3: The Little, Brown Handbook, APA Update [with CD] by H. Ramsey Fowler

Margaret Brown's French Cookery Book is an unchanged, high-quality reprint of the original edition of Hanserbooks is editor of the literature on different topic areas such as research and science, travel and expeditions, cooking and nutrition, medicine, and other genres.

By L Matheny on Aug 07, Brand new, excellent book. Fast delivery so thank you so much Amazon! Not as easy to find things as the Compact Little Brown Handbook I hate english courses: Stalets on Sep 28, Appears to be a nearly new or new copy. By Yun-ju Jang on Apr 07, The binding was not good. Two pages of the contents stick together. I used this book when I was in college. I recently realised that I need to improve my english writing, I immediately thought about this book. It is so helpful. The book is well wrapped in the package. The book has some great parts but it becomes a waste of time when Find another one and tell me when you have found it: The book has some great parts but it becomes a waste of time when you have realized that you have not improved your writing skills although you had spent a great deal of time Five Stars By Cobrastrikes2x on Aug 27, I got what I needed from it. Five Stars By Whitney on Feb 20, I strongly suggest if you need to freshen up your grammar and paper writing skills. By Jason Belcourt on Apr 14, I dunno. My wife bought it for school. She got As, yo. New E-book only accessible if you also have a "Course code" By Travelswrites on Sep 26, This book and CD set is sold as an ebook with an access code that you do get when you open the packaging. The publisher wants to make sure no one reuses the code, so they also require a "course code" when you go online to gain access to open the ebook. Well, my son was in a high school class that requires the hardback, but not the CD. The other way the publisher could prevent the reuse of the CD access code they send in the packaging is to issue unique codes on every new CD. No problem, no "course code" required. How about it, Little, Brown? This book defines comprehensive! My last edition was the 9th and this one is significantly better, with better layout and colors to make every element on the page easier to read, even diacritical marks. Unfortunately, with purchase you are not given access to the companion website[Pearson has plastered the website ad in every chapter, in a special section of the book, and on the back cover. Completely unnecessary and no class. But also get the definitive source, The Chicago Manual of Style, which also includes several chapters on punctuation, grammar, and style. Finally, round out your education with Joseph M. The Basics of Clarity and Grace. The wonderful and detailed explanation it gives of MLA formatting made it worth it for me. It is also handy to have around if you find yourself confused about any rules of the English language. I like to write short-stories in my free time and this is nice to have on hand. I can easily look up quick references in the glossary and everything is explained clearly. This book contains how to use comma, quotation mark, and other elements, which is useful for writing essay in MLA format. And each section has examples and those examples are not many to completely understand such grammars, but quite useful. Just as good as the 12th edition By Matt on Sep 08, Excellent book saved me a lot of money, just as good as the 12th edition. However the seller sent me the wrong edition is was a special one for a certain college I contacted the seller but never got a reply. It continues to be the best reference book--and everyone who writes and publishes a book should use it. Pedagogically, it is a case study in how layout, boxes, arrows and colour are so important to make a point clear. Even more impressive is that the standard 3-year turnaround for a new edition is now two years 11th ed- ; 12th ed: And yet Freshman Composition remains a strange animal: The UK are getting tough, pushing a lot of this content down to secondary - http: But I think the FC juggernaut is unstoppable just like the galley slaves in English departments who teach FC work in conditions and with salary that are unspeakable. Syntax as Style- http: If you read, teach or write in English you must use this book. If you do not use this book, you are missing a great treat. It is the bible of English language use, and interesting to read, too. It teaches the rules to write English correct. Four Stars By June C. Chidlaw on Mar 17, More of a grammar english book, helpful and has examples. By Shar Tom on Mar 17, This little book covers almost every imaginable grammar point in the English language and also gives helps for organizing, writing, etc. I needed this for a college English course, so my feelings are mixed. While it was a great tool during class, I knew I would never again open it and so I sold it for close to my original purchase price. So you could say
