

1: fate - Dictionary Definition : [www.enganchecubano.com](http://www.enganchecubano.com)

*Fish: John Stevens deserved a better fate with impatient Kings. By Wayne [www.enganchecubano.com](http://www.enganchecubano.com) Saturday Nov 10, at PM they try to change things up," said Giroux, perhaps.*

I collect 45 rpm records as does a good friend of mine Ted Scott and we often have music playing sessions with the vinyl we have found. Some of the best records we have latched on to over the years either never charted in the U. Hot or barely managed to dent the charts which is often confusing and vice versa " there are some pretty awful records that did chart. Many factors played into getting a record on the air. As an Anglophile, many of my faves over the years made a big impact in the U. I further admit that I could fill one entire post with nothing but great Colorado records that never broke out nationally, but I am going to defer and ask you to go back to my September entry if you wish to read about bands like the Boenzee Cryque or the Rainy Daze. The tunes did finally see the light of laser with a great now out of print CD. The Searchers " Hearts In Her Eyes Boy was it ever a pleasant surprise when this excellent British Invasion band returned to release two truly outstanding rock and roll albums on the Sire label in and if you love string guitar jangly-pop records you need to pick them up on CD. Today, the bigger act would have been plugged instead so the credits would have likely read The Beach Boys ft. Annette which might have generated more interest. Riley found more success as a session player then dropped out of music for construction till he was rediscovered and had some sporadic minor success till his death in I think it would have charted as it was a catchy melody over an excellent arrangement by Stu Phillips The Hollyridge Strings. Clementino was a California teen who perhaps would have been better served changing her name to a less unwieldy one Clair Tino? She did some radio jingle work in Nashville after that then quit music to raise a family back in Marin County. I think pal Turntable Ted Scott was the first one to play this for me so thanks! Fuller either committed suicide or was murdered " we will never know. His records were pure pop confections full of jangling guitars and blasting percussion. The late power popster Phil Seymour did a fantastic if more polished cover in that was equally star-crossed chartwise and could have been in this list instead. I decided to go with the original as the guy who first wrote and conceived of the song deserves the nod. Producers Snuff Garrett and Leon Russell had worked wonders creating a string of hits for Lewis and at the height of their run in added their touch to this fine song by Mike Gordon and Jimmy Griffin later of Bread. Rich Fifield delivered a sincere lead vocal over some excellent harmonies and a Playboys-like production. Drummer Jim Gallagher still tells some fun stories about touring Japan while we nosh on Sink Burgers in Boulder plus Jon Storm Patterson sold me Dental supplies for years till his retirement. This to me is the best record released in all the s. A look at the hits of when this single came out shows Michael Jackson, Barbara Streisand and Kenny Rogers " not Hilly Michaels which was a pity as this record rocked with great sound by Cars producer Roy Thomas Baker. The New York Rock Ensemble " Beside You When assembling this list I had to look at both my singles and album chart books to confirm that nothing by this talented group ever troubled the Hot " amazing and shows a true lack of taste by the American record buyers. This gorgeous ballad by the late Michael Kamen was from their fourth and best album Roll Over " I have always assumed that this self-penned gritty rocker was a big hit back in and was shocked to see that while it did do well in the U. Next to the brothers, the best version is by Bryan Ferry of Roxy Music. Perhaps the problem in was that folk-rock, Motown and British Invasion records dominated. The only Hunter single to chart in the U. The song has actually had quite a long life in spite of no chart presence. It may inspire me one day to travel to see the Rock and Roll Hall of Fame if I can think of another reason to go to Cleveland. I actually prefer musically the more driving and more obscure U. I ultimately settled on this more mature song with gorgeous harmony vocals over a driving strummed guitar passage from their second LP released in The Kids Are The Same. Paul Collins is still out there touring and recording though with a lot less hair though I guess I am not one to talk. The exquisite first Sagittarius album Present Tense was producers Curt Boettcher and Gary Usher with studio men like Glen Campbell and also included tracks from their earlier band the Ballroom. They then recorded the Millennium album with friends like Michael Fennelly, Sandy Salisbury, Joey Stec and Lee Mallory which became the most expensive flop ever

for Columbia records up to that point. Over the years music by these artists have gained a loyal cult following with pop fans. The Delroys' Bermuda Shorts Coming from , the Delroys called Long Island, NY their home and managed to cut this hot doo-wop rocker the next year for the small Apollo records label. There were too many small regional labels back in the day who all found it hard to gain distribution outside of their local area. If they did get distributed wider, you knew that there was not going be a good accounting for sales figures either which inevitably would mean little or not payment to the artist on the record. One can assume that poor distribution is what kept this ode to short pants from breaking out nationally as it has the sound of a hit otherwise and did manage some success in a few markets. These black kids, like so many, were a faceless outfit that never saw any money from their records but at least got to live out the rock and roll dream if only for a short time. Needless to say I played it for daughters Brenna and Hilary as kids since that is the main reason you have kids to torment them with your music and old jokes. This is a very catchy pop single with handclaps on the chorus first released on the small Bragg record label in then picked up nationally on Warner Brothers that same year. Their plan worked as the record hit 34 in meaning my preferred side never got airplay nationally. Mark Charron wrote both sides of the single he died in his early 50s. While the record did chart top 20 on easily listening stations, nationally it only hit Al DeLory is listed as the arranger on this record while Fred Darian is the producer. If you go back to the first appearance of this song on vinyl The Camptown Singers , you will see that DeLory was the arranger, Darian was the producer, but the composers were listed as Van Winkle and Dobie Gray. Billboard back in had a capsule review saying it was a Righteous Brothers sounding pulsating rocker. Dave Mason had left the band just as their first album was released, but returned in time to contribute some great songs to the next album before quitting once again. This very catchy pop song from Mason has gentle commentary about issues of the day. Chris Woods plays a very basic sax that sounds almost like a duck call, but it works over the acoustic guitar strums and lyrical lead guitar breaks. For my story about the band, you are referred to my extensive blog post of April The clip I chose to link to cuts off the intro to the song, but it is the only one that shows a promo of the band doing their tribute to the state that they had recently moved to Colorado. Back when I interviewed Furay for my article, he was just emerging again as a performer while trying to fit it in with his commitments as Pastor of Calvary Chapel in Broomfield. He obviously still had pain over the lack of success on the charts for the song he thought would make him a true star. That failure ultimately lead him to break away from Poco, but thankfully he has always returned to their music in concert and has often guested with them. At the time I told him how much a wanna-be and never-was rock musician like me would have given their right arm to have had even a piece of the success he had seen in his time and I sure hope he has come to grips with what a great career it has been. Chart success or no, in concert the song still gets the crowd up and cheering every time.

### 2: The Odyssey What Did I Do to Deserve This?

*Get this from a library! They deserved a better fate: the Second Kansas State Militia Regiment and the Price Raid, [Roy Bird].*

Writing this book and spending time with these characters solidified what I always knew to be true. If we can dream it, we can make it our reality, but we have to set that plan in motion by taking the first step. Fate is the life you lead if you never put yourself in the path of greatness. Fate is a negative and is defined as the expected result of normal development. Never taking a risk is your inevitable fate. Destiny is your potential waiting to happen. With great risk comes great failure. With great risk comes great reward. This concept is not about risking your health or livelihood. Why settle for a life ordinary? Strive for more by aiming to reach your full potential. This same power allows you to be who you were always meant to be and to live your most extraordinary life. I chose my own destiny -- a destiny still in the making, but my deliberate choices led me to where I am and straight into the arms of my true love. This theory -- fate versus destiny -- was something I explored through the fictional characters in my debut novel, *Naturally, Charlie*. The book is about two people who go from living the life they were given to creating the life they deserve. I was fascinated by the concept of people stuck in the life they were leading, but dreaming of more, feeling that it had to be better than what they were currently living. They both knew deep down that they deserved a better life and took action to create that life. For me, I found strength through the support of my husband and close friends. For the Charlies, they find their strength in each other even though they are basically strangers. They are simply there, open-hearted and trusting, and offering support without strings. It took them making that deliberate choice to trust this person that became the stepping stone to changing their fate and leading them to their destiny. Thank you for being a part of making my dreams come true.

### 3: "The Last Jedi"™: Ackbar Deserved A Better Fate | FANDOM

*They deserved a better fate: the Civil War service of the Second Kansas State Militia Regiment and the Battle of the Blue They deserved a better fate: the Civil.*

BretLitke May 6, Final Score: The loss stung, and in its wake it left feelings of anger, confusion, and disappointment. It was without a doubt, one of the strangest games that this Oilers has ever witnessed. But, by the time the sun rose on the next day, for the most part, the situation had improved. To begin with, the game itself, before the final 5 minutes, had been so encouraging. Just a few short minutes into the game, the Oilers defence core began to drop like flies. First it was Matt Benning, who on a clean hit behind the net went down in a heap. Then it was Andrej Sekera, who on a similar play, although along the side boards, fell awkwardly, holding his leg. And finally it was Oscar Klefbom, who happened to take a very hard shot block right in the chest. The Oilers were faced with a very deep, early hole. Only 3 defencemen remained completely healthy, while 2 of the fallen comrades would return. Naturally, that first period was a shelling by the Ducks, but somehow, thanks to a bit of luck, a stellar Cam Talbot, and a strong rally from the D, the Oilers survived the frame, tied. Looking back, it was quite the accomplishment. From there, Edmonton would use that momentum to swing them into a rocking 2nd period. With Klefbom and Benning back on the bench, the Oilers would strike 3 times throughout the frame. Leon Draisaitl, would be the first to score, just 15 seconds in. Then Cam Talbot decided to get his Josh Donaldson on, and batted home one of his own 2 minutes later. Drake Caggiula, fresh off a heroic goal in game 3, would get his own marker a little over halfway in the game. Even with a depleted blue line, the Oilers had the Ducks on their heels, reeling, and looked well set to steal another game on the road. With 15 seconds left in the game, this happened: The Anaheim Ducks would score a goal on one of the most controversial plays I have witnessed. The referees took all of about 90 seconds to determine that in their eyes, this was a good goal. Just 48 hours after the last game, almost an identical scenario had unfolded. The Oilers were playing poor down the wire, which resulted in the opening for the Ducks to make the comeback. But, on the other hand, how on Earth is that not goaltending interference? Last night, I felt completely gutted by a league in which their review system allows that final goal to go in. Today, I feel cheated and robbed. On that play, Mark Letestu should have cleared the puck. Yes, he should know better, but do we really want to blame the victim? And I get that this situation, it probably is a stretch to compare it to an illegal crime, but can you blame me? Can anyone really be blamed for feeling like they need a shower after seeing that decision? AND, that their review only lasted 90 seconds? I have seen blatant offside calls in January reviewed longer than this one. And let me remind you, that just in this playoffs, THIS play was called goaltender interference: Oilers fans have every right to feel cheated. And so do the players. I feel awful for Talbot who has now had 2 goals go against him that had no business being allowed. And even though the other players found themselves in that hole, I do feel awful for them too. They battled very hard last night, on the road, hurt and banged up, and for that call to be the deciding factor it is just sad. Anyways, what we are going to follow this up with is a 10 Positive Takeways. The Oilers now found themselves on the brink of elimination, with the series shifting back here tomorrow evening. These boys are going to need our support more than ever. I am going to focus on giving some serious props to the men that deserved it last night. This is still a very young team, and seeing how they battled through all of it, and the lessons that they will take away from it it is hard not to crack a little bit of a smile. We are going to skip the Oilers player of the game award, because there are too many to point out. Instead, we will cover them in here. First on the list is Adam Larsson. He played 45 minutes of hockey last night, a staggering total. In the wake of losing Sekera, the entire core stepped up big time, but Larsson was the leader. He was a rock, he was steady, and he helped glue together the group, in a situation where it could have been easy to fall apart. And how about Kris Russell? He has taken some slack this year understatement of the year, but I would argue that last night was his best as an Oilers. Sometimes desperation breeds brilliance, and I think we witnessed a bit of that in his game last night. Matt Benning also deserves a tip of the cap. The kid went down early and looked hurt and uncomfortable. After spending some time on the bench, he would battle back to compile 27 minutes of ice time, with 7 hits

and a blocked shot. His 7 hits were the most of any Oilers. Kudos to the rookie for an extremely encouraging effort. With Nurse, despite some moments of wobble, I thought he handled the situation really well. He played his ass off, skated miles, and for a young defencemen on a short bench, that is all you can ask. Klefbom is machine-like at this point. I expect good things from him all the time, and he usual delivers. He played his usual good game. He was on another level. As stated earlier, deserved a better outcome, but there is no denying that he propped this team up at many moments in the game. Connor McDavid finally got that multi-point game that the media had been harassing him about, and in the process looked great for most of the night. His goal, where he batted the puck out of the air, was one for the highlight reel. He is starting to impress more nights than not, and a lot of it is due to his tenacity on the forecheck. He played 26 minutes last night, and scored the Oilers third goal. Good night for the college kids. Leon Draisaitl responded decent enough to being tasked with centring his own line. Yes, they had difficulty with the Getzlaf line, but I think almost any trio on the planet would be at this point. He scored a goal, and has double digits in points this spring. His future is an exciting idea to ponder. I know that this league hates when players show emotion or human elements, but props to Lucic for calling it like it is. I am not sure how this spring will end. It could close out on Sunday, or it could carry on for another month. The cards have yet to fully play out. They have a lot of really good, young pieces, and it showed last night. The collapse was ugly, of course it was. But they batted through it as best they could. I truly hope that this squad rebounds tomorrow, and forces a game 7. In this situation, both the players and the fans deserve it.

### 4: 25 Musical Hidden Treasures That Deserved A Better Fate | Rock 'n' Roll Reviews and Trivia

*Cyneberg: 'Those good men did everything they could to maintain those farms, and tried to help Forlaw the only way they knew how. But, the enemy has made sure our farms remain smoldering, and those brave men were lucky to live through their ordeal.'*

A beloved character returned. Porgs were discovered to not be as annoying as we first feared. Oh, and characters died. Or even Snoke having to split. For those people not in the know, Admiral Gial Ackbar yes, he has a first name as well! Ackbar was one of the most prominent Rebel aliens introduced in the Original Trilogy alongside Chewbacca and Nien Nunb and had a vital role as commander of the Rebel fleet assaulting the second Death Star. Since then, Ackbar has gone on to appear in countless books, comics, and merchandise. For many fans, Ackbar is the embodiment of the Rebel Alliance. Where the Empire was dominated by Humans, here was an alien leading the combined forces of the Alliance. For around 30 years, Admiral Ackbar was a constant recurring presence in Legends material. The central plot of the New Jedi Order series is an invasion by the extragalactic species called the Yuuzhan Vong. The New Republic suffers devastating losses in the ensuing war, and eventually Ackbar is drawn out of retirement to assist the war effort. Upon his reinstatement, a simple message is broadcast across the fleet. Ackbar masterminded the series of victories that bought the Yuuzhan Vong to heel. It was considered to be one of the high points of a series that had divided the fanbase with its increasingly dark storyline that had already seen Chewbacca killed off. For Ackbar fans, his return to the film franchise was great news. However, those hoping for some classic Ackbar action were disappointed as he was effectively relegated to a background character in *The Force Awakens*. This trend continued when Ackbar appeared in *The Last Jedi*. During the events of the film, the First Order attacks the meagre Resistance fleet as it flees towards the planet Crait. Ackbar is among the casualties. It is an underwhelming and ignoble end for the fleet commander who helped to secure victory at the Battle of Endor. If a heroic sacrifice by a senior military officer was needed in *The Last Jedi*, then Ackbar performing it would have been a more fitting death than getting unceremoniously blown out into space without fanfare. Of course, the simplest answer is also a sad one. Erik Bauersfeld, the voice of Admiral Ackbar, sadly passed away on April 3, at the age of 87. Effectively, the character appears to have been retired due to the death of his portrayer. Is Holdo an obstacle for the main characters to overcome or is she an ally? For instance, would Ackbar have refused to explain his actions to Poe Dameron? And if he did, would Poe have even contemplated a coup against the admiral? Nevertheless, changing the narrative to accommodate Ackbar and putting him in a position to make a heroic last strike at the First Order would have been a more respectful end for the character. Holdo should have survived the events of the film. She is an intriguing character wonderfully played by Laura Dern who deserved more than a single appearance in one film. The Resistance now has no senior leadership. With that in mind, Holdo would have been the logical successor to Leia as leader of the Resistance. One of the main themes of *The Last Jedi* is about letting go of the past and trusting in the next generation. However, there has been no natural hand-off that makes it seem like Poe is ready for " or even wants " that kind of responsibility. For now, the Resistance looks likely to enter Episode IX without anyone at the helm, which is a situation that could have been avoided if the filmmakers had chosen to give Admiral Ackbar the end he deserved. Cavalier One Star Wars fan and general pop culture addict. Only two beverages worth drinking are tea and whisky.
