By thinking, assessing and comparing these points, a commander can calculate his chances of victory. Habitual deviation from these calculations will ensure failure via improper action. The text stresses that war is a very grave matter for the state and must not be commenced without due consideration. This section advises that successful military campaigns require limiting the cost of competition and conflict. In order of importance, these critical factors are: Attack, Strategy, Alliances, Army and Cities. Disposition of the Army Chinese: It teaches commanders the importance of recognizing strategic opportunities, and teaches not to create opportunities for the enemy. Weaknesses and Strengths Chinese: Variations and Adaptability Chinese: It explains how to respond to shifting circumstances successfully. Movement and Development of Troops Chinese: Much of this section focuses on evaluating the intentions of others. Each of these six field positions offers certain advantages and disadvantages. The Nine Battlegrounds Chinese: Attacking with Fire Chinese: This section examines the five targets for attack, the five types of environmental attack and the appropriate responses to such attacks. Intelligence and Espionage Chinese: Chinese[edit] Verses from the book occur in modern daily Chinese idioms and phrases, such as the last verse of Chapter 3: If you only know yourself, but not your opponent, you may win or may lose. If you know neither yourself nor your enemy, you will always endanger yourself. This has been more tersely interpreted and condensed into the Chinese modern proverb: If you know both yourself and your enemy, you can win numerous literally, "a hundred" battles without jeopardy. Common examples can also be found in English use, such as verse 18 in Chapter 1: Hence, when we are able to attack, we must seem unable; when using our forces, we must appear inactive; when we are near, we must make the enemy believe we are far away; when far away, we must make him believe we are near. This has been abbreviated to its most basic form and condensed into the English modern proverb: All warfare is based on deception. Cultural impact[edit] Military and intelligence applications[edit] Across East Asia , The Art of War was part of the syllabus for potential candidates of military service examinations. During the Sengoku period c. The translator Samuel B. They both read it in French; Airo kept the French translation of the book on his bedside table in his quarters. It is recommended reading for all United States Military Intelligence personnel. Application outside the military[edit] The Art of War has been applied to many fields well outside of the military. Much of the text is about how to fight wars without actually having to do battle: As such, it has found application as a training guide for many competitive endeavors that do not involve actual combat. Many entrepreneurs and corporate executives have turned to it for inspiration and advice on how to succeed in competitive business situations. The book has also been applied to the field of education. National Football League coach Bill Belichick is known to have read the book and used its lessons to gain insights in preparing for games. Scolari made the Brazilian World Cup squad of study the ancient work during their successful campaign. Particularly, one of the fundamental books about e-sports, "Play To Win" by Massachusetts Institute of Technology graduate David Sirlin , is actually just an analysis about possible applications of the ideas from The Art of War in modern Electronic Sports. Running Press miniature edition of the Ralph D. Sawyer translation, printed in Sun Tzu on the Art of War. Lionel Giles , trans.
