The room was clean ut extremely musty and I could not breathe because of my sinus. The AC did not function properly; the mattress was extremely hard and we could not sleep. Honestly we did not get value for money. Claire, Saint Lucia The location is great and the staff were very helpful. We loved the included breakfast. The owner was also often at the resort and she was very friendly and welcoming. Breanna, United States of America This property is in excellent location for day trips to tourist spots and walking distance to downtown Soufriere. Very unique property, hand built and one of a kind. We stayed in cottage because we had four people and it was comfortable with great view of Piton off the porch. Not a four star resort and beach is not very good, but location did it. Jeffery, United States of America Excellent swimming and snorkeling and diving right at the beach. Easy walk into the the town of Soufriere. Warm and welcoming staff. Paul, United States of America The grounds were beautiful and the hummingbirds plentiful. Every staff member we encountered bent over backwards to be accommodating. We absolutely loved snorkeling from the beach and exploring Hummingbird wall. The sheer wall has so much to offer. Elaine, United States of America Staff is friendly and the restaurant quite nice. The pool and the views from the pool are great. Carla, United Kingdom The food here was by far the best of the island. Way better than our other resort we visited Shad, United States of America Breakfast overlooking the Pitons Seclusion and surroundings of the cottage Don, United Kingdom The staff were very attentive and responded quickly to requests. David, United States of America The view of the beach and the Petit Piton from the pool and from my balcony were absolutely beautiful. The gardens on the property and around the pool area were filled with hummingbirds and butterflies.
