even go so far as saying that some of the actions done here were ripped from studying porn. Cause as you continue to read I find it very hard to believe that Reki Kawahara has kissed a girl before. Asuna cried out, and her body started to shake and jump. Without regard for that, I kneaded the little knob that was peeking out from the top of the slit with my thumb while spreading it open with two fingers. As you can see, Kirito has only cared for his pleasure. Now that he has sucked the boobies and touched the vagina he will proceed to eat the vagina. Asuna forcefully rejected my suggestion as she shook her crimson red face. This was, to say rather than a preference of the developers, a limitation of the system itself. Hair type objects are of the extremely heavy category. As a result, aside from hair on the head and beards, there was absolutely no hair anywhere on the bodies of the SAO players. What a really round about way to give Asuna a shaven pussy. What sense does that make, that they can create this huge virtual world that trapped thousands of people in the game and they will die in real life if they die in the game. But simple arm hair, oh fuck that. We will have to wait for next gen. So that way developers can hype up graphical performance by saying that they can now render body hair. Also, you can develop and add sensitivity to the sexual organs, but yet Oh this one cracks me up every time cause you know where he wants to stick it in next: In between the two smooth mounds was a single slit, and further into that were light colored folds. Whether it was from embarrassment or loss of strength, Asuna stopped struggling, so I took my hand off her right foot and slowly spread the slit open. I am really starting to think that Kirito is taking advantage of this horny maiden. Inside the slit, compared to the information that I had received from the net in the real world, was an unusually simple design with what I thought was peach coloured membrane spreading smoothly inside and bottom" Click to expand Kirito just said he deprived himself of all sexual desires because he wanted to game. Yet he knows to compare the vagina from the real world to the one in the game. Fucking pick one, does he know about sex or was he a loser who just played games. I know you want to appeal to your audience by saying that he just played games will make Kirito relatable but stop doubling back on yourself. Of course, in my own lower half there was also a certain thing, which having swelled to its limits, was seeking release. But this was the first time since I had entered SAO that it had become like this. There is a somewhat interesting story concerning all of this I apologise for digressing, but When SAO was under development, the Argas company had an internal closed alpha test phase

during which time they reasoned that since players would have no use for genitals, it would not be necessary to objectify it. However, in reality they found that most of the male testers would experience a certain amount of severe anxiety. Even so, while there was no problem when playing for several hours. When they conducted consecutive tests over a 48 hour period, they found that most of the male testers who attended this trial period were unable to stand not having their genitals and gave up. So it was from the Beta testing phase that the genital parts were implemented out of a sense of necessity. It seems that this was also part of the reason why SAO players were not allowed to change their genders. However, even if you had your genital parts, the question that I had prior to the official start of the game meaning, before the incident was whether or not there would be anxiety over the lack of proper function. I myself had agonised repeatedly on multiple occasions over the inability to release my pent up energy, but now I saw that if the ethics code or whatever was disabled, then functionally, probably even ejaculation was possible. My oh my where do I begin I love how Kirito brings in Freud into this. Which begs the question Does that also include vaginas? Does everyone have the same dick and vagina? Shape, colour, girth, sensitivity and what not? Second, testing for over a 48 hour period. Okay, I understand that they are doing this for testing reasons, but if you are gaming non stop straight for 48 hours there is something missing in your life. Not even taking the time to eat, shit or sleep. Third "It seems that this was also part of the reason why SAO players were not allowed to change their genders. Forth, this Ethic Code is bullshit. Meaning, there was a fucking sex option in the game. I understand The Sims blurry sex, but this has been very, if not poorly, descriptive. XD Asuna shook her head from side to side as she cried out. I softly stimulated the entrance to that hole with my tongue as I pushed my finger in and out. Sticky is a sense of touch not of sound you dumbass. I even fucking googled "sticky sounds" and came up with people crumbling up sticky paper notes. And guess what it sounded like; people crumbling up paper. Every girl will be like this in the sack guys, just begging you to put it in. I felt a slight resistance, but with a popping sensation, half of my penis was swallowed up inside Asuna Click to expand I think your dick broke. Also the 2 inches that are inside Asuna from your embarrassing excuse of a penis is unimpressive. Asuna continued to scream as she continued to vigorously shake her head while her body shook. We are to assume that Asuna is a virgin right, like Kirito? So given that this game has made sex as real as possible she is in pain. Huge pain of having her cherry popped and instead of taking it nice and easy, you know being concerned about her. Hell this is some great foreshadowing for the fucking fairy arc where she literally is just the trophy. Asuna is not the love of his life, he sees her as an accomplishment. He only needs her to make his food and keep him warm in bed. Screaming loudly, Asuna climaxed for the second time. At the same time, my penis was squeezed with an incredible pressure, and to my horror, I felt a raging sense boiling up inside me seeking release. Our bodily fluids flew about Click to expand Okay, okay, okay Sex God Kirito the holy virgin that can actually hold back his climax for his first time. Why is this a thing? Wish fulfilment up the ass again. Making Kirito seem like some sort of master at this and not even for comedic effect. Reki you are projecting too much, people who like Kirito are projecting too much. You will never be this good your first time, for someone who again said withdrew their sexual desires to play video games can hold back coming during sex. Not only that, but he makes Asuna cum another time before climaxing.

Volume 1 Chapter 16 - 20 Chapter 16 Asuna told me that she had been monitoring the map while waiting for me in Grandm. When I pointed out that it was a figure which exceeded the dexterity stat limits, she answered with a slight smile: When Asuna explained her reason as "distrust of the guild," Heathcliff thought in silence for a while, but gave us permission nevertheless. Then, he said one last thing with a mysterious smile on his face: Neither of us said a word. There were quite a number of people who enjoyed committing crimes in this world. People thought of them as natural occurrences like monsters now. But when I thought about it, I still felt that they were a very strange group. It should be obvious to everyone that harming other players was an act that would undoubtedly hurt the chances of clearing the game. Neither reminiscing the past nor looking forward to the future, he simply tried to fulfill his endless desires, which resulted in the growth of his vile intentionsâ€” Then what about me? It would be more accurate to claim that I habitually explored labyrinths only for experience points. If I fought only to strengthen myself, to feel the pleasure of superiority, then somewhere deep down within myself, did I also not want this world to endâ€”? Suddenly, it felt as if the iron plate beneath my feet had begun to sink. I lowered my head and spoke as if I was talking to myself: No matter what happens We had arrived at the teleport gate plaza without realizing it. Only a few players were walking about in the area, huddling against the cold wind that foretold the coming of winter. I turned to look directly at Asuna. I thought that the warmth which radiated from her strong will was the only light that guided me towards the right direction. I want to be with you I would definitely have nightmares if I slept alone tonight. Asuna stared at me with wide eyes, as if she understood the reason behind my requestâ€” Then, with her cheeks blushing red, she nodded slightly. But despite this, Asuna said: Just read the paper or something and wait. Then I picked up the large newspaper that was on the table. But since this world lacked forms of entertainment, the newspaper became a precious source of media with many subscribers. The paper only had four pages, and I only glanced casually at the first page before tossing it aside out of irritation. This was because the title page headline was the duel between Heathcliff and me. One could say that I had only added another page to the undefeated legend of Heathcliff. Well, maybe they would stop bothering me as much if their expectations of my skill drops I helped myself find an easily acceptable excuse. Then, as I started to look through my inventory list, an enticing aroma wafted out of the kitchen. Asuna watched me with a wide smile as I stuffed the meat into my mouth. As we sat across from each other on the sofa and drank tea after finishing dinner, Asuna became quite talkative for some reason. She spoke endlessly about topics like which brand of weapons she liked and which floors had famous sightseeing locations. At first I listened to her with surprise, but then Asuna suddenly fell silent, which caused me to get worried. She sat absolutely still and stared at her teacup as if she was trying to find something. Her expression was extremely serious, almost as if she was preparing for a fight. Although I was confused by her behavior, her beauty still caused me to hold my breath. Her long hair that seemed dark blue, her slender, white arms and legs that stretched out from under her tunic, they all reflected the weak light and looked like they were glowing. Asuna silently stood by the window sill for a while. She also held her right hand against her chest and seemed to be hesitating about something. Just as I was about to ask what was going on, Asuna began to move her left hand. Her thumb and forefinger moved through the air, and a menu window appeared with an accompanying sound effect. As soon as I thought that, the knee-high stockings that Asuna was wearing disappeared, and the elegant curves of her legs were laid bare before my eyes. Her fingers moved again, and this time her short, one-piece robe was taken off. Asuna was now wearing only her underwear. Small white cloths which barely managed to cover her chest and waist. Asuna tried to cover her chest with her hands as she wavered; but after she raised her head and looked straight at me, she lowered her arms gracefully. I received a shock that felt as if my soul had left my body and could only watch her with a blank expression. Her skin that was tinged with blue light particles was soft and sleek. Her hair seemed as if it was made from the finest silk. Her breasts curved so perfectly that it appeared,

ironically, as if no graphic engine in existence could generate it. The curvature of her legs that started at her slim waist made one think of the gracefulness of a wild animal. It was impossible to believe that her appearance was only a 3D rendered image. If I were to describe it, it was like a sculpture made by God with life blown into it. With that in mind, one would call the existence of such a perfect body a miracle. I kept staring at her almost bare body as if my soul had left my body. She lowered her head and spoke: In other words, she took what I said that I wanted to spend the night with her, in a deeper sense than what I meant. As soon as I understood that, I also fell into an endlessly deep panic. As a result, I committed the worst mistake in my whole life up until now. No, you see, I just thought Then, an expression of intense anger and embarrassment spread across her face. Forget what I said! But, anyway, can you In the options menu, all the way on the bottom To think that this was another price that I had to pay for playing as a solo player and not having any interest except fighting. Have you ever done it before? I just heard about it from the other girls in the guild!! It took several minutes before I finally managed to calm her down. I ran a finger gently down her white back; the warm and smooth feeling that traveled up from my fingertips was absolutely intoxicating. Asuna slowly opened her eyes and looked towards me. She blinked twice and then smiled. Did I wake you? I had a strange dream. One about the real world I should have resolved it myself It was my fight. Tears formed in her hazelnut eyes as Asuna silently pressed her lips against the hand she was holding. I could feel their soft movement. Yet in this moment, my lips trembled, and I could hear the sounds unveiling themselves from my throat, from my very soul. You really are strong. I usually hide behind other people in the real world. He was really disappointed about that. Kirito-kun, I know this is contradicting what I just said We finally managed to convey our feelings, so I feel like something bad will happen again if we go to the front-lines straight away Even a strong bow will break if one pulled on it excessively. We definitely needed a break. I felt the impulse that drove me to fight relentlessly drift further away. Right now, I only wanted to deepen the bond between the two of us. I wrapped my arms around Asuna, then buried my face in her silky hair and spoke: They sell a few cottages there. The two of us can move there together Chapter 17 There were four types of relationships that two players could have within the SAO system. The second was friends. People who had listed each other as friends could send short messages to each other no matter where they were. The third was guild comrades. Apart from the above benefits, they also gained a slight increase in their stats when they partied with members of the same guild.
