I was thoroughly terrified by the idea of the end of the world and the Antichrist. Combined with the weekly harangues at Christian school, it all made the apocalypse seem so real, so tangible, so close that I was constantly haunted by dreams and worries about what would happen if I found out who the Antichrist was. Would I risk my life to save everyone else? What if the Antichrist was me? I was filled with fear and confusion. Both Brian and I rejected the religious pressure of our education quite strongly. He, of course, promotes himself as a Satanist. It defined the taboos, then held them away at arms length, leaving me reaching for them in vain. As soon as I switched schools, it was all there for the taking – sex, drugs, rock, the occult. He was a gifted philosopher, more powerful intellectually than those who condemned him. The words Marilyn Manson seemed like an apt symbol for modern day America, and the minute I wrote it on paper for the first time I knew that it was what I wanted to become. All the hypocrites in my life had helped me to realize that everybody has a light and a dark side, and neither can exist without the other. I remember reading Paradise Lost in high school and being struck by the fact that after Satan and his angel companions rebelled against heaven, God reacted to the outrage by creating man in his image. To Manson, Satanism was not just a stage gimmick but a lifestyle. We left our gory photographs in restaurants on buses where people could find them and do whatever their consciences dictated. He recounts viewing a pornographic public access show of a man masturbating in front of the camera while asking viewers to send him their credit card numbers over the telephone. On the opposite channel was TV evangelist Pat Robertson. As an anthem for a hypocritical America slobbering on – Christianity, it was a blueprint for our future message. If televangelists were going to make the world seem so wicked, I was going to give them something real to cry about. And years later, they did. It was a truly supernatural moment that freaked me out. I admired and respected him. We had a lot of things in common: We had experience as extravagant showmen, successfully placed curses on people, studied criminology and serial killers, found a kindred spirit in the writings of Nietzsche, and constructed a philosophy against repression and in support of nonconformity. Satanism is about worshipping yourself, because you are responsible for your own good and evil. By telling people he was a Satanist, LaVey became Satan in their eyes – which is not unlike my attitude toward becoming a rock star. The day I became a Satanist also happened to be the day the allied forces of Christianity and conservatism began mobilizing against me. Blood letting on stage and scarring of the skin at least scars by the publishing of his book! In an early stage act, Manson had a pregnant woman pretend to perform an abortion on herself, wrap the fetus in a Nazi flag and present it to a TV set as a sacrifice. FitzSimmons Allison has pointed out in *The Cruelty of Heresy*, most modern nihilistic rage against the Christian faith is in reality a rebellion against a heretical conception of God. The protagonist speaking in this song is the self-righteous American looking at the failed culture his religion has produced. Manson laughs in glee when Christians attack his lyrics as offensive and pornographic, because he believes they are only proving his point. He is not the protagonist in the song. Therefore, when a famous Christian personality attacks him, they are attacking American Christianity and the culture they have created. He lambastes in song the oft-repeated Christian oxymoron: So watered down – your feelings have turned to mud. Indeed, we are frighteningly further along in this cultural trend towards Paganism than most Christians realize. A look at the popular music of the culture proclaims this loudly. Satanism was used as a kind of rebellion moniker from the very beginning of Rock and Roll. Death metal bands have proliferated since the s. But most rock stars used Satanic imagery mainly to entertain a depraved, drugged, and unthinking audience. There have been a few exceptions. In recent years, Satanists were behind ritual murders and a rash of church burnings in the southeastern United States. The band Deicide freely admits practicing Satanism. They actually have to be done for him, not for yourself, or for any kind of gratification of your own behalf. He is a rarity in the world of rock – an epistemologically consistent Satanist. I believe everyone is their own God. I dreamt I

was the Antichrist, and I believe it. Then at one point I saw myself. Sometimes I think the most shocking thing I could do would be to behave politely and speak of Christian morality. I see the apocalypse and the destruction of Christianity as giving people back to themselves so they can wake up and realize that they have the ability to be their own God and their own devil and accept responsibility for both halves. Which is all Satanism is. Sickly enough, maybe what America needs is for everyone to become a Christian so we can all be excited by the taboos once again. Manson completes his journey into the abyss by aborting his own offspring " and he understands that it is child killing. I wondered if she could talk to the doctor about keeping the aborted fetus. Will that make me God because more people believe in me than him? We are also disturbed by the mirror reflection of the culture of death, his popularity with millions of youth. Yet these are not so frightening as the picture of where this generation of young people may be headed without Jesus Christ. To some people, I was even bigger than Satan. No one has managed to succeed yet, but maybe through music we can do it. Rushdoony elaborates on the necessity of orthodox, creedal Christianity as the basis for human freedom. In the Christian faith, the idea of the Trinity " one God, three persons " is ultimately important. Each person of the Trinity is of equal importance, but submission to the Father is always maintained and unity in the Godhead is always preserved. Likewise, when the Christian is freed from sin, he bows his knee to the Lord Jesus Christ. The old man dies, but a new free man emerges. When both unity and personhood are in their proper God-given roles, man transcends himself. He is in communion with God, free from his own sinful state, free from the tyranny of the flesh, the devil and the world. Heretical notions of the nature of God and the nature of man has been basic to the decline of the Church in our century. What is true salvation? Man needs a savior, and he will choose one or the other: No man can choose the one without denying the other. All attempts at compromise are a symptom of the delusional self. Out of the bottomless pit comes the little horn.
