Lucia believes a small city could be powered with the energy in book clubs. She always enjoys visiting with them. Why are the Culpers relatively unknown? Who do you think might have been? Why do you think Lucia chose to portray her as a Quaker? What is a macaroni and what does it have to do with clothing? What relevance does this story have for us today? What information in this book surprised you? What was it about the Apaches that most surprised you? Their wacky sense of humor. They played a lot of practical jokes. Their favorite was to get just out of rifle range, turn their backs to the soldiers, and lift their breechclouts, presenting an impressive array of posteriors. The battle stopped while the Apaches and the soldiers both got a good laugh out of it. They also told droll stories about Trickster Coyote that we would consider off-color today. Ghost Warrior Their names were not like the heroic monikers of other tribes. What else made the Apaches different? When Apaches are depicted we almost always see the men, the warriors; but they went to great lengths to honor their women at the Ceremony of Changing Woman. When a girl reached puberty her family pooled all their resources to provide days of elaborate rituals, feasting, dancing, and lavish gift-giving. During that time the girl acquired the status of a goddess and people came from miles around to receive her blessing. Apache women were also very chaste, and Apache teen-agers quite bashful around each other. Boys in particular would go to elaborate lengths to avoid being embarrassed in front of girls. Courtship was demur, circumspect, and heavily chaperoned. They were also very emotional in expressing joy and grief. What else surprised you? Only after they had been betrayed time and again, did they become irretrievably hostile, and even then they were willing to make exceptions. They seemed to be fine judges of character, and would put their trust in the few white men who deserved it. I discovered that Geronimo was not generally well regarded among the Apaches. He had a reputation for deceitfulness, and liars were looked down on among his people. He also was considered reckless with the lives of his men, and Apaches, though ferocious in battle, did not risk their lives foolishly. What impressed you the most about them? They believed that the spirit world infused everything, and even the most mundane activities were a form of prayer. Their intimate and unusual connection with the land, which explains why they defended it so ferociously for so many years. Hollywood has depicted them as stoic, cruel, and ferocious, but it has not begun to show what they could do when they had to. They taught their children from an early age to be incredibly tough, resilient, self-reliant, and patient. They were so skilled at blending in with the landscape that the more superstitious of their enemies thought they had powers of invisibility. Why is the book called Ghost Warrior? During the wars with the U. Combine that with the fact that many believed they could make themselves invisible, and Ghost Warrior seemed a fitting name. Why were some captives treated well, and some badly? In this day of credit checks, and cell phones, traffic jams and air pollution, is there an appeal to their nomadic way of life? What surprised you about them? I, for instance, was surprised to learn that they have a sly sense of fun. How did their child-rearing methods differ from ours? For instance, they had a ceremony of honoring their young people that must have made the kids feel very much a part of the whole. If the Americans had treated them differently, more honorably, do you think history would have been different where they were concerned? What is the story of Fearless? Six-foot tall Sarah was a laundress whom the soldiers had nicknamed The Great Western after the biggest steamship afloat. For the next three years Sarah accompanied the soldiers as they invaded Mexico to secure the country north of the Rio Grande for the US. She was famous at the time, but not much is known about her today. For one thing, she was a woman and a lower class woman at that. Army laundresses did not generally have a good reputation, but Sarah went on to cook for the officers, then ran a successful hotel in Mexico where many officers lodged during the war. Many of them took advantage of other services offered there. What made her special? Her size, strength and courage. During battle she tended the wounded in the thickest of the fighting carrying them off the field single-handed. She was fiercely Fearless loyal and had a streak of audacity. What were the conditions of life in those days? The horrors of battle were only part of what made life difficult. Then

too, the terrain of northern Mexico is some of the roughest in the world. It alternates between trackless deserts and rugged mountains and deep gorges. The chaparral was so impenetrable that soldiers claimed cannon balls bounced off it. I also liked being able to use her story to show the effects of war on a civilian population, and the ways in which people adapt to circumstances that seem unendurable.
