In this ground-breaking book, Lon Milo DuQuette explains the symbology of the cards in his Tarot of Ceremonial Magick, a new deck published by Thelema www.enganchecubano.com concept is a breakthrough for occultists of all paths.

I give these two examples of the power of body language in the book: Sit in a chair. Drop your shoulders and put your hands between your legs so that your shoulders not only move down, but slightly together. Allow your head and neck to drop so you are looking down. This is a posture of failure and unhappiness. Now try saying that your life is a ruin. Stand up straight and tall. Put your shoulders back so your chest moves forward. It has been discovered, through the work of psychologist Wilhelm Reich, and later through Neuro-Linguistic Programming, that if you change your body language, you will change. The question is, how do you choose the body language to achieve desired changes? This leads to the Tarot. This is because the images on the cards will mentally, physically, and emotionally speak to you in some way. Part of this is that with some decks, especially those with designs that have been around for awhile, the images have seeped into our minds and hearts. Self-Change Through Tarot By combining the power of changing body language with that of archetypal Tarot symbolism, we can work some of the greatest magic of all: An example I like to give is that of a person who comes to realize that he is too egotistical and wants to change. First, I pick a card that just reeks of the current situation you want to change. Note that this may have nothing to do with the divinatory meaning of the card, just the image. The deck I frequently use for this is the Universal Tarot. The cards were painted by master Italian illustrator Roberto De Angelis. Although they are based on the old Waite and Smith designs, he really focused on the faces of the characters. Instead of the rather bland and blank images found on older decks, each one of the faces is alive with feeling and emotion. So how does this card represent egoism? The young boy has the Sun shining only on him. He proudly waves his banner. The banner has no words or symbols. His egoism has removed him from reality. What do you think of me? His most important message is: The image on the card is that of a man who has been tested in the world symbolized by his gray beard, but who realizes he can find peace by giving blessings. This is symbolized by the position of his right hand a traditional position of giving blessings and the crossed keys at his feet the keys to the kingdom of the Divine. Even other spiritual people their spiritual nature is indicated by tonsured scalps realize his state of peace and grace, and they kneel before him, not in servitude but in acceptance of his blessings. The Magic of Tarot The technique for doing this magic is actually rather simple. Begin by doing your usual banishings. In your magical circle, place two chairs at opposite sides of the circle. Have the person who wants to change use the first chair to assume the position of the boy in The Sun card. Let the person really feel the heat of the Sun coming down only on him. Let that person sense the sunflowers turned toward him. The person should feel that only one thing matters in the universe. And what is that one thing? When the person deeply feels the incredible egoism that is there, he or she should get up and start to move around the circle. It is like traveling from where they were to where they want to be. The movement can be a walk, crawl, dance, or whatever is deemed right. Finally, the person gets to the second chair. Sitting down, this magician assumes the position of the Hierophant, including all the wisdom, kindness, caring, giving, etc. The person should stay in the chair until he or she feels at home with those sensations. The ritual is then concluded. These are only the rudiments of this magical technique. It also gives more complex versions where you use more than two cards, based on the paths of the Tree of Life. Together, the book and the Universal Tarot make an excellent system for creating powerful, life-changing energies. The book also shows you how to create your own Tarot spells, use the cards as talismans, work with candles and color systems, perform kabbalistic pathworking, and much more. If you are doing initiations in the Golden Dawn tradition, this deck is priceless. It is the first deck to include all of the cards and all of the correct symbols as used by the Golden Dawn. It can also be used for Dancing the Tarot, in ceremonial magic, and even with magical techniques such as spells and in candle magic that are not usually thought of as ceremonial magic. One of the things I like to use it for resulted by accident. There is, however, an assumption in all of this. That assumption is that we must know, beforehand, what the purpose is. But when people do readings using the Tarot, they assume that there is going to be a relationship between the cards

drawn and the client. Why not assume the same when doing magick? Here is a technique I use when wanting to practice or do magic without having a specific purpose in mind. This technique only uses the Major Arcana cards. If you are using the Golden Dawn Magical Tarot , you will also want to remove the extra card used in a Golden Dawn initiation ritual. Do your usual banishings. Select one card and then use one of the following techniques: Look at the card intensely as you spin around until you get very dizzy. With each inhalation, feel or visualize energy coming into you. As you exhale, visualize projecting the energy out of your eyes and down your arms which point toward the card. Repeat at a faster and faster rate until you begin to feel lightheaded or you begin to lose your concentration. Perform this ritual outside at the top of a grassy hill. Protect the card between your hands, lie on the grass and roll down the hill. Shout with loud vowel sounds Aaaahhhh! The magic goes out for the purpose of the card, whatever that may be. Magick is something you are. He also studied public speaking and music traditional and experimental on the university level. After a decade of personal study and practice, he began ten years of teaching courses

That Spiritualism was popular on both sides of the Atlantic from the 1800s contributed to his success. His magical teachings were free from obvious fanaticisms, even if they remained rather murky; he had nothing to sell, and did not pretend to be the initiate of some ancient or fictitious secret society. He incorporated the Tarot cards into his magical system, and as a result the Tarot has been an important part of the paraphernalia of Western magicians. Hermetic Order of the Golden Dawn[edit] Main article: Hermetic Order of the Golden Dawn The Hermetic Order of the Golden Dawn or, more commonly, the Golden Dawn was a magical order of the late 19th and early 20th centuries, practicing a form of theurgy and spiritual development. It was probably the single greatest influence on twentieth century Western occultism. Some aspects of magic and ritual that became core elements of many other traditions, including Wicca , [3] [4] Thelema and other forms of magical spirituality popular today, are partly drawn from the Golden Dawn tradition. Aleister Crowley English author and occultist Aleister Crowley often introduced new terminology for spiritual and magical practices and theory. For example, he termed theurgy "high magick" and thaumaturgy "low magick". He also famously spelled magic in the archaic manner, as magick , to differentiate "the true science of the Magi from all its counterfeits. They may be a symbolic representation of psychological elements of the magician or of metaphysical concepts. In Magick Book 4 , Part II Magick , Aleister Crowley lists the tools required as a circle drawn on the ground and inscribed with the names of god, an altar, a wand, cup, sword, and pentacle, to represent his true will , his understanding , his reason, and the lower parts of his being respectively. On the altar, too, is a phial of oil to represent his aspiration, and for consecrating items to his intent. The magician is surrounded by a scourge, dagger, and chain intended to keep his intent pure. An oil lamp, book of conjurations and bell are required, as is the wearing of a crown, robe, and lamens. The crown affirms his divinity, the robe symbolizes silence, and the lamens declare his work. The book of conjurations is his magical record , his karma. In the East is the magick fire in which all burns up at last. Books of this genre, are records of magical experiments and philosophical musings, giving instructions for invoking angels or demons, performing divination and gaining magical powers, and have circulated throughout Europe since the Middle Ages. It is common belief that magicians were frequently prosecuted by the Christian church, so their journals were kept hidden to prevent the owner from being burned. Some claim that the new age occultism is a sham and borrowed heavily from these old record books by the religious. Such books contain astrological correspondences, lists of angels and demons, directions on casting charms, spells, and exorcism, on mixing medicines, summoning elemental entities, and making talismans. Magical books in almost any context, especially books of magical spells, are also called grimoires. Enochian magic[edit] Enochian magic is a system of ceremonial magic centered on the evocation and commanding of various spirits that was the magical exploration made by an English occultist Dr. It is based on the 16th-century writings of Dr John Dee and Edward Kelley , who claimed that their information was delivered to them directly by various angels. It claims to embrace secrets contained within the apocryphal Book of Enoch.
