*Growing up with Doctor Who in the 70's and 80's, at a time before video and DVD, when repeats were rare and many stories only accessible through the novelisations, this Programme Guide almost became my Bible for the show, covering as it did a wealth of information about every episode from The Unearthly Child until the end of the Tom Baker era.*

The Doctor rarely travels alone and often brings one or more companions to share these adventures. The Doctor is centuries old and, as a Time Lord, has the ability to regenerate in case of mortal damage to the body, taking on a new appearance and personality. The Doctor has gained numerous reoccurring enemies during their travels, including the Daleks, the Cybermen, and the Master, another renegade Time Lord. Kennedy the previous day. Discussions and plans for the programme had been in progress for a year. The head of drama Sydney Newman was mainly responsible for developing the programme, with the first format document for the series being written by Newman along with the head of the script department later head of serials Donald Wilson and staff writer C. Writer Anthony Coburn, story editor David Whitaker and initial producer Verity Lambert also heavily contributed to the development of the series. As originally written, the Daleks and Thals were the victims of an alien neutron bomb attack but Nation later dropped the aliens and made the Daleks the aggressors. When the script was presented to Newman and Wilson it was immediately rejected as the programme was not permitted to contain any "bug-eyed monsters". Had we had anything else ready we would have made that. Falling viewing numbers, a decline in the public perception of the show and a less-prominent transmission slot saw production suspended in by Jonathan Powell, controller of BBC 1. Although the film was successful in the UK with 9. In September of that year, [11] BBC Television announced the in-house production of a new series after several years of attempts by BBC Worldwide to find backing for a feature film version. No full series was broadcast in, [13] although four additional specials starring David Tennant were made. Davies left the show in after the end of series 4 and the David Tennant specials were completed. This is similar to the continuation of Mission Impossible, [17] but differs from most other series relaunched which have either been reboots for example, Battlestar Galactica [18] and Bionic Woman or set in the same universe as the original but in a different time period and with different characters for example, Star Trek: The Next Generation and spin-offs. The programme has been sold to many other countries worldwide see Viewership. Public consciousness It has been claimed that the transmission of the first episode was delayed by ten minutes due to extended news coverage of the assassination of US President John F. Kennedy the previous day; in fact it went out after a delay of eighty seconds. The electronic theme music too was perceived as eerie, novel, and frightening, at the time. Some notable exceptions were: While the show continued to use historical settings, they were generally used as a backdrop for science fiction tales, with one exception: Black Orchid, set in s England. Each series includes both standalone and multiple episodic stories, linked with a loose story arc that is resolved in the series finale. As in the early "classic" era, each episode, whether standalone or part of a larger story, has its own title. Four mini-episodes, running about eight minutes each, were also produced for the, and Children in Need charity appeals, while another mini-episode was produced in for a Doctor Who-themed edition of The Proms. The 2-part story, entitled Dimensions in Time, was made in collaboration with the cast of the BBC soap-opera EastEnders and was filmed partly on the EastEnders set. A two-part mini-episode was also produced for the edition of Comic Relief. To celebrate the 50th anniversary of the show, a special 3D episode, "The Day of the Doctor", was broadcast in This included many old episodes of Doctor Who, mostly stories featuring the first two Doctors: William Hartnell and Patrick Troughton. In, almost all episodes then made were known to exist at the BBC, [68] while by the practice of wiping tapes and destroying "spare" film copies had been brought to a stop. Audio versions of all of the lost episodes exist from home viewers who made tape recordings of the show. In addition to these, there are off-screen photographs made by photographer John Cura, who was hired by various production personnel to document many of their programmes during the s and s, including Doctor Who. These have been used in fan reconstructions of the serials. These amateur reconstructions have been tolerated by the BBC, provided they are not sold for profit and are distributed as low-quality VHS copies. The missing episodes of The Reign

of Terror were animated by animation company Theta-Sigma, in collaboration with Big Finish , and became available for purchase in May through Amazon. In April , Blue Peter launched a challenge to find missing Doctor Who episodes with the promise of a full-scale Dalek model as a reward. Episode 3 of The Web of Fear is still missing.
