

1: The Suites – The Barn B&B Walla Walla

Best Western Walla Walla Suites Inn offers a multitude of services for our guests. With indoor corridors offering protection from inclement weather, a protective porte-cochere welcomes you to our lobby where our attentive and friendly staff await your arrival.

I would recommend it to all my friends. Plenty of well lit parking spaces. Quick drive to downtown WW. Breakfast was good with nice selection and helpful staff. The counters and tables were kept well cleaned and cleared. I drink decaf coffee and appreciated having it available. Ed, United States of America The staff made such a positive impression. I was greeted warmly when I checked in, and each and every person on staff that I encountered was sincerely warm and friendly. The manager, Charli, was visible and on top of things. Angela, who ran the breakfast room with an eagle eye, was quick to serve all. She was exceptionally helpful and clearly takes pride in her work. The breakfast was hot and tasty, and the food supply never ran low. I really enjoyed the patio and lawn in the back of the hotel along the river. Perfect place to enjoy a glass of wine and wait to catch sight of a heron or two searching for dinner. The bed was very comfortable, and I appreciated having a refrigerator and microwave in the room. The bathroom was spotless and I really liked the huge mirror and long vanity. Victoria, United States of America Beds were very comfortable! Apples were wonderful and located in lobby! Nancy, United States of America I was upgraded to a suite, impressive. Quiet, clean, well kept properly. Very good place, best on my 12 day trip. Rolf, United States of America The breakfast assortment was fairly standard for a nice hotel breakfast, but what made it extra special is the staff worked extra hard to keep everything stocked even when the girls volleyball team came down as a big group and loaded up their plates. Tova, United States of America Rooms are very clean, staff is very accommodating and breakfast is amazing. Brittany, United States of America staff was helpful but could not fix our broken fridge, moved rooms when the TV sound did not work. Fridge not cooling spoiled milk and food. Jodie, United States of America Amazing people and the room was clean and comfortable. There was fresh fruit and vegetables out for the guests in the evening and the fresh peaches were awesome.

6: Walla Walla Suite - A Room with no View by Anne Argula

"Walla Walla Suite surprised me, in a way that few books do, sticking in my brain like a melancholic song that I can't forget, don't want to forget. Quinn is an original, a word I don't use lightly."
