Mikuru is cast as the female lead, Itsuki as the male lead, and Yuki as the supporting character, while Haruhi becomes the director and Kyon is assigned to "other menial tasks". Haruhi goes off to find sponsors, dragging Mikuru and Kyon with her. Haruhi "negotiates" at various stores, and miraculously emerges with things like cameras and model guns for free without using blackmail while Kyon is forced to carry all the items. The next day, Haruhi forces Mikuru into a waitress outfit and designates it as her movie costume. She casts Mikuru as a "battle waitress from the future", Itsuki as "the esper youth", and Yuki as an "evil alien magician". Filming starts, but Haruhi takes the cast to the stores where she negotiated her items to film commercials this was how she bargained her props out of the store owners. Haruhi buys a colored contact lens for Mikuru so that each eye will look different, something that Kyon cannot figure out. Haruhi films the battle scene between Mikuru and Yuki, and tries to get a shot of Mikuru running through a flock of pigeons, commenting that she wishes the pigeons were white. Haruhi declares that she wants to make Mikuru suffer before the "happy ending", something Kyon objects to. She then stages another battle scene, telling Mikuru to fire a "Mikuru Beam" from her eye. Without warning, Yuki tackles Mikuru over, covering the camera with her hand. Yuki informs Kyon that Mikuru had actually fired a laser out of her eye, showing Kyon four black holes in her right palm which she quickly heals. Itsuki and Yuki decide that Haruhi had created a Mikuru Beam from her desire to have one. Mikuru tells Kyon that Yuki came to her house the night before and injected nanomachines to prevent Mikuru from shooting any more lasers. Haruhi, however, gives Mikuru a different colored contact lens, and Yuki tackles her over again, later revealing to Kyon that the different colored lens triggered a different type of laser that Yuki did not prevent. Haruhi then tries to film the kissing scene between Mikuru and Koizumi in the same house, while Mikuru starts to become extremely vacant. Itsuki shows Kyon the place where the pigeons had been filmed, only to see that they had been turned white overnight. Itsuki urges Kyon to help the situation, because Haruhi has begun to confuse the fictional world with reality. Kyon tries to cheer Haruhi up, but it only makes the situation worse: Finally, Kyon discovers the solution: As Kyon is forced to edit the movie, Haruhi offers to help him, but both of them fall asleep in the club room. By the next morning, Kyon realizes that the movie has seemingly edited itself, the disclaimer in its place at the end. Kyon investigates all the problems that had been caused by Haruhi, and finds them all to be solved.

The Melancholy of Suzumiya Haruhi S2: After being absent for a very long period of time, J is finally back in the blogging scene. So here we go! Haruhi is disgusted by their lack of motivation, and promptly decides to do something much, much more exciting with the SOS Brigade. In the clubroom, Haruhi and Co. Apparently she figured that any joe could flim a half-baked movie, and that she could do better. She proceeds to declare herself as the producer, the director, and the screenwriter big surprise there. Haruhi brings up the necessity of a camera to begin filming, and so she, Kyon, and Mikuru head down to the shopping district in town. Upon arriving at the shopping district, Haruhi takes the two of them to an electronics store. The three then head over to another part of the shopping district, and acquire a couple of BB guns. It soon becomes clear to Kyon what Haruhi was scheming: Clearly, she is displeased by the absence of a Disappearance arc. Kyon enters the clubroom as a part of his daily routine, and finds a waitress uniform-clad Mikuru, causing him to be at a loss for words. Shortly after Kyon settles down, Yuki enters the room, with a costume of her own. This unusual behavior may imply that she is fond of this particular getup. Haruhi remarks that she is perfect for her role in the movie "an evil alien. Incidentally, Mikuru and Itsuki just happen to be a time traveling combat waitress and a boy ESPer, respectively. This unintentional pinpointing of hidden identities startles both Mikuru and Kyon, with the latter feeling apologetic and responsible for this turn of events. This madness ends here -- give me the Disappearance arc, or die! The three female members leave the room, leaving the other two to assemble the model guns to be used in the film. The crew arrive at the electronics store from two days ago " Oomori Electronics, and the director announces that they will begin the filming of the commercials. Haruhi decides that a bunny girl costume would be more fitting for a situation like this, and goes on to demands Mikuru to change into such a costume a costume that she had conveniently brought along with her. After they finish filming at Oomori Electronics, the gang moves on to their second destination: A familiar scene ensues see Episode00 , and an exhausted Mikuru returns to the clubroom after the long-winded filming session. They start by filming a few scenes of Mikuru running back and forth, and of her shooting BB bullets at Yuki, an act which the silent Evil Alien comfortably accepts. The megaphone-welding Chief quickly grows bored, and decides to move along. Under the pretense of shooting scenes with doves, everyone heads over to a conveniently located shinto shrine in the neighbourhood. Ignoring the warnings and such placed around, Haruhi tosses breadcrumbs all over to attract a large crowd of grey and black doves. This causes much annoyance to the resident priest, who chases them away not without taking a few bullets from Haruhi first. Her irrationality continues as she orders Mikuru to shoot beams from her left eye, and starts hitting her when she fails to do so. She shrugs off his comments, and the filming continues. During the confusion, the reflecting board held by Koizumi suddenly splits in half, and Yuki flies towards the heterochromatic heroine at a more physically acceptable speed this time , knocking her down. It appears that in the ensuing chaos, the colour contact was lost " or so Haruhi is told. You finally captured it?! Just as the debate begins to heat up, their discussion is cut short by the return of the reality-warping girl, accompanied by a certain bunny girl. And so the filming continues.

If there are any aliens, time travelers, sliders or espers here, come join me. Haruhi has come to the conclusion that ordinary humans are, as a whole, utterly boring, and that she would rather hang out with aliens, time travelers, espers, and the like. In her quest to find them, she promptly joins all the clubs in school in a day. One day, her classmate Kyon the Narrator unwittingly gives Haruhi an idea: Haruhi instantly switches from an irritated, sociopathic, pompous brat to an irritating, sociopathic Genki Girl who vows to allow nothing to stand in her way. She conscripts Kyon to help her set up the club: Kyon quickly learns an explosive secret that must be kept from Haruhi at all costs, the details of which must be seen to be believed. The story is notable for having no definite genre -- it convincingly uses comedy, science fiction, fantasy, mystery, romance and Slice of Life in one of the most typical anime settings: The SOS Brigade is made up of five members that represent a spectrum of anime character types, both in their identities as high school students and their secret identities. The novel series contains the following titles: A preview of the 10th novel can be found [here](#). An Anime series based on parts of the novels was released in , titled after the first novel. Cries for a second season seemingly went unanswered until mid, when several brand-new episodes popped up in the middle of a supposed re-run of the first season this time done in chronological order. These new episodes constitute the "second season", and are interspersed among the old episodes according to where they chronologically belong in the plot. Also, a movie has been released in Japan for novel four *The Disappearance of Haruhi Suzumiya* , which may very well be the most popular one. A trailer has appeared as well. A video regarding this is [here](#). The anime has adapted the following stories in chronological order: Episodes are not ordered as seen above. It spawned unthinkable levels of praise, with resulting amounts of Hyper Backlash , a globe-spanning Cash Cow Franchise , with fans from Japan to America to Britain to Russia to Palestine , probably the largest body of Internet Backlash in the history of all anime, and made Kyoto Animation a household name. The novels vary between several short stories and one story of several chapters, and have their differences from the anime. While the plot alone is interesting, it leaves many actions and motives to the interpretation of the reader often triggered by Kyon being an Unreliable Narrator , which makes you think about it long after you finish the book. However, the realistic Character Development of the Brigade members is also impressive. There is also a rather substantial collection of Fan Work known collectively as *Suzumiya Haruhi no Seitenkan* *The Gender-Flip of Haruhi Suzumiya* , which posits what would happen if all the characters in the series exchanged genders. Gorgeous, confident, and demanding, Haruhi Suzumiya is the leader of the SOS Brigade, a club comprised of her high school's most extraordinary students. So when Haruhi is bored, it's up to the SOS Brigade do something about it.

The second season of Haruhi has been seen as a failure by a lot of anime fans. The art work is very good. I noticed a more detailed animation as far as hair and clothes and also a more unique use of lighting. The sound is, once again, golden. The seiyuu are giving a tremendous amount of effort into the voice acting. While unfortunately there is no second Haruhi concert, that is because it is the one and only. The soundtrack features scores fitting to the events in this season, which are actually a bit darker than in season one. So in my book, Haruhi still is a 10 in sound. The characters are fantastic as always. Kyon and Haruhi in particular grow in this season as we see the worst dispute between them The Sigh of Haruhi Suzumiya. We see Haruhi get desperate, Kyon lose his cool, Koizumi under stress, Asahina suck it up, and Nagato show more emotions. Haruhi retains another So now comes the problem, or is it a problem? The storyline is quite memorable from this season. Basically we watched Bamboo Leaf Rhapsody, a pretty good episode if I do say so, and then we get into two new arcs: Well, you know which one is more important right? How about we plan eight episodes about the same sequence of events and form eight animation teams to design them. So much that you give it a 1?!! And what these people are giving a 1 for is only half of the season, hell people were giving this season a 1 before it was even finished! Basically, I urge the community to change its outlook on Endless Eight. While we all agree that the show should have been directed in a different way and that Endless Eight should have been kept as a one, two, or three episode arc, its not as if Haruhi was ruined as a series because of it. Now I have a confession. The reason is that I actually found the Sigh the most boring novel in the Suzumiya Haruhi series. The only part of the Sigh that I found interesting was the dispute. A very pivotal moment for the series as a whole. So overall I give the story telling an 8. I give the Enjoyment a score of 9. This is my personal enjoyment of the second season. And finally the season gets an 8 overall.

I really enjoyed the scattered chronology of the as-aired episode order. *The Sigh of Haruhi Suzumiya*, the second prose novel in the series, covers the making of the video project that opens the series as aired. Volume three of the manga covers storylines that will be in the third novel, *The Boredom of Haruhi Suzumiya*. Kyon keeps up a constant stream of gratingly sarcastic narration throughout the *Sigh of Haruhi*. In the first novel, Kyon does not reach the same level of silent sarcasm and his narration is absent from the manga and the anime, even though the spoken dialog is kept mostly intact. Reading the manga is like rewatching the TV series in an un-fun inferior permutation. Reading the Haruhi light novels in addition to the Faust short story anthology has really opened my eyes to possibilities of the light novel as a concept.
