Battle of Bataan When General MacArthur returned to active duty, the latest revision of plans for the defense of the Philippine Islands—called WPO-3—was politically unrealistic, assuming a conflict only involving the United States and Japan, not the combined Axis powers. However, the plan was tactically sound, and its provisions for defense were applicable under any local situation. If the enemy prevailed, the Americans were to make every attempt to hold back the Japanese advance while withdrawing to the Bataan Peninsula, which was recognized as the key to the control of Manila Bay. It was to be defended to the "last extremity. His recommendations were followed in the plan that was eventually approved. The defenders failed to hold the beaches. Everyone had pulled their pockets wrong side out and laid all their things out in front. They were taking jewelry and doing a lot of slapping. I laid out my New Testament. After the shakedown, the Japs took an officer and two enlisted men behind a rice shack and shot them. The men who had been next to them said they had Japanese souvenirs and money. Prisoners were forced to sit in sweltering direct sunlight, without helmets or other head covering. Anyone who asked for water was shot dead. Some men were told to strip naked or sit within sight of fresh, cool water. Some marchers were randomly stabbed by bayonets or beaten. The Japanese did not provide the prisoners with medical care, so U. The trains had no sanitation facilities, and disease continued to take a heavy toll on the prisoners. According to Staff Sergeant Alf Larson: The train consisted of six or seven World War I-era boxcars. Then they shut the door. If someone had to go to the toilet, you went right there where you were. Naval Radio Transmitter Facility in Capas, Tarlac; [23] is variously reported by differing sources as between These brutal reprisals upon helpless victims evidence the shallow advance from savagery which the Japanese people have made. We serve notice upon the Japanese military and political leaders as well as the Japanese people that the future of the Japanese race itself, depends entirely and irrevocably upon their capacity to progress beyond their aboriginal barbaric instincts. Burt oversees the testing of both Charlie and Algernon. He introduces Charlie to some of the students and faculty at Beekman College. The operation makes Algernon three times as intelligent as a normal mouse and enables him to solve complex puzzles. Fay is an attractive, free-spirited, and sexually liberal artist whose favorite pastimes are drinking and dancing. She embarks on a brief affair with Charlie, knowing nothing about his background. Rose finally had another child, Norma, on whom she focused all of her energy. Rose routinely punished Charlie for any sign of sexual interest, as she could not accept the notion of her retarded son having any form of sexuality. Read an in-depth analysis of Rose Gordon. During their childhood, Norma resented Charlie for getting what she perceived as special treatment and was cruel to him. When she reencounters Charlie as an adult, however, she is glad to see him and regrets her youthful spite. At the beginning of the novel, Herman has been dead for years. Title and author are most important, but publisher and publication date or even a good guess at it can be helpful too. It might have been a Scholastic book. It was about a young Native American girl and her life with her tribe. What I remember best is that she had a pet rabbit that she loved and which she eventually had to sacrifice to save the life of her sibling. The sole survivor is the baby, who is rescued and taken to Ireland. Plane crashes en route to Ireland, only the baby survives. American brother meets her years later and falls in love. The two fall in love and she becomes pregnant but she has a vision of what the end will be. The bad woman who is working with another, end up dying and only one of the two sisters can survive, as there is only one soul. Also, the coven is murdered, her sister is taken to hell, where she is impregnated by the devil or another demon, who is the one working with the bad woman. The 2nd sister is glamored into not remembering she had a twin during that time. It ends with the 2nd sister and her baby dying as she gives the remaining soul to her sister. Some details may be a little mixed up. They take an interest in her and she ends up falling in love with the main male character, who I believe is part demon or something. There is a prophecy that this demon tries to prevent, which is by killing each woman reborn, of the love of his life who betrayed him and he inturn killed her, after she cursed him. Lucifer or another demon, r working with this woman, and they entwines and split a soul between two sisters to hide the evidence of her rebirth, kill a lot of the coven and then steal and impregnate the other sister. She becomes preganant and the bad lady tries to kill her and the only way to save herself and her sister, is to sacrifice her life and that of her child, so her sister gets the good soul. I think it somehow was entwined with the baby but some areas are vague. I know she had a friend that clung to her hair and her shoulders a lot. Please help with the name of the book? I cant remember the title if someone could please help i would appreciate it!! The "bad" twin does bad stuff and the "good" twin tries to cover it up or be helpful The war had Japanese or Vietnamese soldiers I forget which. I believe the story begins with him in the attic or basement of his house and looking through old war items his father had because he was a veteran. He is struck by lightening when he is riding his bike. I am not sure of anything else but I remember this book being short. I remember that it had like a pink and green cover, it was a young adult novel. The summary of it is that there were 2 girls who were best friends but the best friend of the main character was getting "too popular" for the main character and they split ways because of that. She became a bully towards her. Then our main character went to visit her dad at work and met his new assistant and they clicked. He brought her to parties and such without the dad knowing. They had a secret relationship. But then at the end, when it was her school dance, her former best friend was trying to take away her man because she didnt deserve someone so hot. But main character just laughed and her bf asked the former best friend to dance, knowing that former best friend was way to insecure and main character knew that he loved her for her and not because shes hot or unpopular. There was a story about a couple who moved into a cottage in a small town -- the husband is warned about the stone knights in the church coming to life on a certain night and he goes to see if all is well, but only notices two fingers broken off one statue. And one about a homeless? They move into a castle her aunt and some cousins are in but is maybe really supposed to belong to her and her sister now I think. She meets a handsome land owner, Adrian who has a black stallion. And then in the end they find out it was the crazy aunt the whole time trying to make her think the place was haunted and to drive her away. She teaches pole dancing classes to elderly women to. She works at a marketing firm and rarely goes home to visit her father and step mom on the farm. She gets laid off and goes home to the farm to regroup. She ends up using her skills to help her parents create a vacation spot out of the farm. Her brochure gets the attention of the high powered executive she had worked for and eventually gets her an even better position at the marketing firm. I remember a phrase on the front cover but not the title itself or the author. The phrase is something along the lines of "would you rather have the perfect life or the perfect love. In both lives, she looks exactly the same but her lives are very different. Whenever she turns 18, her parents throw her a huge birthday party at her house. She starts contemplating what life she wants to stay in and plans to kill one of her selves just to stop the cycle. The phrase says something along the lines of "would you rather have the perfect life or the perfect love. Her 2 bodies are exactly the same, but her lives in each are very different. In the second, she is poor and only lives with her mom. One day, in her second life, she injures her ankle. She starts to contemplate what life she wants to live in and starts experimenting on her body. She starts off by cutting herself to see if the injury transfers over. She dyes her hair to see if it also changes when she switches back and forth. The man that she likes works there and she tells him about her switching. Gets in trouble with drugs. Judge sentences her to Africa to help at an orphanage. The kids get kidnapped sometimes to either be used for soldiers or sold. One wants the best of everything even though it is beyond her means and she loses it all. The poorer sister is the happier of the two. The book alternates between her perspective and the perspective of an alien living on the same planet. The alien finds her hiding in a cave, approaches her, and they tentatively eventually become mutuals. An example of one of the short stories was about this kid who wore shoes for a few months straight without taking them off to fend off bullies from killing a turtle. Another one of the short stories was about a boy who wanted to whiten his teeth with whiteners, but in the end, his teeth had liquified because he kept them on for too long. Poor family, dad not one to show affection. Boy was all excited to wear it to school, Dad was quietly proud. Kids made fun of boy because jacket was a knockoff and he got in a fight over it, I think the coat was torn, he never wore it again, and dad never mentioned it. Grouchy retired sea captain, irritated by a rainbow, captures it, rolls it up and stows it in a hatch in his little home. Neighborhood boy frees the rainbow which unfurls into the sky. Beautiful and fun water color illustrations. Sea captain sees the error of his ways! He wrote about his life in Africa including some funny experiences. I think he worked for The York Times. Some American paper for sure. Thanks I have been trying to find it, but difficult without title or author! Cannot remember title or author. Some funny experiences he had in Africa. I think he worked for the New York Times? But was based in Africa. Thank you for helping me! The woman is also battling for custody of her daughters with her cheating ex husband. Things escalate with her and the man eventually. R rated book, I am an adult. He has a pocket sized computer that he runs programs on written in BASIC, I believe and each book had programs you could run on your computer after typing them in. I remember in one book, The protagonist meets the president, who calls him a "Class Act", and our hero wonders if the President knows what he does on the side. Another adventure has our hero paired up with a dog in a secret base in i believe the Alaskan wilderness. Protagonist goes through a series of emotions like fear, anxiety, etc because an alien ship has landed.

Design[edit] Production designer Dennis Gassner says of his work on the film: The whole project is about translationâ€”translation from something you would understand into something that is in a different vernacular. The magazine concluded that instead of a "likely three hours of running time" that included such scenes as Mrs. The Story of the Movie novelisation. In July , Weitz told a Comic Con audience that the film had been "recut by [New Line], and my experience with it ended being quite a terrible one"; [4] he also told Time. The alethiometer is mentioned multiple times throughout the film as a "golden compass". Billy features in the first scene of the film, whereas, in the book, he is first seen at Bolvangar, and is saved before ever having to go through intercision. Tasha Robinson of The A. Club argued that through the use of a spoken introduction and other exposition-filled dialogue, the film fails by "baldly revealing up front everything that the novel is trying to get you to wonder about and to explore slowly". Robinson then asks, "Who are most people going to think of besides the Catholic Church? Although the character of Mrs. You sometimes are wrong about your characters. She has to be. Instead, the Magisterium represents all dogmatic organisations. Attempting to reassure fans of the novels, Weitz said that religion would instead appear in euphemistic terms, yet the decision was criticised by some fans, [33] anti-censorship groups, and the National Secular Society of which Pullman is an honorary associate , which said "they are taking the heart out of it, losing the point of it, castrating it Donohue said he would not ordinarily object to the film, but that while the religious elements are diluted from the source material, the film will encourage children to read the novels, which he says denigrate Christianity and promote atheism for children. The review suggested that instead of a boycott, it may be appropriate for Catholic parents to "talk through any thorny philosophical issues" with their children. Oh, it causes me to shake my head with sorrow that such nitwits could be loose in the world. The critical consensus reads: As a visual experience, it is superb. As an escapist fantasy, it is challenging I think [it] is a wonderfully good-looking movie, with exciting passages and a captivating heroine. There are always compromises". He hoped, however, that the rest of the trilogy would be adapted with the same cast and crew. In Pullman called the film "over-designed" and criticised the screenplay: They wanted both a cliffhanger and a resolution.

His brother, Leonard M. Kravitz, followed in his footsteps to the military, becoming a Private First Class. Lenny Kravitz would be named after this uncle, who was killed in action in the Korean War at the age of 19, while defending against a Chinese attack and saving most of his platoon; he was posthumously awarded the Distinguished Service Cross but was denied the Medal of Honor. Kravitz began banging on pots and pans in the kitchen, playing them as drums at the age of three. At the age of five, he wanted to be a musician. He began playing the drums and soon added guitar. Kravitz grew up listening to the music his parents listened to: Ellington even played "Happy Birthday" for him one year when he was about 5. Kravitz often went to see New York theater, where his mother worked. His mother encouraged his dreams of pursuing music. Kravitz attended Beverly Hills High School. He taught himself to play piano and bass, and made friends with Zoro who would later become his long-time collaborator. He also appeared as an actor in television commercials during this time. Career[edit] â€” Virgin Records and career debut[edit] With record labels still telling him his music was not "black enough" or "white enough", Kravitz decided to record an album on his own. Kravitz would go on to collaborate with Hirsch on most of his albums. Kravitz was so impressed with his playing that Denson played on much of the album. Denson toured with Kravitz for the next five years. Kravitz urged Smith to manage his career and assist him in finding a record deal. In less than a month of shopping the recordings, five labels Warner Bros, Elektra, Geffen, Capitol and Virgin were in a bidding war for Kravitz. The label was excited about the music he was making, music inspired by his relationship with wife Bonet and their new daughter, Zoe. About his time as Romeo Blue, Kravitz said, "Ultimately, it got me back to myself. And when I finally did accept myself for myself, music started flowing out of me. Music critics were mixed: The album was a moderate success in the United States, but became an instant hit outside of the US, especially in Europe. Lisa Bonet directed the debut music video for the title track, "Let Love Rule". Having played essentially all of the instruments on the album, Kravitz had to quickly assemble a touring band to support the Let Love Rule release. The double disk includes a booklet with rare photos, and 18 additional demos, bonus tracks and live recordings. Kravitz separated from Lisa Bonet in , [21] amid rumors of an affair between him and Madonna. Kravitz has denied any infidelity. He played most of the instruments and co-wrote most of the songs on the album. He also released his second album, Mama Said, which was his first album to reach the Top The songs on the album were about Bonet and dedicated to her, documenting his depression over their breakup. The single "Always on the Run", a tribute to his mother, [17] featured Slash on guitar. This album was the first to feature guitarist Craig Ross, who has also played on all his subsequent albums. The Spy Who Shagged Me and was added to 5 as a bonus track in It proved to be his most successful album, reaching 2 on the Billboard and selling nearly 11 million copies worldwide and ultimately becoming one of the most commercially successful albums of the decade. In , Kravitz participated in a benefit auction for the Red Hot Organization, in conjunction with Amazon. The album was recorded in Miami. Kravitz wrote the song "Bank Robber Man" after the Miami Police Department detained and cuffed him while walking to the gym with his trainer because police stated that he matched the

description of a bank robber. Kravitz did not have any identification with him at the time and the police on the scene did not believe that he was indeed Lenny Kravitz. The bank teller who was robbed was then brought to the scene and said Kravitz was not the bank robber. The first single from the album, " Dig In ", went to number 1 in Argentina and the top 10 in Italy and Portugal.
