The Light of Peace - Storms must end. God's glorious light streams through the clouds in brilliant beams. That moment, when peace returns to the land, sea, and sky is a wonderful.

The Essential Kitaro Vol. His ongoing inspirational musical message of Peace and Love allows Kitaro to take his fans to the four corners of the globe, shining the spotlight of his musical message on audiences as he inspires fans from around the world to unite as one. After few years in the Japanese music group Far East Family Band, Kitaro became a solo artist in , and released his first album entitled Astral Voyage. In , he toured in Asia as a first-ever Japanese musician who performed in Taiwan and China. In , Kitaro signed worldwide contract with Geffen Records. This album exceeded two million dollars of sales in the U. After this, Kitaro continuously toured in the US and Europe and attracted a following worldwide. Nominated for 34th Grammy, the album reached the Billboard Top Pop Charts at , an amazing feat for an album in the New Age genre. The album also became 1 Top New Age Album for 8 weeks. After release, this was another Kitaro hit and Kitaro was nominated for another Grammy. In , Kitaro signed with Domo Records. Kitaro credits this Grammy to philosophy that fundamentally, at its heart, his music is always about sending a profound message of peace and spiritual development, both personally and globally. On that day, Kitaro was on a jet from Japan traveling en route to Los Angeles when the transcontinental flight was diverted to Hawaii for 5 days due to the tragedy. It was during this time of disbelief and uncertainty that Kitaro envisioned the Ku-Kai series as a means of uniting the world by music embracing a universal message of peace. The Sacred Journey of Ku-Kai series is an earthly travel that transports the listener to the 88 sacred temples located on Shikoku Island in Japan. The music is a serene journey in its own right. The true to life excursion made over years ago on Shikoku Island in Japan endures to this day. The global admiration for Kitaro and his music that unites the world is, of all things, real and constant. It was written for the modern day opera by internationally acclaimed filmmaker Zhang Yimou. It was his first-ever live project with a Symphony Orchestra, and Kitaro has received his 16th Grammy Nomination in . The live symphonic concert production hit the international circuit with stops in Warsaw, Moscow, Bucharest, Istanbul, Singapore and other historic and amazing international locations. Kitaro is universally acknowledged as the founding architect of new age music. His various sound collaborations and resonant, multi-textured compositions truly defy the constraints of any genre. The Grammy and Golden Globe-winning Kitaro has garnered global acclaim over a more than three decade long career with a signature sound and a pioneering fusion of cultures, techniques and spheres of consciousness that are truly his own.

God's glorious light streams through the clouds in brilliant beams. That moment, when peace returns to the land, sea, and sky is a wonderful affirmation. It is the inspiration for The Light of Peace, third in my Seaside Memories collection.

Also not surprisingly, their deceptions twist the nature and work of the Lord Jesus Christ and reveal an ongoing hatred for His true followers and Word. I put this plan "as far as was possible" before you, calling your attention to the New Group of World Servers. You will never get there by talking about it. You will get there by doing the next thing correctly. This is exactly what the spirit world has been working toward. In the name of purpose, people are being lured away from doctrine to focus on relationships. As They draw nearer we vision a new and vital world religion, a universal faith, at-one in its basic idealism with the past but different in its mode of expression. They need to learn that the kingdom is here, and must express itself on earth. The way into that kingdom is the way that Christ trod. He served and loved and wrought miracles, and gathered together the poor and the hungry. We have been held too long by the dogmas of the past, and there is today a natural revolt against the idea of individual salvation through the blood sacrifice of Christ. The kingdom is a kingdom of servers, for every saved soul must without compromise join the ranks of those who ceaselessly serve their fellow men. The teaching of Christ needs only to be rescued from the interpretations of the theologies of the past, and taken at its simple face value, which is an expression of the divinity of man, of his participation in the kingdom which is in process of being brought into recognition, and of his immortality as a citizen of that kingdom. Where there is goodwill there must be peace; there must be organized activity and a recognition of the Plan of God, for that Plan is synthesis; that Plan is fusion; that Plan is unity and at-one-ment. Christ in you and Christ in me. This is what will bring into being that one religion which will be the religion of love, of peace on earth, of universal goodwill, of divine understanding, and of the deep recognition of God. What is a holy man? Having once seen and with open eyes beheld the vision of divinity, what can we do? God, immanent in humanity, revealed through the historical Christ. God, immanent in the individual, the indwelling Christ, the soul. The belief that God is immanent within everyone and everything also leads to the belief that God is ONE God of many names and manifestations in the many religions faiths. The word spiritual will be given a far wider connotation than that which has been given in the old age and we shall no longer regard one activity as spiritual and another as not. The question of motive, purpose and group usefulness will determine the spiritual nature of an activity. Separateness is hatred, aloneness and division. Countless men and women in every land will form themselves into groups for the promotion of goodwill and for the production of right human relations. So great will be their numbers that from being a small and relatively unimportant minority, they will be the largest and the most influential force in the world. Through them, the New Group of World Servers will be able to work successfully. This active energy of loving understanding will mobilize a tremendous reaction against the potency of hate. For such are false apostles, deceitful workers, transforming themselves into the apostles of Christ. And no marvel; for Satan himself is transformed into an angel of light. Therefore it is no great thing if his ministers also be transformed as the ministers of righteousness; whose end shall be according to their works. Warren Smith, False Christ Coming:

6 years of sweet harmony between player and instrument I started making music again in , after a decades-long hiatus. By the beginning of My brother Will has been one of my strongest musical supporters, even from the first time I picked up a guitar at 12 years old. He purchased all my funky little early albums when they released, and continued his support in so many wonderful ways. One day I walked to the front porch step and there was a big box there. He had given me a gorgeous USA Fender with which to make music. This instrument is a part of me, a part of my sound, and a part of the thrill of creating and playing music. Believe me, my review is completely unbiased and is based on real experience. Everything about the Deluxe Ash Telecaster is awesome. The neck has a silky feel that is not the same as the satin feel of the Mexico Standard Teles and the American Special Telecasters. I enjoy the medium-jumbo frets. The neck is a 9. I love the hand-rolled edges of the neck. The frets were superbly dressed and in perfect condition. Level, smooth, no jags on the paws as you navigate the fretboard. What more can a guitar player want? I do like the bridge. Tuning is relatively stable. My Deluxe Ash Tele has Ping-style tuners I personally prefer the vintage Kluson-style tuners, but these work really well and stay in tune as much as I need them to. I think locking tuners would have been good but to be honest, this Tele behaves in a consistent way even after hours of play. No more or less out of tune than you would get with Ping tuners on a saddle-bridged Tele. Sounds great to me! Overall, it plays like a dream: Simplicity and power, all at the same time. No wonder many of the greats still play similar Telecasters. There are many components to sound quality in an instrument. The electronics are about as good as it gets without having a boutique manufacturer custom make pots, caps, jacks, switches, and wire for you. The pickups are stellar. Nicely-wound, pretty much as noiseless as a great humbucker, and give me a satisfying Telecaster sound that can twang, spank, and can rock hard in pretty much any genre I choose to play. It even sounds delightful with plain tubes in warm not drive mode in a clean channel or clean model on my computer interface. These totally flail down the aftermarket noiseless Tele pickups when it comes to the music I play. S-1 Switch Down On: Neck Pickup Tone woods: The other tone woods are good, too, but if I can get a Fender in Ash, it makes my ears happy. The wood is excellent and actually kind of light under the blonde finish light as in lighter than most ash grains. The electronics were done as though it was the last and best Telecaster on Earth. Very well-done, attention to detail, and a good instrument made on a good day at a great factory. There were zero issues with my Tele. It still plays and sounds perfectly wonderful. I love the case. But I like the case enough to want to take care of it. In either event, new or old, you get a great case for your awesome Telecaster. On my particular Tele, the position markers are abalone. The newer Deluxes have standard black dot position markers! Tomato-tomahto. In short, the American Deluxe Ash Telecaster earns its name as a feature-rich guitar: Ash body Excellent electronics and care-made pickups Superior woods.
