This is the theme of the Resistance against the First Order. It is a very triumphant theme and it signifies action sequences most times it is played. This music is not mine, I just edited it. Also let me know what you all think about the sequels compared to the prequels, the originals and the anthologies! I would like to hear the differing opinions because I personally like the sequels and the originals the best ;D 1 EXT. A vast sea of stars serves as the backdrop for the Main Title, followed by a rollup, which crawls into infinity. There are heroes on both sides. In a stunning move, the fiendish droid leader, General Grievous, has swept into the Republic capital and kidnapped Chancellor Palpatine, leader of the Galactic Senate. As the Separatist Droid Army attempts to flee the besieged capital with their valuable hostage, two Jedi Knights lead a desperate mission to rescue the captive Chancellor. A giant space battle is revealed as the tiny Jedi ships continue their assault in a synchronous ballet. His ship rocks violently. Look out, four droids inbound. Break left, fly through the guns on that tower. Easy for you to say. I need some room to maneuver. Do you hear me?! Come on, Artoo, lock on! Lock onto them, Artoo. Oh, this is going to be easy. Odd Ball, do you copy? OS Copy, Red Leader. Mark my position and form your squad up behind me. Set S-foils in attack position. This is where the fun begins. Ten Vulture Droids straight ahead, coming down the left side. Add five Tri-fighters on the right. Take it easy, Anakin. Four Clone Fighters move into formation behind the Jedi. Five more on the right! All hell breaks loose. There are four more of them. Let them pass between us. These droids are all over me like a rash. How many back there. Anakin, you have four on your tail. Four more closing from your left. Break right and go high. Obi-Wan shakes his head. Obi-Wan, do you copy? Come down here and thin them out a little. Just keep me steady. He flies into the trench, which ends in a conning tower with a small slit between two main struts. Use the Force, think yourself through, the ship will follow. There are too many of them. Get them off my. They are doing their job so we can do ours. Head for the Command Ship! He banks sharply to the right, then to the left, causing one of the missiles to overshoot. Debris flies all around them. Surge all power units. Stand by the reverse thrusters. The missiles spin and collide. Two missiles continue to track Obi-Wan. Flying is for droids. The trailing missiles fly into what looks like debris, and detonate. Five silver balls fly out of the debris and attach themselves to the ship. Move to the right so I can get a clear shot at them. Get to the Command Ship. Anakin, hold your fire. I agree, bad idea. Move to the right. Get out of here. There are five left.
