

1: The Time and the Place: And Other Stories by Naguib Mahfouz

Danny accidentally finds the body of a dedicated political journalist in the estate of a right-wing British political candidate, but who would believe him when it mysteriously disappears.

Friday, January 6, A Time and Place This blog has been piquing the back of my mind for weeks and weeks. Always whispering to me to sit down on the laptop and tap some words, share a photo or two and try and reconnect with my friends, here. But looking back, I never was "good" at it. I enjoy ed writing and putting some thoughts out to the universe. I shared my home decor business work, shared our move to the South and shared our home projects. All the things I used to "do", have taken a back seat to all things baking. No more gardening, no more being a chicken momma yes, I still tend my hens and no more craftswoman. For everything, there is a reason, a season or a lifetime. I know the reason for this blog and I also know it had its season. Now, the branches are barren of leaves. We shift into different roles. And sometimes, we just have to let go. For everything, there is a reason. For everything, there - is - a - reason. I am beyond ecstatic about opening the bakery and working in such a beautiful place. Being able to see people, talk to people and giving them a piece of my heart. I am ready to embrace this new life that has been handed to me and see what becomes of it. The unknown is scary, at times, but I am ready for those butterflies. I have those butterflies. So, right now, I want to say, I love you. Thank you for being a part of my blogging life. Even though it will probably be a long while before I touch this page again, I am not far away. If you want to stay connected, take your pick:

2: "The Persuaders!" The Time and the Place (TV Episode) - IMDb

The first is the everyday expression: 'This is not the time and place to raise the matter'. A second definite article might be used either for emphasis, or where both the time and the place have individual significance.

While the Cairo Trilogy is very realistic, many of the stories here have more elements of mystery and magic - almost a dream-like quality to a few of them. Oct 29, Fred Daly rated it really liked it Short stories, some very short. They are strange -- he reminds me of Kafka, Camus, and the editor says Proust. Not sure how students will like them, but they are short. Oct 07, Madhulika Liddle rated it really liked it A group of people, sheltering from the rain in a bus stop, are witness to a baffling series of scenesâ€”the near-lynching of a thief, a horrific car accident, a couple making love in public atop a corpseâ€”and cannot tell if what they are watching is real, or the shooting of a film. A man dreams of himself, in a medieval avatar, burying a mysterious box in the place that is now his homeâ€” A group of people, sheltering from the rain in a bus stop, are witness to a baffling series of scenesâ€”the near-lynching of a thief, a horrific car accident, a couple making love in public atop a corpseâ€”and cannot tell if what they are watching is real, or the shooting of a film. A man dreams of himself, in a medieval avatar, burying a mysterious box in the place that is now his homeâ€”and on a whim, digs up the place to find the box. A young woman meets again the man who sexually abused her as a child. A man, his marriage fallen apart, goes wandering about the town, remembering the past. Many of them have a certain whimsicality to them, a theme that, while set firmly in 20th century Cairo mostly , could well be straight from The Arabian Nights. Ends are invariably left hanging, for the reader to interpret along with the rest of the story as he or she pleases. Themes such as love requited and not, platonic and savage, youthful and mature , lust, ambition, greed, ennui and fear play out in story after story. What impressed me the most about these stories was the obvious evidence of a master storyteller at work: Commenting, perhaps, on the stupidity of humans, our inability to look beyond our own petty interests, our desire for what lies beyond our reach. All the stories are good, but these ones in particular stayed with me for different reasons, ranging all the way from poignancy to humour, but all of them, in some way or the other, letting me relate to them. Perhaps my favorite was the story, rather, more parable than story, called "The Wasteland" in which a man is forced to give up his wife to follow a leader; his plans for revenge are thwarted -- "why is it that all beings disappear and nothing is left but dust? But time does not come again Learning about Egyptian culture through these short stories, translated by Denys Johnson-Davies is to have a sample of different strata of Cairene life. But time does not come again. Which road do you pick, after facing degradation? The one where you will not be seen, through the Wasteland.

3: Luxury Vacation Rentals & Villas Around the World | Time & Place

The Time, The Place is a British audience participation talk show that was produced by a number of different ITV companies, and broadcast live on ITV from to

Not only is it a great song, it makes a strong illustration for setting, the place and time of story. While plot and characters draw readers to fiction, stories must take place somewhere and at some time. Setting can be detailed or vague, overwhelming or barely there, nuanced or heavy-handed. Setting details ground characters in a location. But they should be sketched in. Setting enhances that willing suspension of disbelief that the writer strives to create for the reader and that the reader hopes will last for the length of a novel. Without a sufficient setting, characters cannot walk streets or stroll boulevards or race through alleys. And readers expecting contemporary may not take kindly to having their expectations shattered. You can surprise readers, of course, in many ways during the course of a story. Yet misleading them about time or place—or merely failing to be clear about either—is not a good way to surprise them. Setting can be established by music on a radio or electronic device. Clothing can reveal time or place, as can landmarks, current events, products used by characters, and building types. A writer need only sketch the barest of details to enable readers to understand setting. Or, a writer may give setting the same lavish attention he gives his characters, maybe imagining setting as a character. However setting is conveyed, it does need to be addressed. Any place where you can put characters and action. Plant and animal life. You can also use the objects of setting to keep characters attached to their setting, so they seem more like real people responding to their environment and less like actors who seldom touch or use the props around them. Give characters props they would use and should use as they move through their adventures. Make setting solid and real to your characters. Anything that addresses location in either time or place is setting detail. Objects used by or noticed by characters should mean something for the story. They should reveal character or advance plot or reflect mood or set tone. They can even have an impact on conflict. Include setting detail of different varieties for your characters. Put characters in a time and place that works for their stories. Give thought to setting so that it works for the story and not against it. Use setting to make fiction authentic. There is a time and a place for your story events to unfold.

4: The Time, The Place - Wikipedia

The time that's leftover has been grabbed up by being a mom, homemaker and business owner (which is a big 'ol job of its own). No more gardening, no more being a chicken momma (yes, I still tend my hens).

Comments 89 The last days of pregnancy are a distinct time of in-between. A scrambled pile of books on pregnancy, labor, baby names, breastfeeding â€ not one more word can be absorbed. The birth supplies are loaded in a laundry basket, ready for action. The freezer is filled with meals, the car seat installed, the camera charged. Not a comfortable place to be, but wholly necessary. The last days of pregnancy â€ sometimes stretching to agonizing weeks â€ are a distinct place, time, event, stage. It is a time of in between. Neither here nor there. Your old self and your new self, balanced on the edge of a pregnancy. One foot in your old world, one foot in a new world. Germans have a word, *zwischen*, which means between. When I sense the discomfort and tension of late pregnancy in my clients, I suggest that they are now in *The Time of Zwischen*. The time of in between, where the opening begins. Giving it a name gives it dimension, an experience closer to wonder than endurance. I tell these beautiful, round, swollen, weepy women to go with it and be okay there. I tell their men to let go of their worry; this is an early sign of labor. I encourage them to sequester themselves if they need space, to go out if they need distraction, to enjoy the last hours of this life-as-they-now-know-it. I try to give them permission to follow the instinctual gravitational pulls that are at work within them, just as real and necessary as labor. The discomforts of late pregnancy are easy to Google: More messaging that what is going on is incidental and insignificant. Our language and culture fails us. This surely explains why many women find this time so complicated and tricky. But whether we recognize it or not, these last days of pregnancy are a distinct biologic and psychological event, essential to the birth of a mother. In fact, this uncomfortable time of aching is an early form of labor in which a woman begins opening her cervix and her soul. Someday, maybe we will be able to quantify this hormonal advance â€ the prolactin, oxytocin, cortisol, relaxin. But for now, it is still shrouded in mystery, and we know only how to measure thinning and dilation. To give birth, whether at home in a birth tub with candles and family or in a surgical suite with machines and a neonatal team, a woman must go to the place between this world and the next, to that thin membrane between here and there. To the place where life comes from, to the mystery, in order to reach over to bring forth the child that is hers. The heroic tales of Odysseus are with us, each ordinary day. This round woman is not going into battle, but she is going to the edge of her being where every resource she has will be called on to assist in this journey. We need time and space to prepare for that journey. And somewhere, deep inside us, at a primal level, our cells and hormones and mind and soul know this, and begin the work with or without our awareness. I call out *Zwischen* in prenatals as a way of offering comfort and, also, as a way of offering protection. I see how simple it is to exploit and abuse this time. A scheduled induction is seductive, promising a sense of control. Fearful and confused family can trigger a crisis of confidence. We are not a culture that waits for anything, nor are we believers in normal birth; waiting for a baby can feel like insanity. Giving this a name points her toward listening and developing her own intuition. That, in turn, is a powerful training ground for motherhood. Today, I am waiting for a lovely new mother named Allison to call me, to announce that her *Zwischen* is ended and labor has begun. I am in my own in between place, waiting. My opportunity to grow and open is a lovely gift she gives me, in choosing me to attend her birth. She has been working with babies and mothers since â€as a La Leche leader, a certified doula, a childbirth educator, a regional birth network board member, and finally as a credentialed midwife. She is an author and writer, and has won several national awards for her work. She lives in Duluth, MN, with her husband, teen-aged boys, and a herd of dogs.

5: Kids Clothes & Baby Clothes | The Children's Place | \$10 Off*

*This is what I wrote to Ms. Drago: "I have never emailed an author before, but I wanted you to know how much I enjoyed reading *The Time and The Place*! I finished it late last night. You have a wonderful, descriptive writing style that allowed me to picture the scenery, towns, food and houses you wrote about.*

6: The French Pressed Home: A Time and Place

The Time and The Place: A Campaign for Pembroke. Pembroke is embarking upon the most significant expansion of the College since our foundation. The Time and the Place campaign is our effort to raise a minimum of Â£75 million in order to realise the vision for an enhanced Pembroke scholarly community on the south side of Mill Lane, right by the medieval site.

7: Chris Brown - Time And A Place Lyrics | MetroLyrics

They take place in Egypt, and the perspectives on narrative are very different. Emphasis can often be on the context, the continuity of life, themes of man's place in the universe, etc, all of this above the actual narrative.

8: The Time, the Place and the Girl (film) - Wikipedia

Not a comfortable place to be, but wholly necessary. The last days of pregnancy " sometimes stretching to agonizing weeks " are a distinct place, time, event, stage. It is a time of in between.

9: The Time, the Place (TV Series ") - IMDb

The ITV network produced THE TIME, THE PLACE as their response to the BBC morning discussion show KILROY but this is a far inferior product. Whereas KILROY often had highly charged debates about current affairs and political hot potatoes like military intervention in the Balkans or asylum this show often went more for human interest stories.
