I know what I did. I also used stuff my English teacher taught me about writing. He said a story must have conflict. My life was one big conflict last Christmas. This is the honest truth and I want truth even in romance. This was probably the best possible book to begin my Christmas event with. It was absolutely adorable, and everything I look for in a cozy Christmas read. As always, my main points are bolded. Kate Bjorkman, aka Boo, is the author and narrator of this book, and she is hilarious. Her inner dialogue and her antics had me giggling with delight. In these notes, she either talks about how she hates what she just wrote, how she needs to add or take away experiences she talked about, or her frustrations as an author trying to come up with the right words and presentation. I really loved this portion of the book, because we get to learn a lot about Kate here. I loved every character in this book, and that rarely happens. You know what I mean? I love her bother and sister-in-law and their cute newlywed spats and romance. Her parents are awesome. This book is so witty! I loved the funny things the characters said to each other, plus reading Kate make fun of romance novels was great. I wish this book really existed! Rather than having real chapter headings Chapter 1, Chapter 2, etc. I loved the wonderful word choices and love of language that the author exhibited in this book. This book is dated. Embrace them, because they are stupendous. This book is so sparkly and Christmasy, and perfect. I am so in the mood for Christmas right now. Rather than continuing with my review, I thought I could explain my love of this book best just by giving you a taste of it for yourself. Anyway, read the quotes! Richard Bradshaw filled the doorway. Okay, a flourish of trumpets here. The hero has arrived. And because he was my hero long before I began writing this novel, ever since I can remember, in fact, my face grew hot. The hell with it. They were warm eyes. That was me, Kate Bjorkman, a potential Ph. And my mother agreed. The only bad thing about me was my eyes: But that morning, January 2, I was deranged.

I loved it and would recommend it to all the young By marian ClarkAnother inspiring novel by Louise Plummer. She inserts humor and thoughtful morals that are not dated. I loved it and would recommend it to all the young readers I know. I had to read it straight through. How about more of these Louise. Marian Dunn0 of 0 people found the following review helpful. While the believability of the characters causes you to fall in love with them. My favorite book from 15 years agoBy Claire B. On a whim I decided to order it and it still stands the test of time - a great, YA novel. Witty, funny, sweet and sincere. I dont like romance novels. Theyre full of three-paragraph kisses describing peoples tongues and spittle. But what do you do if youve lived a real romance with a great-looking guy Richard and he loves you as much as you love him? I know what I did. I wrote this romance novel about myself, using the Romance Writers Phrase Book. I also used stuff my English teach taught me about writing. He said a story must have conflict. My life was one big conflict last Christmas. I didnt make anything up. This is the honest truth and I want truth even in romance. Im betting youll want the same. Spoofing the searing descriptions and pat plots of torrid bodice rippers, this six-foot tall heroine with glasses thick as Coke bottles and an I. After much humorous travail, everything sorts itself out, and Kate lives happily ever after, at least for the six weeks that her romance has lasted. Witty, keen writing; likable characters, and an interesting format form a fast-paced, refreshing book with lots of appeal. Kate is a uniquely strong female protagonist whose reflections on life, love, and people shine through. With a forgivably pat ending this is a bodice ripper, after all! I wrote a romance novel. My English teacher said there must be conflict in a story. Nothing is made up. I want truth even in romance.

4: Kate Louise - www.enganchecubano.com

The Unlikely Romance of Kate Bjorkman is a must-read for anyone who loves a romance book with a twist! It is interesting, can leave you wondering at times, and somewhat teaches you to always have hope.

I know what I did. I also used stuff my English teach taught me about writing. He said a story must have conflict. My life was one big conflict last Christmas. This is the honest truth and I want truth even in romance. A Customer on Mar 26, Louise Plummer has taken the romance novel to a new level, and YA readers will get a kick out of how she has fun with the conventions of romance novels while at the same time spinning an enjoyable, and funny, story about a girl who falls in love. For teachers, this book presents many opportunities to discuss writing and the writing process; Kate, the narrator, includes revision notes that reflect on what she has written and how she might revise her romance novel. Superficially, the writing is quick and bright, the characters are engaging, and the pace is spot on. Here is a protagonist that anyone love, and bookish young women the world over can identify with. Cheers to strong, self-possessed women. At one point in the novel, Kate decides that her parents are simply too darling and sympathetic, so she makes lists of their faults to incorporate. The resulting lists are some of the funniest moments in the book, and only serve to make her parents seem more endearing. Plummer succeeds, making us believe that the Bjorkmans really could live down the street. She is the revelation of the novel. First, we see one of the loveliest depictions of female friendship and generosity in print when she mentors Kate through romance that the title promises a necessary counterbalance to the supposed friendship between Kate and Ashley. Second, she makes explicit the undercurrent of feminist ideas that Kate and her family subtly embody. Third, if the reader is so inclined, Fleur can be read as a lesbian. A Customer on May 08, Kate is a ordinary girl whose had a crush on that she has had forever. But Kate, who every girl can relate to, deals with it all amazingly. This book is fun and fresh, and a nice read any time you want a little break and some refreshing holiday love and mush. Kate Bjorkman captures readers! Metafiction for young adults! Well, I suppose it actually sorta did, but not in the thorough and engaging way that Plummer does it in this book. All the characters were very well thought out and were clear to understand. Kate, the main character, was great! Her personality was enjoyable and is someone to relate to. The romance between Kate and Richard was awesome and very interesting. Their personalities were definite and were a great part of the book. The way her personality was so positive throughout the book was great! Even when it seemed like everyone was fighting, Fleur always had a smile on her face, or a comment to bring happiness to the other characters. The book was enjoyable and kept me interested! This book was humorous, and well written A Customer on Sep 20, This book is a must read for anyone out there who loves a very real romance. This is not the romance with the skinny, petite, gorgeous female, and the handsome, strong, popular male. This is a very realistic novel about two unsuspecting people who happen to fall in love. The relationship between all the characters is so real, you can feel all the emotions they all feel. Once you pick up this book it is so hard to put it down. It touched so many emotions, just like a teen romance should A Customer on Nov 02, It was a very excellent book. The reason why it was such a good book is because you can really relate to the main character and its really funny. It opens your eyes on the "L" word Love , and portrays it as something we all want and need in a very humorous way. It fulfills its job as a book because you can really feel feeling, cry when the character is sad, tingle when the character is kissed, its a book that you can really become. I loved the book. A must read for anyone who likes a little reality with their romance. A Customer on Mar 13, This book is just awesome! Not only is it funny but it is definitely a book you can read over and over again. The main character is a six foot tall girl who is revolted by the idea of romances. I think Louise Plummer has really made an awesome piece of work. Still loving it years later.. Fischer on Jan 05, I loved this book so much that I read it every winter-- 6 years later I am still captivated by the story You can get emotionally intertwined in the pages and there are certain parts that always give me this warm fuzzy feeling accompanied by a smile.. Most of the time I thought the whole schtick was cute, but sometimes it got a bit

tedious. For example after some chapters there is a "Revision Notes" chapter and those I could have done without. This story was an interesting idea for a romance novel. She comments on what should be included at this time in a normal romance and whatnot. She has her handy dandy romance writers phrase book to look at for inspiration when describing things and it was humorous at times. For example she goes on about breast at one point and how there are so many different descriptions for them. After a while though the whole schtick got to me. So the premise of the story? Kate is an average looking girl, taller than most and wears coke bottle glasses that magnify her eyes. She has had a crush on her brothers bff, Richard, forever and he comes home with the brother and another girl for Christmas. Things change and the Kate and the boy fall in love. Pretty straightforward romance with the interesting style. For the most part it was a good read. She ever writes how you will be questioning it just as you are which again was an interesting idea. The friend, Ashley, threw herself at Richard every two second even though she knew Kate was interested in him. She is written like she throws herself at every guy so Richard is not really different. He tries to hold her off though. Oh the end completely ruined it for me. Everyone knows she will just be all over him the whole night, Kate is not friends with her anymore, why would she push Richard to still go with her? It made absolutely no sense. He knows what will happen! Why would you want to put up with someone throwing herself at you all night and not getting the hint? But whatever, Richard can just keep shutting her down right? Until Kate sees Ashley trying to get Richard to make out with her, sees the friend kissing him and at first he tries to push her away, but she is adamant about it. Then he finally gives in and starts kissing her back. Great guy that one. You two have been together for like a week and already he is making out with someone else. Maybe this would be okay if they worked it out in a better way or if they were going to be together at college or something, but no they are going to be in two different places. I mean really there would be no other option if some girl started kissing him. He would just have to give in and go with it as So it is not even a happy ending. For as much as I thought the rest of the story was cute the end with the cheating and lame reconciliation just ruined all my good thoughts about the book. It was an interesting idea, but not really a great story. This review was originally posted to Jen in Bookland I loved it and would recommend it to all the young She inserts humor and thoughtful morals that are not dated. I loved it and would recommend it to all the young readers I know. I had to read it straight through. How about more of these Louise. While the believability of the characters causes you to fall in love with them. My favorite book from 15 years ago By Claire B. On a whim I decided to order it and it still stands the test of time - a great, YA novel. Witty, funny, sweet and sincere. I read this every year at Christmas. And I loved every moment of it. So much that I now re-read it every year at Christmas. It never gets old. If you like romance novels, if you write or want to write romance novels My mother bought me a copy when I was a teenager, I read it over and over again, and then gave it to a friend. It took me several years to locate another copy. Thank goodness for sites like amazon!

pdf

Buy a cheap copy of The Unlikely Romance of Kate Bjorkman book by Louise Plummer. I'm Kate Bjorkman. I don't like romance novels. They're full of three-paragraph kisses describing people's tongues and spittle.

8: The Unlikely Romance of Kate Bjorkman : Louise Plummer :

The Unlikely Romance of Kate Bjorkman was an interesting read. Most of the time I thought the whole schtick was cute, but sometimes it got a bit tedious. For example after some chapters there is a "Revision Notes" chapter and those I could have done without.

9: The Unlikely Romance of Kate Bjorkman (Laurel-Leaf Books) by Louise Plummer ()

The Unlikely Romance of Kate Bjorkman is both a clever satire on romance novels, and a lovely, thoughtful romance in and of itself. It's written like the first draft of a novel with Notes for Revision interrupting the narrative every three chapters or so.
