One of those things is using proper etiquette. As a something girl who is on her way to great things, it is important to always be chic, graceful, and a little bit sassy. These ten etiquette tips will ensure a successful future. If anything, put a smile on your face and try to conduct the rest of your day with positivityâ€”this might even elevate your mood. The same goes for people you encounter who are rude and snappy toward you. Maybe your positive vibes will rub off on them! Everyone loves to feel appreciated. Last year, after helping out with a huge event as an intern, the chairwoman of our organization sent me a handwritten thank you note. It was affirming to feel appreciated in a small way and was nice to know she took the time to write me. You can have the most put-together, polished appearance, but if you have extremely chipped nail polish, you might as well have stepped out in sweatpants. This goes along with minding your appearance in general. The utmost gracious act is always in line with following the golden rule and treating others the way you want to be treated. This goes for pushy co-workers, bad roommates, the girl in your group project who needs to get her act together. Respectfully telling someone how you feel with a smile on your face and a sprinkle of sass will get you much further than blowing up or resorting to petty, passive-aggressive jabs. I experience a bad case of secondhand embarrassment for people when I see it happen. For a woman in modern times, social media is slowly becoming an extension of her existence so it should therefore be regarded with similar etiquette guidelines. Always ask yourself whether or not you think it is a good idea to post something. You should keep your audience in mind and always update your privacy settings. Also, social media and alcohol should be avoided together at all costs. Once in awhile I see someone doing something really inconsiderate and I simply make a mental note to be conscious of my surroundings and those around me. The world would be a much better place if people were a tad more considerate. As a young woman, there can be a lot of uncertainty in your life. Just keep your confidence high even if you feel it wavering.

I would argue that we need this kind of etiquette now more than ever! Martin Luther King Jr. Hate cannot drive out hate, only love can do that. Put down your cell phone! Plan an evening with friends or family where everyone puts their cell phone into a basket upon arriving. If you want to put a competitive spin on it, eat out with a group and have everyone put their phones in the center of the table. The first person uses their phone has to pick up the check! Writing things by hand is becoming more and more rare as technology becomes more accessible and more widely used. Or better yet, make your own greeting cards! Take a step further than a greeting card and write a handwritten letter. The more you write, the better your handwriting will become, so practice as much as you can! Use them to thank clients, bosses, coworkers, teachers, or the employees at the stores and cafes you go to. Spend time with your parents and grandparents. They have so much to teach you! Ask them questions about their lives, ask them to show you how to make their favorite recipe, or even just help them with email or Facebook. Make the most of the time you have with them. Conducting a life interview with your parents or grandparents can be extremely rewarding and make a priceless memory. Learn how to conduct a great life story interview. Take care of the sick. Social support not only reduced stress, but it has been shown to actually improve physical health. Welcome newcomers in your neighborhood with a simple, useful gift. Take time out of your day to sit down and make a phone call. I know it can be tempting to squeeze those phone calls into your commute home from work, or during your grocery shopping, but try setting aside some dedicated time to talk, where you can focus solely on listening and talking. I usually choose coconut oil in my DIY beauty products, but If you hosts guests frequently in your house, consider investing in a guest book to leave in your guest room or your living room, or wherever your guests stay.

Learning by listening to everybody and knowing that human knowledge is never perfect are a leitmotif. Avoiding open conflict wherever possible should not be considered weakness. Others teach the correct way to lead through openness and kindness. Greed is the base of all evil and should be guarded against, while generosity towards family and friends is deemed praiseworthy. Confucius (551–479 BC) was a Chinese teacher, editor, politician, and philosopher whose philosophy emphasized personal and governmental morality, correctness of social relationships, justice and sincerity. The work was an example of a courtesy book, dealing with questions of the etiquette and morality of the courtier, and was very influential in 16th century European court circles. Louis XIV (1638–1715) "transformed a royal hunting lodge in Versailles, a village 25 miles southwest of the capital, into one of the largest palaces in the world, officially moving his court and government there in 1682. It was against this awe-inspiring backdrop that Louis tamed the nobility and impressed foreign dignitaries, using entertainment, ceremony and a highly codified system of etiquette to assert his supremacy. During the Enlightenment era, a self-conscious process of the imposition of polite norms and behaviours became a symbol of being a genteel member of the upper class. Upwardly mobile middle class bourgeoisie increasingly tried to identify themselves with the elite through their adopted artistic preferences and their standards of behaviour. They became preoccupied with precise rules of etiquette, such as when to show emotion, the art of elegant dress and graceful conversation and how to act courteously, especially with women. Influential in this new discourse was a series of essays on the nature of politeness in a commercial society, penned by the philosopher Lord Shaftesbury in the early 18th century. Shaftesbury defined politeness as the art of being pleasing in company: Its stated goal was "to enliven morality with wit, and to temper wit with morality. Periodicals, including *The Tatler* and *The Spectator*, infused politeness into English coffeehouse conversation, as their explicit purpose lay in the reformation of English manners and morals. *Painting by William Hoare*. Chesterfield endeavoured to decouple the issue of manners from conventional morality, arguing that mastery of etiquette was an important weapon for social advancement. The Letters were full of elegant wisdom and perceptive observation and deduction. Chesterfield epitomised the restraint of polite 18th-century society, writing, for instance, in *I would heartily wish that you may often be seen to smile, but never heard to laugh while you live. Frequent and loud laughter is the characteristic of folly and ill-manners; it is the manner in which the mob express their silly joy at silly things; and they call it being merry. In my mind there is nothing so illiberal, and so ill-bred, as audible laughter. I am neither of a melancholy nor a cynical disposition, and am as willing and as apt to be pleased as anybody; but I am sure that since I have had the full use of my reason nobody has ever heard me laugh.* By the Victorian era, etiquette had developed into an exceptionally complicated system of rules, governing everything from the proper method for writing letters and using cutlery to the minutely regulated interactions between different classes and gender. Manners are described as good or bad to indicate whether or not a behavior is socially acceptable. Every culture adheres to a different set of manners, although a lot of manners are cross-culturally common. Manners are a subset of social norms which are informally enforced through self-regulation and social policing and publicly performed. Sociology perspectives[edit] In his book *The Civilizing Process*, Norbert Elias [12] argued that manners arose as a product of group living and persist as a way of maintaining social order. Elias believed that the rituals associated with manners in the Court Society of England during this period were closely bound with social status. Charles Darwin analyzed the remarkable universality of facial responses to disgust, shame and other complex emotions. According to Val Curtis, [18] the development of these responses was concomitant with the development of manners behavior. For Curtis, manners play an evolutionary role in the prevention of disease. This assumes that those who were hygienic, polite to others and most able to benefit from their membership within a cultural group, stand the best chance of survival and reproduction. A commitment to sociality thus carries a risk: If threats such as these are left unchecked, the costs of sociality will quickly

exceed its benefits. Curtis argues that selective pressure borne out of a shift towards communal living would have resulted in individuals being shunned from the group for hygiene lapses or uncooperative behavior. This would have led to people avoiding actions that might result in embarrassment or others being disgusted. Types[edit] Curtis also specifically outlines three manner categories; hygiene , courtesy and cultural norms , each of which help to account for the multifaceted role manners play in society. Hygiene Manners “ are any manners which affect disease transmission. They are likely to be taught at an early age, primarily through parental discipline, positive behavioral enforcement of continence with bodily fluids such as toilet training , and the avoidance or removal of items that pose a disease risk for children. Violations are likely to elicit disgust responses. Courtesy manners help to maximize the benefits of group living by regulating social interaction. Disease avoidance behavior can sometimes be compromised in the performance of courtesy manners. They may be taught in the same way as hygiene manners but are likely to also be learned through direct, indirect i. The learning of courtesy manners may take place at an older age than hygiene manners, because individuals must have at least some means of communication and some awareness of self and social positioning. The violation of courtesy manners most commonly results in social disapproval from peers. Transgressions and non-adherence to cultural norm manners commonly result in alienation. Cultural norms, by their very nature, have a high level of between-group variability but are likely to be common to all those who identify with a given group identity. Rules of etiquette encompass most aspects of social interaction in any society, though the term itself is not commonly used. Rules of etiquette are usually unwritten, but aspects of etiquette have been codified from time to time. Books[edit] Baldassare Castiglione was an Italian courtier, diplomat, soldier and a prominent Renaissance author, who is probably most famous for his authorship of *The Book of the Courtier*. One of the most famous of these was Emily Post who began to document etiquette in *The Etiquette Book*. She later established an institute which continues to provide updated advice on how to negotiate modern day society with good manners and decorum. However, all note that to be a well-mannered person one must not merely read their books but be able to employ good manners fluidly in any situation that may arise. Office etiquette in particular applies to coworker interaction, excluding interactions with external contacts such as customers and suppliers. These rules are often echoed throughout an industry or economy. Business etiquette can vary significantly in different countries, which is invariably related to their culture. A notable difference between Chinese and Western business etiquette is conflict handling. Chinese businesses prefer to look upon relationship management to avoid conflicts [31] “ stemming from a culture that heavily relies on guanxi personal connections “ while the west leaves resolution of conflict to the interpretations of law through contracts and lawyers. Adjusting to foreign etiquettes is a major complement of culture shock , providing a market for manuals. Salesmen and women are usually persons who are both patient and polite, and their customers are most often ladies in fact as well as "by courtesy. It is, in fact, only the woman who is afraid that someone may encroach upon her exceedingly insecure dignity, who shows neither courtesy nor consideration to any except those whom she considers it to her advantage to please.
