

1: Forest Visualization

Visualizing Canada's Forest Change, An example screen of the Canadian forest calculator at Foundry Spatial. Txomin Hermosilla, project lead from the University of British Columbia.

You can use this script to record your own relaxation audio or learn to relax. You may not make recordings or reproduce anything from this website, except for your personal, private use. Please see these frequently asked questions for details. Start reading the visualization relaxation script here: Begin by finding a comfortable position sitting or lying down. Allow your body to begin to relax as you start to create a picture in your mind. Let the forest visualization begin. Imagine yourself walking on a path through a forest. The path is soft beneath your shoes, a mixture of soil, fallen leaves, pine needles, and moss. As you walk, your body relaxes and your mind clears, more and more with each step you take. Breathe in the fresh mountain air, filling your lungs completely. Breathe out all the air. Take another deep breath in Continue to breathe slowly and deeply as you walk through the forest and continue the forest visualization. The air is cool, but comfortable. Sun filters through the trees, making a moving dappled pattern on the ground before you. Listen to the sounds of the forest A gentle breeze blowing. The leaves on the trees shift and sway in the soft wind. Your body relaxes more and more as you walk. Count your steps and breathe in unison with your strides. Breathe in 2, 3, Continue to breathe like this, slowly and deeply, as you become more and more relaxed. As you walk through the forest visualization, feel your muscles relaxing and lengthening. As your arms swing in rhythm with your walking, they become loose, relaxed, and limp. Feel your back relaxing as your spine lengthens and the muscles relax. Feel the tension leaving your body as you admire the scenery around you. Your legs and lower body relax as well, feeling free and relaxed. As you continue to walk through the forest visualization, you begin to climb up a slight incline. You easily tread along smooth rocks on the path. Feeling at one with nature. The breeze continues to blow through the treetops, but you are sheltered on the path, and the air around you is calm. Small saplings grow at the sides of the path. Around you is an immense array of greens. Some of the leaves on the trees are a delicate, light green. Some leaves are deep, dark, true forest green. Many trees have needles that look very soft and very green. The forest floor is thick, green moss. Tall trees grow on either side of the path. Picture the variety of trees around you. Some have smooth, white bark. Others are darker, with coarse, heavy bark, deeply grooved. Enjoy the colors of the bark on the trees - white, tan, brown, red, black You admire the rough, brown bark of pine trees and enjoy the fresh pine scent. Smell the forest around you. The air is fresh, and filled with the scent of trees, soil, and mountain streams. Continue the forest visualization You can hear the sound of water faintly in the distance. The gentle burbling sound of a creek. As you continue to walk through the forest, you are gaining elevation and getting closer to the sound of a running stream. Continue to enjoy the forest around you. Enjoy the forest visualization. As you near the top of the mountain, you hear the stream, very close now. The path curves up ahead. You can see sunlight streaming onto the path. As you round the corner, you hear the water, and see a clearing in the trees up ahead. A beautiful look out point awaits. You are growing tired from your journey. Your body feels pleasantly tired and heavy. Imagine yourself walking toward the clearing and the stream. Stepping stones make an easy path across the stream and toward the edge of the mountain. Step on each large flat stone to easily cross the small, shallow stream. Up ahead is a large, smooth rock The rock is placed perfectly, high up on this beautiful vantage point. Sit or lie down on the rock if you wish. It is very comfortable. You feel very comfortable and at ease. The sun shines down on you. Looking around, you see mountains in the distance. You can look down from your vantage point into a valley with trees and a brilliant blue lake. Across from you is another mountain. The clearing around you is made up of rocks, soil, pine needles, moss, and grass. The grass and mountain wildflowers around you blow gently in the breeze. A deer quietly emerges from the edge of the forest to graze in the clearing. As the deer raises its head to look at you, you can see its nostrils moving to catch your scent. The deer cautiously walks to the stream to drink before disappearing back into the forest. Squirrels dart in and out of sight as they romp through the trees, and race across the clearing. Feel the sun warming your body as you relax on the rock. Enjoy the majestic landscape around you and feel your body relaxing even more. Your body

VISUALIZING FOREST CHANGE pdf

becomes very warm, and very heavy. Continue to breathe the clean, fresh air. You feel so relaxed.
