I wanted to contact you to tell you all of the amazing things and give you feed back from the trip. Christian was awesome, he was not only our driver but an excellent representative of your company and country. He explained many things to expect in Ecuador and he even took us to an authentic Ecuadorian restaurant on our return trip. Hostel Andino was excellent. I would very highly recommend Hostel Andino. Meeting you was awesome, thank you for all of the things you did to put this trip together! Thank you for the amazing dinner at Anglemeyer Restaurant! We were not prepared for how well people dressed in Quito, we were prepared for the sun and the rain but not for the cold, I would recommend more than 2 long sleeves shirts and pants. Tame airlines was also very good! On time, good service! Having a guide meet us at the airport was very easy way to get a great first impression of the islands and a warm welcoming! All of the guides and tours that you set us up with were the best! On one of our free days we booked a tour with Galapagos Dreams to Pizon and it was very good, but the tour you set up to Santa Fe was even better. Casa de Judy was the best, best, best! Even though Judy was not there our first week in Santa Cruz, her staff filled her shoes amazingly well warm and welcoming! The breakfasts were awesome. They helped with taxis. Judy even taught my children some spanish. The pool and rooms were excellent. Ferry system takes a little getting used to. Recommendation and you know more than me if the hostels could schedule or book the ferries that would be the best. They know the people and boats and can tell us what to expect and handle changes quicker and easier. This worked very well on Isabela where Coral Blanco helped us through everything. Jatun Sacha was the highlight of the whole experience! Even though the conditions were surprising the staff of Caesar, Juan Carlos, Carlos, and Sonya along with the most amazing fellow volunteers who are now friends for life. Thank you for setting this experience up, I feel my family and I really earned the respect of most of the Ecuadorians we met when we mentioned we volunteered at Jatun Sacha. My biggest regret was not being able to stay there longer, but there is always the return trip. The interpretation center, Playa Mann, and Playa Cobo were very fantastic experiences! We recommend the Crazy Crab restaurant in Puerto Moreno, delicious food, large portions, good price, nice service! Also visiting the bakery was a highlight of our stay on San Cristobal. We highly recommend Coral Blanco, the service was excellent and such nice and helpful people! We recommend the Booby Trap restaurant, good pizza, nice dishes, excellent service, good selection! The free days were perfect to rest, shop, play, and connect with the people and culture of Ecuador! I wish I could have thanked you in person. Thank you so very much for the Lead Adventure satchels. I will send you another follow up email with a recommendation and pictures if you would like! I will learn more Spanish for my hopeful return trip! You will need too have an open mind to try new activities such as planting, counting slugs for research program etc and be flexible about schedule at times. I had the best time doing new things while making new friends. Thank you so much for organising it so well. Every plan went well with being met and bookings and everything. Thank you for the smoothness of the overall organization. The people there were wonderful, the hotel we stayed in was amazing and I enjoyed the weather. After spending sometime in Quito, we headed to Santa Cruz, San Cristobal, then Isabella which happened to be my favourite island. I really enjoyed helping out in the different conservation projects on the islands and seeing how the climate, animals and the vegetation changed from Island to Island. I met some amazing people during my time there and wish I could do it all over again. Every second moment spent there was one to remember. I

am really glad I was able to be apart of this adventure and wish more people would follow in our footsteps. Triona Browne 23 United Kingdom In the Galapagos program I was involved with, there was a very clear schedule of activities that was followed. This made the program run very smoothly. In the office, the staff was very helpful and had excellent English. They helped me to change some of my itinerary and accommodations rather easily. John Wealthall 34 United Kingdom All in all, it was a great experience. I saw so much wildlife and met some very interesting people as well as getting a full understanding of Ecuador and the Galapagos. Thank you very much for the great time. I really liked the idea of seeing the Galapagos through two lenses: They were very understanding about storing luggage and changing rooms if we needed it. We were ready to work very hard for our program, but once we arrived we were happy to find out that there was free time off too to explore the surroundings. Catherine Oliver 19 United Kingdom The hostels provided in the program were good clean accommodations. They were very comfortable and enjoyable. The staff at LEAD was always available to listen, very helpful and friendly. Perhaps a small guide booklet with suggested tourist sites for visitors in Quito could be available at the hostel to explore the city. Rachel Shingaki-Wells 35 Australia I would recommend this to friends, I had a great time and was comfortable. Many thanks to lead staff for being very flexible in my travel arrangements. Isabella was great, Volcan Chico was very fun, las tintoreras tour was excellent. Tours in Galapagos excellent. While in Quito, Lead-Adventures staff very helpful in all inquiries, and a lovely host family. Very good i-to-i Spanish lessons.
