

### 1: Download The Poems and Hums of Winnie-the-Pooh: A Pooh Window Book Free Online - Video Daily

*Poems, Rhymes and Hums. It's a very funny thought that, if Bears were Bees, They'd build their nests at the bottom of trees. And that being so (if the Bees were Bears).*

He bounces around, especially bouncing on others. He is full of energy, outgoing, and likes to have fun and is so overconfident that he thinks that any task is "what tiggers do best". His main catchphrase is "Hoo Hoo Hoo Hoo! Cummings reprised his role for the Christopher Robin film. Owl[ edit ] Owl is the stuffy and talkative eldest main character who presents himself as a mentor and teacher to the others. He was not based on a stuffed toy, so in the illustrations he looks more like a live animal. Owl and most of his friends believe that he is the most intelligent animal in the wood, but he is really quite scatterbrained. He often rambles on into long-winded speeches and uses words that his friends do not understand. Though Owl likes to present himself as very knowledgeable, like most of the other characters he does not spell very well; he even spells his own name "Wol". When Rabbit who is quite literate comes to Owl to discuss a notice that Christopher Robin has left, Owl cannot read the notice. But rather than admit this, Owl anxiously bluffs his way through the conversation until he finally tricks Rabbit into reading the notice out loud, at which point Owl resumes his wise demeanor as if he had known all along what it said. In the books, Owl has a superior but kindly manner towards the others. He can be cross and easily annoyed, especially when his friends ignore or interrupt his long-winded speeches. He sometimes wears reading glasses and he uses his talons for hands, not his wings like in the Disney version. He lives in a tree known as The Chestnuts, described as an "old world residence of great charm". That house is blown down by a storm in the eighth chapter of The House at Pooh Corner. Nonetheless, Piglet offers the house to Owl. Owl calls his new home "The Wolery". In the Disney adaptations, Owl is much more jovial and friendly. He speaks with a strong Southern English accent. He enjoys telling stories about his relatives, including his cousin, Dexter, whenever something reminds him of one, but many of his stories are pointless or absurd. In Welcome to Pooh Corner , Owl always wears glasses and loves to cook. He does not appear in My Friends Tigger and Pooh. Minor characters in the books[ edit ] Bees[ edit ] A swarm of honeybees makes their debut in the very first chapter. They live in the hive where Pooh tries to get his honey. They frequently appear in virtually every version of the Disney adaptations. There appear to be several different beehives in the Hundred Acre Wood. Whenever Pooh and his friends encounter the bees, trouble usually occurs with the bees going after them. They do not generally do much or have much character development, and only a few of them are named. Alexander Beetle is briefly mentioned on page of Winnie-the-Pooh, and he appears to have become upset and hidden himself in a crack for two days, then went to live with his aunt. He is also the subject of a poem in Now We Are Six. Small short for Very Small Beetle is the subject of a search that Rabbit organizes to find him. Henry Rush is a beetle. He attended the Spelling Bee, kept score at the cricket game, and danced at the Harvest Festival. They also attended the Spelling Bee. Although it is never mentioned what species they are, illustrations point to them being mice. He has a tendency to be unsure of what he sees. His species is never revealed. Many relatives appear in The New Adventures of Winnie the Pooh episode "Party Poohper" and he occasionally mentions them at other times in the Disney adaptations. Heffalump Heffalumps are elephant-like monsters first mentioned in the fifth chapter of the first book and in the third chapter of the second. In the books, Piglet twice has a run-in with a Heffalump that is only a figment of his imagination. The Disney version establishes them as real creatures. Like Pooh imagined in the books, Heffalumps are fond of honey and like to take it for themselves. There have been several real Heffalump characters in the Disney version. Some Heffalumps are villainous creatures and some are genuinely good. Wozzles[ edit ] "Woozle" redirects here. For other uses, see Woozle disambiguation. A Woozle is a weasel -like monster imagined by the characters in the third and ninth chapters of Winnie-the-Pooh. No Woozles actually appear in A. They are first mentioned when Pooh and Piglet attempt to capture one, which they assume made the tracks in the snow going around a larch spinney. The more they follow them, the more sets of tracks they find, but Christopher Robin shows them that the tracks around the spinney are their own. Woozles appear in the song " Heffalumps and Woozles " in Winnie the Pooh and the

Blustery Day, which establishes their fondness for stealing honey and their association with Heffalumps. A Woozle named Stan and his sidekick Heff the Heffalump are recurring villains. They once recruited a giant Woozle named Wooster also voiced by Jim Cummings who turned against them when Pooh and his friends taught him the value of friendship. Woozles do not appear in the Disney adaptations nearly as often as Heffalumps do and, unlike Heffalumps, always attempt to act as villains, with Wooster being the only one to change his mind on this. Jagulars[ edit ] Jagulars are imagined jaguar -like fierce creatures that are only mentioned in the fourth chapter of The House at Pooh Corner , in which Pooh and Piglet mistake Tigger for one. Jagulars have yet to actually appear in any Disney adaptations. Their most prominent role to date is in The New Adventures of Winnie the Pooh where they are mentioned more often and are the main antagonists in a couple of episodes. Owl describes him as a large, ugly, mean and scary purple and blue creature who ruins or destroys many everyday items, such as books, socks and crayons. Pooh and his friends build a trap to try to capture him a pit with a trail of books, socks, dishes, toys and other items leading to it , but Christopher Robin reveals that he was never captured, just away at school. However, the trap does capture him, as he picks up all the items and then falls into the pit. The Backson is voiced by Huell Howser. Scary trees[ edit ] Evil living trees that tend to frighten those who encounter them. They first appeared in Boo to You Too! Winnie the Pooh where Piglet encounters two of them while fleeing in the woods. They make most of their appearances in video games. He is mentioned in the eighth chapter of The House at Pooh Corner, but never actually appears. His portrait appears in Winnie the Pooh and a Day for Eeyore when Owl says Uncle Robert celebrated his rd birthday, despite claiming to be Return to the Hundred Acre Wood reveals that Uncle Robert is dead, but Owl keeps his ashes in a vase and attempts to write his biography. Lottie[ edit ] Lottie is an otter and the only new major character in Return to the Hundred Acre Wood. Lottie is a "feisty" character who is also good at cricket and insists on proper etiquette. She makes her home in a wooden trunk filled with water that she calls Fortitude Hall. He does not entirely approve of Rabbit, but gives him advice anyway. Thesaurus[ edit ] A Thesaurus is what Piglet imagines to be a large reptilian creature in a similar way to how the characters imagined Heffalumps and other creatures in the original books. Even after Piglet learns what the word "thesaurus " means, he still imagines it to be an animal. Major characters created by Disney[ edit ] The Narrator[ edit ] The storyteller who speaks off-screen. Sometimes the characters, who are aware that they are in a book, speak with him while facing him. They sometimes affectionately call him "Mr. He sometimes uses his position to help the characters, since he can manipulate the book and pages. The Search for Christopher Robin have a narrator, but omit the "book" feature, so the characters are unaware of him. Welcome to Pooh Corner is the only time when viewers actually see his face. He is the only Disney-only character who returns for Winnie the Pooh. Typically, he speaks with a Southern English Accent.

History Origin Original Winnie-the-Pooh stuffed toys. Clockwise from bottom left: Roo was lost long ago; the other characters were made up for the stories. Milne named the character Winnie-the-Pooh for a teddy bear owned by his son, Christopher Robin Milne, who was the basis for the character Christopher Robin. Gopher was added to the Disney version. He named the bear "Winnie" after his adopted hometown in Winnipeg, Manitoba. Colebourn left Winnie at the London Zoo while he and his unit were in France; after the war she was officially donated to the zoo, as she had become a much loved attraction there. In the first chapter of Winnie-the-Pooh, Milne offers this explanation of why Winnie-the-Pooh is often called simply "Pooh": But his arms were so stiff And I think "but I am not sure" that that is why he is always called Pooh. In Milne, a Londoner, bought a country home a mile to the north of the forest at Cotchford Farm, near Hartfield. According to Christopher Milne, while his father continued to live in London "And we would spend a whole glorious month there in the spring and two months in the summer. In the centre of this hilltop was a clump of pines. Christopher added that, inspired by Ashdown Forest, his father had made it "the setting for two of his books, finishing the second little over three years after his arrival". As Christopher Milne wrote in his autobiography: The wooden bridge is a tourist attraction, and it has become traditional to play the game there using sticks gathered in nearby woodland. Shepard in the original books, as the bridge did not originally appear as the artist drew it. Winnie-the-Pooh first appeared by name on 24 December, in a Christmas story commissioned and published by the London newspaper The Evening News. It was illustrated by J. The Evening News Christmas story reappeared as the first chapter of the book. He was renamed after a black bear at London Zoo called Winnie who got her name from the fact that her owner had come from Winnipeg, Canada. Dutton in the United States. Although he and his friends agree that he "has no Brain," Pooh is occasionally acknowledged to have a clever idea, usually driven by common sense. Pooh is also a talented poet, and the stories are frequently punctuated by his poems and "hums. Later, Pooh muses about the creative process as he composes the song. Pooh is very fond of food, especially "hunny" but also condensed milk and other items. When he visits friends, his desire to be offered a snack is in conflict with the impoliteness of asking too directly. Though intending to give Eeyore a pot of honey for his birthday, Pooh can not resist eating the honey on his way to deliver the present, and so instead gives Eeyore "a useful pot to put things in". Pooh is very social. After Christopher Robin, his closest friend is Piglet, and he most often chooses to spend his time with one or both of them. But he also habitually visits the other animals, often looking for a snack or an audience for his poetry as much as for companionship. His kind-heartedness means he goes out of his way to be friendly to Eeyore, visiting him and bringing him a birthday present and building him a house, despite receiving mostly disdain from Eeyore in return. The illustrations, by Mark Burgess, are in the style of Shepard. Parker Brothers also introduced A. In the s, Agnes Brush created the first plush dolls with Pooh in his red shirt. Shepard had drawn Pooh with a shirt as early as the first Winnie-The-Pooh book, which was subsequently coloured red in later coloured editions.

This mini pop-up book for children, containing a selection of Winnie-the-Pooh's poems and hums, features special 3-D windows through which Pooh and his friends can be seen at play.*

October recalled in June I even remember the day I was given it. I suppose I was about six years old. I was used to reading the A. Milne books myself but loved even more having them read to me. Pancras until she married and had to give it up. I had picked up reading easily, mainly I suppose by being read to and being introduced to a wide range of books. When I started school and it was realised that I was already able to read, my teacher, Miss Thomas, used to take a group of children around her for group reading and give me another group to do the same. It never occurred to me then that this was unusual. Anyway, I had been home for lunch and was on my way back to school for the afternoon session. Her aunt lived opposite me in Laurier Road. About half way down the hill we stopped at a road crossing but my foot slipped straight out in front of me just as a car came to a halt at the junction. It stopped with the tyre over the lower part of my leg just above my ankle and the poor horrified driver rushed out to make sure I was OK. She was even more horrified to see that the car was still on top of my leg and had to get back in to move it away. Meanwhile a group of anxious passers-by had gathered and somebody spotted my father coming up the hill on the other side and rushed to tell him. Normally he never came home at lunchtime, so this was very unusual but also fortunate as he had the rest of the day off. He told me he had a special surprise for me and, having realised that I had no broken bones, he gave me a piggy-back all the way home. My surprise was this record and we played and played it over the next few days whilst I recovered from a badly sprained ankle. I think I can probably sing all the songs on it even now, though it is a great many years since it was last played. Better quality and more sturdy wax cylinder records followed around a decade later. Cylinders and discs coexisted until after the First World War, when the disc system became the most popular. Shellac compounds began to be used for records in the late century, replacing hard vulcanised rubber as the most popular material. The ten inch format was standard after , which typically allowed about three minutes of material to be recorded on each side.
