Mystical Qabalah - Background C. It has been maintained in its purest forms by unbroken lineages of known and mostly unknown masters, saints, and prophets over thousands of years. The practices of the Mystical Qabalah, passed down from teacher to student, generally involve a variety of yogic disciplines that are rooted in scriptural revelations and primary texts. The highest intentions and experiences of the Mystical Qabalah correlate with those of all other mystical traditions. At the same time, and without contradiction, each mystical tradition has its own unique totality archetypes, scriptures, Messiahs and great souls, and styles of observances. The occult disciplines of wizards and magicians are often called the Practical, Hermetic, or Magical Qabalah. Practical Qabalah has its ancient roots in the "Thirteen Enochian Keys" of Enoch son of Qain, along with a highly eclectic admixture of material taken from Egyptian, Mesopotamian, and other non-Hebrew sources. It is important not to confuse Enoch son of Qain with Enoch son of Yared. The former Enoch was the grandson of Adam and the son after whom Qain was said to name a city. Enoch son of Yared was the great, great, great, great grandson of Adam, and the one who "walked with Elohim" and was transformed into Metatron. I Enoch was translated by R. Charles in the late nineteenth century. These books were drawn upon by both the Golden Dawn and Ordo Templis Orientis for some of their rituals and experiments. Aleister Crowley incorporated material from them in his writings as well. The primary text of the Mystical Qabalah that appears to occupy a central place of importance in the Hermetic Qabalah is the Sefer Yetzirah Book of Formation. However, from what is written in many of the books of Hermetic Qabalah, it is apparent that the structure of the Tree of Life, nature of the Inner Court, and function of the letter-gates as explicated by the Sefer Yetzirah are widely misunderstood. The Golden Dawn was founded in the late nineteenth century in the heyday of the Victorian Period. The document reputed to be at the foundation of the Golden Dawn system was the Cypher Manuscript attributed to Fraulein Sprengel. O was founded primarily upon works of sexual mysteries and Masonic Charters, and incorporated the Abramelin material at a later date. Until very recently, almost all books in English on the subject of the Qabalah, regardless of their title or professed subject, could be traced to members of these orders or to orders that evolved from them. While these two orders and their respective leading lights-MacGregor Mathers and Aleister Crowley gained the most notoriety and "product packaging" among recent Practical Qabalists, more powerful Magical Qabalists do exist and have existed unknown to the world at large.

Dion Fortune's classic, The Mystical Qabalah, explores all aspects of the Qabalah, including the esoteric sciences of astrology and tarot, which form the basis of the Western Mystery Traditions. It provides a key to the practical working of this mystical system for both novice and initiate alike. To.

It is also a system that can be difficult to grasp, leaving it to be, in general, one of the last things that a Tarot student turns to in their studies. It was written to be used as an introduction to the Tree of Life for students of the Society of the Inner Light, a society founded by the author. The background for "The Mystical Qabalah" lies in work done by MacGregor MATthews - specifically in the tables of correspondence that he presented in "Kabbalah Unveiled". The style employed in "The Mystical Qabalah" is one of the first things that struck me, with each paragraph being numbered. Perhaps this is simply a reflection of the times that Dion Fortune was writing in, and of the fact that the book was written as a study guide for students of her society. Some of the information presented in this book not only reflect the times that they were written in, but come across as highly judgmental. For example, from the chapter entitled "Yoga of the West" "2. The adepts of those races whose evolutionary destiny is to conquer the physical plane have evolved a Yoga technique of their own which is adapted to their special problems and peculiar needs. This technique is based upon the well-known but little understood Qabalah, the wisdom of Israel. In consequence of this deplorable limitation on the part of our theology, many Western aspirants take up Eastern methods. For those who are able to live in Eastern conditions and work under the immediate supervision of a guru this may prove satisfactory, but it seldom gives good results when the various systems are pursued with no other guide than a book and under unmodified Western conditions. It is for this reason that I would recommend to the white races the traditional Western system, which is admirably adapted to their psychic constitution. It gives immediate results, and if done under proper supervision, not only does it not disturb the mental or physical equipose, as happens with regrettable frequency when unsuitable systems are used, but it produces a unique vitality. It is this peculiar vitality of the adepts which led to the tradition of the elixir of life. I have known a number of people in my time who might justly be considered adepts, and I have always been struck by that peculiar ageless vitality they all possessed. Fortune goes into the choice of the Path manner of spiritual study and growth , the "method" of Qabalah and the Tree of Life with its esoteric symbolism , negative existence, the four worlds and the three Supernals, the ten Sephiroth, the Gods upon the Tree the Tree of Life and practical work done upon the Tree. Separate chapters are devoted to each of the Sephiroth, including the following information title, magical image, situation on the Tree, Yetziratic text, God name, Archangel, order of angels, mundane chakra, spiritual experience, virtue, vice, correspondence in the microcosm, symbols, Tarot cards and color in Atziluth, Briah, Yetzirah and Assiah. This is not a book for beginning students, as there are enough inconsistencies that there could be confusion as to what was being presented. I did find it well written, and easy to follow - if a bit verbose. It has its place as a reference book even though some things are implied, rather than stated , and acts as a good reflection of the times that it was written in. She has had articles appear in the and Llewellyn Tarot Reader.

THE MYSTICAL QABALAH. Mystical Qabala Page 2 FOREWORD THE Tree of Life forms the ground-plan of the Western Esoteric Tradition and is the system upon which pupils.

Her proficiency with poultry led her to become a staff member at the college from January to April. When I came in touch with his organisation, it was manned mainly by widows and grey-bearded ancients, and did not appear to be a very promising field of occult endeavour. But I had considerable experience of practical occultism before I made its acquaintance, and I immediately recognised power of a degree and kind I had never met before, and had not the slightest doubt but that I was on the trail of the genuine tradition, despite its inadequate exposition. An Appeal to Humanitarians in Moriarty performed an exorcism, claiming that the young man was the victim of the soul of a deceased East European soldier which had latched onto him as a parasite. Taverner, who appeared in a number of short stories first published in , later assembled in a collected volume as *The Secrets of Dr. Taverner* was portrayed as carrying out exorcisms to protect humans from the attacks of etheric vampires. Here, her primary teacher was Maiya Curtis-Webb, [45] a longstanding friend of the Firth family. She claimed that in doing so, she had contacted spirit-entities known as "the Watchers of Avalon" who informed her that Glastonbury had once been the site of an ancient druidic college. Along with an anonymous woman known only as "E. A few accepted her offer, but many others instead accepted the leadership of Stafford-Allen. They later came to believe that this experience was a result of a messenger from the Elemental Kingdoms, and it greatly influenced their developing beliefs. Wedgwood and Charles Webster Leadbeater, alleging that it was not concerned with the Master Jesus and was instead preoccupied with the Master Maitreya. One of the prominent figures in the Church, Bishop Piggott, accused her of attributing false claims to him in *The Occult Review*. She nevertheless was cautious about these Himalayan adepts, relating that although she felt that they were "not evil", she thought them "alien and unsympathetic" and "hostile to my race". In this book Fortune expressed reservations about Spiritualism. These articles were then assembled as the book *The Mystical Qabalah*, which is widely perceived as a milestone in her esoteric career. One of these was Israel Regardie, whose book *The Tree of Life* was regarded by Fortune as "quite the best book on magic" that she had read. Lewis, vicar of St. As it was, in her last two novels, *The Sea Priestess* and *Moon Magic*, she achieved greatness within the genre. Quite simply these are the finest novels on magic ever written. Really, looking around at the competition, they are the only novels on magic ever written. The literary scholar Susan Johnson Graf categorises these alongside the work of H. Fortune saw her occult novels as an important part of her Fraternity work, initiating readers into the realms of occultism by speaking to their subconscious, even when their conscious mind rejects occult teachings. Although she falls in love with him, she eventually escapes his entrapments through her devotion to Christianity. They achieve this with the aid of a poverty-stricken artist, Mona Wilton, who becomes close to Patson as the novel progresses. Above all she was a deft synthesizer of ideas, and her continued influence derives largely from her ability to bring difficult esoteric concepts into a lucid and readily accessible prose. According to Sadovsky, this is a celibate figure who concentrates her creative powers on training priestesses and dealing with occult matters. What that great initiate Rudolf Steiner did for the German-speaking races someone must do for those who use a Latin-root language and the Anglo-Saxon tongue.

The Qabalah is the traditional mystical system of Israel. It also forms the basis of medieval magic. This title deals with the work of the modern Qabalists as a contribution to the psychology of mystical experience, and also throws much light on the nature of primitive religion and the Mystery Cults.

The transliteration of Hebrew words into English is the subject of much diversity of opinion, every scholar appearing to have his own system. In these pages I have availed myself of the alphabetical table given by MacGregor Mathers in *The Kabbalah Unveiled* because this book is the one generally used by esoteric students. He himself does not adhere to his own table systematically, however, and even uses different spellings for the same words. This is very confusing for anyone who wishes to use the gematric method of elucidation, in which letters are turned into numbers. When, therefore, Mathers gives alternative transliterations, I have followed the one which coincides with that given in his own table. The capitalisation employed in these pages may also appear unusual, but it is the one traditionally used among students of the Western Esoteric Tradition. In this system, common words, such as earth or path, are used in a technical sense to denote spiritual principles. When this is done, a capital is used to indicate the fact. When a capital is not used, it may be taken that the word is to be understood in its ordinary sense. As I have frequently referred to the authority of MacGregor Mathers and Aleister Crowley in matters of Qabalistic mysticism, it may be as well to explain my position in relation to these two writers. I was at one time a member of the organisation founded by the former, but have never been associated with the latter. I have never known either of these gentlemen personally, MacGregor Mathers having died before I joined his organisation, and Aleister Crowley having then ceased to be associated with it. The Society of the Inner Light, founded by the late Dion Fortune, has courses for those who wish seriously to pursue the study of the Western Esoteric Tradition. Information about the society may be obtained by writing to the address below. Please enclose British stamps or international postal coupons in your letter if you wish a response. Her pseudonym was inspired by her family motto "Deo, non fortuna" which translates as "God, not fate". She reported visions of Atlantis at age four and the developing of psychic abilities during her twentieth year. She attended courses in psychology and psychoanalysis at the University of London, and became a lay psychotherapist at the Medico-Psychological Clinic in Brunswick Square. Her first magical mentor was the Irish occultist and Freemason Theodore Moriarty. In she was initiated into the London Temple of the Alpha et Omega before transferring to the Stella Matutina order. This latter is a collection of short stories based on her experiences with Theodore Moriarty. Though some of her writings may seem dated to contemporary readers, they have the virtue of lucidity, and the avoidance of the deliberate obscurity that characterised many of her forerunners and contemporaries. This brought new members to the Alpha et Omega. This society was to be the focus of her work for the rest of her life. Her masterpiece, *The Mystical Qabalah* was first published in England in , eleven years before her death from leukemia. Dion Fortune met and corresponded with Aleister Crowley, whom she acknowledged in the introduction of *The Mystical Qabalah*. Dion Fortune claims to have participated in the "Magical Battle of Britain", which was an attempt by British occultists to magically aid the war effort and which aimed to forestall the impending German invasion during the darkest days of World War II. The effort involved in this endeavour is said to have contributed to her death shortly after the war ended. Her Society of the Inner Light continues to function.
