The Demon's Covenant is a novel by Irish author Sarah Rees www.enganchecubano.com is published by Simon & Schuster. www.enganchecubano.com is the second book in "The Demon's " trilogy, the first being The Demon's Lexicon, released in 2015, and the third, The Demon's Surrender, released in June 2016.

Strategy Tips Melee strategy A quick roll makes this fight significantly easier. Approach the demon to the right, hacking and strafing to maintain your position. His slash attack will not hit you from this spot and you can get in several attacks before he repositions. He does have a side roll that is not as clearly telegraphed. It is possible to get 1-2 hits after a roll, but his counter-attack is very powerful. Thrusting weapons seem effective, as well as magic damage. Do not stay in front of the demon - he has a fast grab move which is difficult to escape and causes a lot of damage. Cheap Strategy-flexible to most builds If you are having problems using melee, there is an easily applied alternative that is both cheap and effective. Simply have a short bow using this only requires 7 Strength, and 12 Dexterity, a good number of wooden arrows I had several hundreds, but for one go should be more than good enough, and be able to fast roll. Once you pass through the fog gate immediately lock onto the covetous demon, fire an arrow, and then begin moving in either direction around the arena. When he attacks, move as is required to avoid his attacks, and then fire another arrow when he is open to attack. Keep moving, dodge attacks, fire an arrow, start moving again, rinse and repeat. Maintain a decent amount of distance from the demon, avoid using all of your stamina, and also take extra caution to avoid getting caught in the broken end of the stairs off to your right when you first enter, moving left around the arena can help to avoid this. Alternative fail-safe strategy viable for any build This strategy works perfectly even if you were eaten and stripped of all your equipment. The basic idea is to have somewhere around Throwing Knives in your inventory ready for battle. After this just wait for Boss to jump, run away from the landing point, toss 2 knives then rinse and repeat. Bait trick If you have a bow you can shoot the glowing green pots above one at a time to add undead bait the demon. This makes this boss vulnerable to attacks for a short while. You can shoot down all of the undead bait at the beginning of the fight and take your time fighting the boss while he is eating them. He will target the bait until they are all dead or eaten. Once the demon has taken the bait shoot another glowing pot and repeat the process. Be wary though, because the demon can sometimes ignore the bait for a short while before its dropped.

The Demon's Covenant switches to Mae's point of view, and takes place several weeks after the end of The Demon's Lexicon. Mae discovers that Jamie is The Demon's Lexicon was told from the Nick's point of view; Nick and his older brother Alan had spent their lives on the run from the magicians who had killed their father.

In Alchemy Berith was the element with which all metals could be transmuted into gold, surely derived from the name of the demon Berith. Rank Berith is a Great Duke of Jinnestan , powerful and terrible, and has Twenty-Six legions of demons under his command. He is also one of the Seventy-Two spirits of Solomon and one of the demons at the Louviers possession case. Appearance Berith appears as a soldier dressed in red, riding a red horse and wearing a golden crown on his head; according to other grimoires his skin is red too. Powers Edit Berith answers truly of things present, past, and to come but he is also a liar. Berith also has the power to transmute all base metals into gold. Lured by a handsome reward, he will ensure that great public dignities and manifold riches are bestowed upon the conjuror. Finally, he possesses the rather singular power or lending clarity of sound and ease of elocution to the voices of singers. The magician must use a ring to magically divert the flaming, noxious fumes from the mouth of the demon. According to some demonologists from the 16th century, his power is stronger in June, meanwhile to Sebastian Michaelis he suggests murder and blasphemy and his adversary is St. On a Monday night a black chicken is bled at a crossroads. But after twenty years, Berith will claim his reward for services rendered. I found myself, he said, in a house where a familiar spirit had manifested for six years taking care of winding the clock and currying the horses. I was curious one morning to examine these proceedings: The groom told me that to attract the familiar to his service, he had taken a small black chicken, which he had bled at a great crossroad; that with its blood he had written on a scrap of paper: He was worshipped in the shape of a fly; and Jewish tradition states that so addicted were the Jews to his cult that they would carry an image of him in their pockets, producing it, and kissing it from time to time. Baal-zebub is called Baal-berith because such Jews might be said to make a covenant Hebrew: According to another conception, Baal-berith was an obscene article of idolatrous worship, possibly a simulacrum priapi Yer. This is evidently based on the later significance of the word "berit," meaning circumcision. Baalberith in Christian demonology Edit Baalberith was the chief secretary of the Underworld , head of its public archives, and the demon who tempted men to blasphemy and murder. When seated among the princes of the Underworld, he was usually seen as a pontiff. He tells things of the past, present and future with true answers; he can also turn all metals into gold, give dignities to men and confirm them. He was also quite a voluble sort: In the process of the exorcism , Baalberith volunteered not only his own name and the names of all the other demons possessing her, but the names of the saints who would be most effective in opposing them.

The Demon's Covenant is the sensational follow up to The Demon's Lexicon. This book follows brothers, Alan and Nick as they struggle with Nick's new demon powers, as well as twins, Jamie and Mae, who are dealing with problems of their own.

A few deep breaths and reminding myself I could snuggle up with it later got me out the door. I knew it would be. Bring on the sequel. By the by, I really love both the U. Plus, that pink hair is just excellent. But when she stumbles across some magicians threatening her and hers once more, Mae does the only thing she can think of. And, in true Alan fashion, he drops everything and comes to their aid, bringing his brother Nick with him. But when the Obsidian Circle is involved, all bets are off. That ending still gives me chills. But it turns out I could not have been more wrong. You know those relationships that hit you where you live? That knock the breath from your lungs and bring tears to your eyes and a fierce smile to your face all in one fell swoop? I am at their mercy. And, while all of my hopes and wishes for them both may not be possible in the end, they are strong and real and that speaks to the powerfully rich and entertaining dynamic Sarah Rees Brennan has created. My love for Mae and Jamie is right up there as well, and I was thoroughly delighted to find Mae at the core of this second installment in the trilogy. She is a pleasing and sympathetic combination of audacity and uncertainty and I felt for her and was extremely proud of her as she fought to save all the crazy, beautiful boys in her life. Not one to stay at home and gather wool, Mae like Mae West prefers to confront the problem head on and fret over the sticky consequences later. This serves her well in almost all aspects of her life. Her heart being the notable exception. Which weapon to take? Where did Jamie just go haring off to? I was right there with her the whole time. She lifted her chin. Nick did not try to help Alan over the wall this time around. He stood with his hands clenched into fists in his pockets as they all waited for Alan to get over on his own. Her hand brushed muscle, braced and tense under her palm, for a moment. Then he shied away from her and glared. She smiled as if this reaction was perfectly normal. He turned to Jamie and popped his left wrist sheath again. I have no interest in your knives. I like it because it has a good grip for stabbing. And I love the flashbacks we get in this tale. The past is a living and breathing entity here and it is with marked trepidation that our protagonists endeavor to parse out its meaning in the present day. And for those of you interested, Ms. Brennan makes good on her promise that this is the Make Out book. There is no disappointment in that regard. Though you may find yourself even more torn when it comes down to it. It continually withstands pigeonholing and rises above expectations. It surprised me at every turn and it raised the stakes impossibly high. I gasped more times than I can count and my heart went out to each character repeatedly. I love them and I love this book. Not the least because it is above all about families, the bonds we form, and the sometimes feeble, sometimes illuminating ways in which we love--beyond reason, beyond blood, beyond even the bands of this world.

Mine is Irish, Native, Welsh, etc I had a strong curse from my ancient Celtic ancestors satanism. With the Power of God, the slavery of iniquity was crushed and I was set free. You need to understand how the power of iniquity keeps you in chains. Dr Lake goes into great detail about this and how to break the chains. The following is merely an example I have provided, if you wish to write your own please do. The love and obedience we have for God in our relationship to him , and his holy name, is what makes these covenants powerful. In addition, in order for these bond repudiations to be effective you need to first simply and earnestly ask Christ Jesus into your life and commit yourself to him in prayer. Also you should have already begun to take these steps to transform your life by making serious lifestyle changes. For example remove all magickal or divination tools, drugs, and negative associations you may have with people under the influence of such activities. Pray for forgiveness of sin to bind the demons power of iniquity. Bind the demon, break the power, Loose the Kingdom of Heaven in your life! Confess every secret sin to God so that iniquity cannot use it to have power over you. Surrendering your sins to Jesus Christ frees you from the demonic power of iniquity. Say these as loud as you feel comfortable with sternness and passion Renunciation and Affirmation for repudiation of contracts made by ancestors or yourself As an individual who from this moment forth has been emancipated from the dominion of the adversary and transformed by the kingdom of our Lord Jesus Christ, I abolish all demonic contracts and endeavors that I have devised for myself or inherited from my forefathers. As a child of God redeemed and bought with the blood of Jesus Christ, I hereby and for all eternity forswear and relinquish any sins of my lineage and mine own. As one who is also crucified alongside our Lord Jesus Christ and elevated to tread the path of newness in life, I pray that God reverse any anathema that is assigned to me and bless the sender with the pure realizations of critical thinking. As one who has been established with Jesus Christ and eternally resides with Him in heavenly places, I repudiate all methods in which the Adversary could petition dominance of my person. I proclaim that I am to be forever more given over in my covenant with Jesus Christ. The Adversaries take pledges seriously and so should you. It is common to have a paranormal sign that the contract has been broken. Feel free to distribute this as you see fit, if you use my version on your site please provide a hyperlink to this site. Thanks, Rebecca This one is specifically for victims who come from Luciferian families: I disavow ever signing my name over to Satan or having my name signed over to Satan by a family member. I forswear all satanic appointments, arrangements, deeds and allegiance that I made with the Adversary, or that may have been made for me without my knowledge when I was a child by a trusted friend or family member. I repudiate and rescind all curses and assignations created for me or by me for the servicing of Satan. Renounce any detailed pacts you may recall. I put my faith only in the shed Blood of my Lord, Jesus Christ and what He consummated on the cross by his benevolent self sacrifice. I seek the Holy Spirit for direction. I renounce all keepers, protectors and alternate parents appointed to me by Luciferians. I abdicate any rituals, teachings, or baptisms by Luciferians. I announce that I have been baptized into Christ and my identity now reflects the face of God. I reject all spirit guides commissioned to me. I forgo and disallow all diabolical angels, demons, and familiar spirits assigned to any portion of me, by Luciferians. By this, I am sealed until the day of my reparation. Through Jesus Christ who lovingly surrendered his life so that I just might have a chance to know God, I pray. Many times innocent people have paid for the transgression of an ancestor that they have never known due to family ties. In regards to the title of this page, if there ever were a "true" Satanist who would rescind such a pact, I have yet to meet one. I have written these for victims out there who are seeking a way out of the negative life they have been hostage to. Yes, I have read many a testimony of sincere Christian converts that considered themselves to have been a Satanist. Signing a contract such as this does not magically

make your problems go away. That is if you were engaging in activities that attracted the paranormal into your life, such as practicing majick ,divination, using tarot cards, using pendulums, scrying, speaking to spirits, etc the list goes on and on. You cannot expect to have protection and think that you can continue with your former path in life without giving up something in return. Rebecca [Occult Specialist of S.

All they see is cause and effect, so to speak. It does not matter if you use condom, a covenant is made. Know ye not that he which is joined to an harlot is one body? During sex many things are transferred, diseases, body fluid, and liquid. Again, this man with 50 demons is now sexually loose, he begins to sleep with another girl, the new girl will get 25 out of the 50. It goes on and on. The life of this man is divided, shared, anytime he does it, he can never remain the same. The girl that got 25 out of 50 would give half. Half of 25 is 12.5. Is it difficult to quote Bible verses about covenant? But ye shall destroy their altars, break their images, and cut down their groves: For thou shalt worship no other god: Lest thou make a covenant with the inhabitants of the land, and they go a whoring after their gods, and one call thee, and thou eat of his sacrifice; And thou take of their daughters unto thy sons, and their daughters go a whoring after their gods, and make thy sons go a whoring after their gods. And Jonathan caused David to swear again, because he loved him: Now, evil covenants, isaiah This is an inherited covenant. Unknowingly, you are into the covenant without your approval. I gave an example by saying demons, the Bible verse is a popular one that once you have a premarital sex. Body and spiritual entities are not the same. A cloth can be invoked or charged with power with spiritual power, and once you wear such demonic cloth that exposes your unclothedness, you automatically enter into a covenant. The same way the apron of Paul was used to heal the sick, it is not impossible to do the same for any cloth. Everything may not be inside the Bible, but the principles are there in the Bible and are applicable to the present day problems people are facing. I hope you understand. Sorry to say, but from what you just said, you read the bible, took some cues and became more adventurous in your thinking and these series of "adventurous" thought processes becomes a reality to, hence you are preaching it. To me, according to the bible, once you are a sinner you are already in covenant with the devil. Now when one is a sinner he commits sin. All these you mentioned above are a fragment of your imagination. Sex outside marriage is sin. Stop over rating it by bringing in demons and all that. How can you tell one has a certain amount of demons. What use is a demon in an individual if after having sex with a demonic partner his personality still remains the same, you are the one claiming he has demons, not him. People do not enter any covenant through cloths food and sex or picture. Imagine if this is true, then the whole world sinners are possessed by demons. So tell me is every sinner possessed by demon? What is evil covenant? This is an agreement between two or more parties, bounded together by evil powers and monitoring satanic spirit. Evil covenant is a covenant between Man and Satan Hell and Death.

Background[edit] A symbol associated with the Path to the Great Journey. According to the Covenant religion, the Forerunners, a race of enlightened beings regarded as nearly omniscient and all-powerful, discovered a way to transcend the physical world and became divine gods by activating the Halos , or "Sacred Rings" as referred to by members of the Covenant. The Covenant believed themselves to be the chosen inheritors of the Forerunners, and sought to reclaim the "gifts" they left behind, in most cases lost technology. Their ultimate goal was to locate and activate the Halo installations. In doing so, it was believed that all faithful adherents to the Covenant religion would be uplifted as the Forerunners were, following them on a Great Journey resulting in godhood. Janjur Qom was home to two influential factions, the Stoics and the Reformists. However, while the two species shared similar religious beliefs, the Sangheili believed that tampering with the artifacts of their gods was an unforgivable offense. The war ended with the submission of the Sangheili and the formation of a new empire through the Writ of Union. Next, in , came the Unggoy. The Jiralhanae , in , were the last species to be fully integrated into the Covenant Empire, and thus their religion. The Covenant religion was not without internal conflicts and heretical movements, as evidenced by several conflicts throughout Covenant history such as the Struggle for Ideological Purity. The rise and fall[edit] "In a moment, I will light the rings! And all who believe This unexpected discovery led to the immediate presence of the holy city High Charity and its accompanying fleet. However, efforts to ignite the ring were prevented by John , who destroyed the ring in order to stop the release of the Flood. This perceived sacrilege ignited widespread anger and grief among the ranks of the Covenant, having come so close to the fulfillment of their Great Journey. Only a month later, Installation 05 was discovered when the High Prophet of Regret made a slipspace journey to the Coelest system. However, the Covenant was once again denied in their efforts. In response, the fleet glassed the temple from where Regret had been giving a sermon, though the Master Chief escaped. This, and the subsequent orders for the Sangheili to be exterminated, culminated in the Great Schism. Though Installation 05 was not destroyed in its emergency shutdown, the entire Halo Array was automatically moved to standby status in preparation for firing from The Ark. During the Covenant invasion of Earth, Truth had his fleet excavate The Portal , which would enable him and his fleet to journey towards the Ark. The humans were successful, destroying the path to the Ark and removing the threat of the Halo Array. Post-Schism[edit] Following the Great Schism and the death of the Prophet of Truth, the Covenant--and the organisation of their religion--effectively dissolved. For more than six years, many members of the former Covenant were involved in brutal civil wars and power struggles. During this period the Prophets, who already had been few in number, largely disappeared, leading to rumors that they had actually finally achieved the Great Journey. As one Sangheili Shipmaster believed, "he knew his gods were out there, but he had no idea what they wanted. The devout Sangheili, in particular, had not had any need for their own religious leaders for centuries, and now found that few among them had the knowledge or the ability to comprehend the will of the gods. While the Covenant religion itself was more or less defunct as an institution, worship of the Forerunners persisted into the post-war era in various forms. Meanwhile, the Keepers of the One Freedom are a Jiralhanae -led militant cult that continue to seek transcendence through the Great Journey. The Keepers are notable in accepting human converts to their religion, many of whom had already joined the faction by mid- His efforts were successful, and the Didact awoke with the goal of composing humanity. The Great Journey[edit] What hope has this alliance If we cannot conquer Doubt of faith not each other- If our belief should falter? But put an ear to the stones Inside Their voices echo still: According to the Covenant, the Forerunners initiated the first Great Journey through the use of the seven Halos, or sacred rings, which unleashed a "divine wind" that swept through the galaxy and elevated the Forerunners to godhood. The Covenant seeks to do the same by finding and activating the sacred rings, which would transcend those worthy to the divine beyond, a heavenly paradise they will share with the Forerunners. The non-believers and those unworthy of the journey would be

left behind, as punishment for their heresy. In addition to being their overall goal, the Covenant also employ the term "Great Journey" in a broader sense; as an expression of the path to transcendence, both collectively and individually. The Covenant are aware of the Forerunner concept of the Mantle, although they appear to misunderstand its true meaning. The Halo Array[edit] The Prophets of Truth and Regret, with Mercy on the other side, rebuking the future Arbiter over his failure to save the first sacred ring. Halo Array The Halos , otherwise referred to as "Sacred Rings" or "Holy Rings" [8] by members of the Covenant, were seven holy artifacts that, when activated, would propel all "worthy" individuals in the galaxy into a heavenly paradise, where they would exist as divine beings. This could only be achieved by the retrieval of the " Sacred Icon ", a holy artifact that would activate the rings. From the inception of the Covenant religion, the Covenant Empire scoured all known star systems within their reach, relentless in finding at least one of these Sacred Rings. The search for the rings spanned over seven Ages ; the Age of Reclamation was the age in which the Covenant finally came into contact of two Sacred Rings. The first contact was short-lived, as the first Halo was destroyed by a demon , while the firing of the second was stopped due to Sangheili defectors who teamed up with the UNSC. This was known as the "Consecration". Flood The Flood, or "The Parasite" as referred to by members of the Covenant, are an unholy, virulent species regarded as one of many tests and obstacles that the believers of the Covenant must conquer in order to achieve the Great Journey. According to the Covenant, the Flood were vanquished by the Forerunners long ago, and were purged from existence when the Great Journey commenced. The latter was later revealed to be false, however, when the Flood reappeared on one of the Sacred Rings. The Governors of Contrition , a radical sect within the Covenant religion, believed the Flood to be Forerunner creations and therefore sacred. Their views were not widely accepted, however. Some of the Banished believe the Parasite was propaganda and lies made by the Prophets, but Atriox was aware that the parasite may exist in the Ark. They believe these constructs to hold holy knowledge regarding the Great Journey, and hold their words as sacred truths. Mendicant Bias and the Monitors are all regarded as oracles by the Covenant.

"Demon" is the Covenant name for all SPARTANs, but is most commonly used in reference to John specifically. This is primarily due to the fact that the Covenant fear the SPARTANs, because of their ability to destroy hundreds or thousands of Covenant soldiers.
