Prophecies and predictions of Edgar Cayce foresaw world events that can only be described as apocalyptic, a period of purification involving natural disasters that will dramatically alter the surface of the Earth, wars, economic collapse, and socio-political unrest. Cayce said that these future events could be averted if humanity changed its behavior. Cayce would repeatedly say that even the Lord of Lords could not accurately predict future events because human free will can alter and change the future. Cayce is referring to the Biblical account when Jesus is asked when he would return. The reason for this struggle is to prevent souls from lower afterlife realms from reincarnating to Earth. By preventing souls from the lower afterlife realms from reincarnating to Earth, only enlightened souls will be permitted to reincarnate. The result will be years of building a world of peace and enlightenment. After years, souls from lower afterlife realms will be permitted once again to reincarnate to Earth. He spoke of strife arising near the Davis Straits, and in Libya, and in Egypt, in Ankara, and in Syria; through the straits around those areas above Australia, in the Indian Ocean and the Persian Gulf. Given the wars in Afghanistan and Iraq and the tensions in the Middle East right now, such a war could certainly be a possibility. Since the Middle East unrest and the war against Libya this prophecy stands in the picture, this is the proof that Edgar Cayce really had a vision about this third world war, but it can still be stopped! Like all prophets say: The future can always be changed by humanity, God gave them a free will!!! Critics who are not very familiar with the Cayce material have pointed out that has come and gone and the second coming has not occurred. Such critics wrongly expect the second coming to happen when Jesus appears in the sky with a chorus of angels while Gabriel blows a horn and dead bodies crawl out of their graves. This idea of the resurrection was the result of a misunderstanding of the concept of reincarnation – the ancient concept of birth and rebirth. It would be nice to think that Cayce was referring to near-death research which would fit the description of the science he is referring to. Until we know more in the future, we will have to assume that this prediction is still pending. A new discovery in astronomy will occur Cayce provided a major clue that astronomers have not yet taken up: Major archeological discoveries concerning human origins will be found. Cayce predicted that there will be three profound archeological discoveries of a very ancient and important nature that will revolutionize the way we understand human origins, cosmology and religion. Cayce stated that this will occur when humanity reaches a higher level of spirituality. The three repositories mentioned are in Egypt near the Great Pyramid, the Bimini area where the possible portion of Atlantis has already been discovered, and the Yucatan the location where the asteroid that killed off the dinosaurs. Volcanic activity will proceed major earthquakes If there are greater activities in [the volcanoes] Vesuvius or Pelee, then the southern coast of California and the areas between Salt Lake and the southern portions of Nevada, we may expect, within the three months following same, inundation by the earthquakes. But these are to be more in the Southern than the Northern Hemisphere. Earth changes will occur in the central portion of the United States as well. Ken Ring discovered that many near-death accounts he was studying foretell future Earth changes such as earthquakes, volcanoes, a pole shift, strange weather patterns, droughts, famines, tidal waves and a new social order followed by a golden age. These NDE visions of the future agree completely with the Cayce predictions described below. In , Cayce elaborated on this effect: In the next few years land will appear in the Atlantic as well as in the Pacific. And what is the coast line now of many a land will be the bed of the ocean. Even many battle fields of the present will be ocean, will be the seas, the bays, the lands over which The New World Order will carry on their trade as one with another.
