

## 1: The Cambridge History of the Book in Britain, Volume 4: by John Barnard

*"The Cambridge History of the Book in Britain. Vol. , is an extraordinary resource, with thirty-eight highly informative, accessible essays, grouped into well-conceived sections, following a substantial introduction by Barnard.*

Religious publishing in England c. Oral Traditions and Scribal Culture: Oral and scribal texts in early modern England Harold Love; 4. John Donne and the circulation of manuscripts Peter Beal; 5. Literature of the Learned: The Latin trade Julian Roberts; 7. Patronage and the printing of learned works for the author Graham Parry; 8. Maps and atlases Laurence Worms; The literature of travel Michael Brennan; Science and the book Adrian Johns; Samuel Hartlib and the commonwealth of learning Mark Greengrass; Monastic collections and their disposal James P. Literature, the playhouse and the public John Pitcher; Milton Joad Raymond; The Restoration poetic and dramatic canon Paul Hammond; Non-conformist voices Nigel Smith; Women writing and women written Maureen Bell; Part V. The Bible trade B. English law books and legal publishing J. ABCs, almanacs, ballads, chapbooks, popular piety and textbooks R. Books for daily life: The Business of Print: Printing and publishing The economic context James Raven; French paper in English books John Bidwell; The old English letter foundries Nicolas Barker; Mise-en-page, illustration, expressive form: Scotland Jonquil Bevan; Wales Philip Henry Jones; The stationers and the printing acts at the end of the seventeenth century Michael Treadwell; Statistical appendices: A rich group of illustrations All the contributors, as well as Cambridge University Press, must be congratulated on this splendidly comprehensive volume It should also stimulate a broader acknowledgment of the importance of the book and the book trade. Apart from its knowledgeable analyses - often aided or illustrated by charts and diagrams - the volume offers an authoritative source of knowledge and data not widely known or readily available elsewhere. And it is perhaps a healthy sign of a rapidly evolving field that even pages offer only a taste of its full scope. Through archival virtuosity rarely matched, Kesselring has forced us to acknowledge that the state was not without its own extremely effective techniques in the negotiations over power that have recently dominated the field. All the essays are superb. The entire book is fascinating-an education in the Renaissance. McKenzie was amongst the most influential bibliographers of his generation.
