With the exception of the Second Mate, the Captain is the youngest onboard and he feels insecure in his new position. The Chief Mate responds that the ship must be another English ship waiting for the correct tide. The young Second Mate informs them that the skipper of a tugboat informed him earlier that the ship is the *Sephora*, out of Liverpool, with plans to leave for Cardiff in two days with a cargo of coal. The other officers are amazed at his unprecedented behavior. Soon he goes downstairs to get a cigar and afterwards emerges barefoot on the deck thinking about how glad he is in his choice of career. He feels concerned about what the men will think. At this point the Captain notices a rope ladder that the crew failed to bring in after the skipper of the tugboat left, and he automatically begins to pull the ladder in. However, he is amazed to find that he cannot get it to move and suddenly feels a tug. When he puts his head over the rail he sees what at first appears to be a headless corpse floating on the black water but it turns out to be a naked man holding onto the rope ladder. The Captain realizes how very much Leggatt and he look alike: At this point, an impending gale hit the boat and consequently the man died. Leggatt was blamed for his death by the captain of the *Sephora* and locked into his cabin until the ship returned to Britain where he would stand trial for murder. The Captain says he understands how the incident could have happened and that he could picture it precisely. After hiding Leggatt in his stateroom, the Captain wakens the Second Mate to continue the watch and returns to his cabin: Three weeks earlier, he had asked the captain of the *Sephora*, whom he calls the Skipper, to leave the door to his cabin unlocked so he could escape and avoid prosecution in England. The captain, who was indebted to Leggatt for saving the ship, refused his request. Exhausted after swimming over a mile, he reached the ship where he saw the hanging rope ladder. While Leggatt and the Captain converse, they can hear the Second Mate walking above. By now it is 3: In the morning, he wakes to a knock of the steward bringing him coffee. He is extremely nervous that the steward will discover Leggatt and bolts the door after him when he goes on deck. He acts with great dignity in front of the crew, but feels nervous throughout breakfast in the saloon with his officers. It was much like being mad, only it was worse because one was aware of it. Then he has Leggatt return to the stateroom while the steward cleans the bathroom which he has entered from the saloon: He traces the relationship between an immature young Captain on his first command and his dark double Leggatt, an escaped prisoner who has killed a man in a fit of fury. And sure enough, when the forlorn Captain looks out at the lonely stretch of dark water, the reader is prepared and not at all surprised at the arrival of Leggatt who is pulled by the Captain out of the water by a rope, which in a manner mimics a birth. Water traditionally symbolizes the unconscious mind, and thus, the insecure young man has metaphorically pulled Leggatt from his own unconscious. The Captain has gained his position not through years of service and toil like the rest of his crew but simply through his upper-class personal connections. Simply, the Captain is a gentleman. He is painfully aware of this and believes he can feel resentment from his middle and lower class crew, all of whom have had far more work experience. Ego or consciousness is delicate, Jung maintains, and has to be protected, while the Shadow or the dark side is primitive, chaotic and powerful. When one is mentally healthy the Ego is able to balance conscious and unconscious effectively but when the Ego becomes weak or severely stressed then dangerous chaotic unconscious images can emerge. The example of the staid, respected Dr. Jekyll and the out-of-control Mr. The dark, shadowy Mr. Hyde only emerges and becomes dangerous when the Ego, or in this case Dr. Jekyll, is placed under a great deal of stress. When we first encounter the Captain, he is deeply stressed at the idea that he might not live up not only to the expectations of his crew, all of whom have far more experience than he does, but also to the expectations he has placed upon himself: At first, the Captain helps Leggatt by providing a place for him to hide. Symbolically, what is at play here, however, is the idea that Leggatt has been let loose but must be kept under wraps because Leggatt and the Captain are one and the same. However, it is Leggatt, as we shall see, who helps the Captain live up to his own ideal of what a good captain should be and to gain the respect of his crew.

Plot summary[edit] "The Secret Sharer" takes place on a sailing ship in the Gulf of Siam now the Gulf of Thailand , at the start of a voyage with cargo for Britain. The date is probably in the s, when Conrad was at sea himself. He is unfamiliar with both his ship and his crew, having joined the ship only a fortnight earlier, and unsure of his ability to exert his authority over the officers and crew who have been together for some time. He makes the point several times that he is the "stranger" on board. After being towed downriver presumably from Bangkok by a steam tug, the ship is left at anchor near a group of small barren islands a few miles off shore, waiting for wind to begin its voyage. An incoming ship is anchored similarly a couple of miles away, awaiting a tug to go upriver. That night, the captain, being restless, unusually takes the watch. Curiously, the captain initially sees the body as a headless corpse, which seems to hint at something much more foreboding. On second look, however, the body is full and the face speaks. The naked swimmer is hesitant to talk or come on board, but seems pleased to discover he is speaking to the captain. Still on deck, Leggatt explains that he was the First Mate of the other ship, but was placed under arrest after being accused of murdering a crew member. The victim was a disobedient bully. During a storm which nearly sank their ship on their voyage here, Leggatt was physically wrestling with the man to make him to pull a rope when a freak wave threw them both against a bulwark and the man was killed. Leggatt, a "stranger" on the other ship just as the captain is on his, would certainly face the gallows on landing. Though the captain could, and by all the rules should, arrest Leggatt, he instead leads him to concealment in his cabin. Our captain, not a natural liar, manages to bluff through, but is left terrified as to what his own officers make of his strained behaviour. Leggatt comes close to discovery several times, almost like a stage farce. All the while, the captain is tormented by any small sign that any of his crew suspect or even might have discovered the secret. The captain and Leggatt evolve a plan: Leggatt, a good swimmer, will drop into the sea and swim ashore further down the Gulf of Siam while the ship is sailed as close in to land as possible. Leggatt escapes unnoticed and the captain leads the ship away. This section does not cite any sources. Please help improve this section by adding citations to reliable sources. June Learn how and when to remove this template message The story has a theme seen in some other Conrad stories Lord Jim , Nostromo of the hero facing a decision and drifting into the one which is "wrong" by normal social standards, a lapse from the rules he is expected to follow. The decision by the captain to conceal Leggatt is the hinge point of this story. While the reader is likely to believe that Leggatt does not deserve to be convicted of murder, there is no doubt that the captain, as the representative of the law on his ship, is breaking all the rules in concealing Leggatt. Yet there is no clear point at which the decision is made. Although our narrator is speaking his thoughts, fears and doubts, he never says "I decided to conceal Leggatt". When they move from the deck to the cabin, it seems at first only to get Leggatt dry and to hear his story more fully, but the situation somehow drifts into one of concealment. This happens when they instinctively lower their voices on hearing the footsteps of the second mate who has now taken over the watch on the deck overhead. At the end of the story, when Leggatt drops into the sea from a stern porthole, we do not even know if he survives the long swim to the Indo-China shore, to start a new life. He wrote the short story as a break from the much larger novel, which was emotionally difficult for him. There are similarities between the two stories, with the Captain and Leggatt becoming Razumov and Haldin, respectively. An episode from the sea". Conrad revised the title to make it more ambiguous, making Leggatt secretly share with the captain, rather than merely sharing a secret. The story contains elements of real events. In , the chief mate of the British clipper ship Cutty Sark killed another crew member for insolence during a storm and was later arrested in London for his murder. Conrad also drew on his own time as captain of the Otago, when his first mate did not trust him and got a particular scare when Conrad maneuvered the ship dangerously close to rocks in the Gulf of Siam.
