Architecture[edit] Plan of Windsor Castle. The Round Tower, B: The State Apartments, D: The Long Walk, M: The Curfew Tower Windsor Castle occupies 13 acres 5. Since the 14th century, architecture at the castle has attempted to produce a contemporary reinterpretation of older fashions and traditions, repeatedly imitating outmoded or even antiquated styles. The current height of the tower has been criticised as being disproportionate to its width; archaeologist Tim Tatton-Brown, for example, has described it as a mutilation of the earlier medieval structure. The Upper Ward of Windsor Castle comprises a number of major buildings enclosed by the upper bailey wall, forming a central quadrangle. The State Apartments run along the north of the ward, with a range of buildings along the east wall, and the private royal apartments and the King George IV Gate to the south, with the Edward III Tower in the south-west corner. The motte and the Round Tower form the west edge of the ward. The skyline of the Upper Ward is designed to be dramatic when seen from a distance or silhouetted against the horizon, an image of tall towers and battlements influenced by the picturesque movement of the late 18th century. The modern building follows the medieval foundations laid down by Edward III , with the ground floor comprising service chambers and cellars, and the much grander first floor forming the main part of the palace. Wyattville intended each room to illustrate a particular architectural style and to display the matching furnishings and fine arts of the period. Different rooms follow the Classical , Gothic and Rococo styles, together with an element of Jacobethan in places. Art historian Hugh Roberts has praised the State Apartments as "a superb and unrivalled sequence of rooms widely regarded as the finest and most complete expression of later Georgian taste. These rooms take the fluid, playful aspects of this mid-18th-century artistic movement, including many original pieces of Louis XV style , but project them on a "vastly inflated" scale. The State Dining Room, for example, whose current design originates from the 18th century but which was badly damaged during the fire, is restored to its appearance in the 18th century, before the removal of some of the gilded features on the pilasters. Originally largely of medieval design, most of the Lower Ward was renovated or reconstructed during the mid-Victorian period by Anthony Salvin and Edward Blore , to form a "consistently Gothic composition". This huge building is the spiritual home of the Order of the Knights of the Garter and dates from the late 15th and early 16th century, designed in the Perpendicular Gothic style. It houses the vicars-choral, or lay clerks of the chapel. George Gilbert Scott heavily restored the building in the 19th century and little of the original structure remains. The immediate area stretching to the east of the castle is a 19th-century creation known as the Home Park. The Long Walk, a double lined avenue of trees, runs for 2. The impact of Dutch elm disease led to large-scale replanting after 1867. Eton College is located about half a mile from the castle, across the River Thames , reflecting the fact that it was a royal foundation of Henry VI. An aerial view of the castle: The River Thames can be seen in the upper left of the picture. History[edit] 11th and 12th centuries[edit] The Round Tower in the Middle Ward, built by Henry II and remodelled in the 19th century Windsor Castle was originally built by William the Conqueror in the decade after the Norman conquest of 1066. This range had two symmetrical gatehouses, the Spicerie Gatehouse and the Kitchen Gatehouse. The Spicerie Gatehouse was the main entrance into the palace, whilst the Kitchen Gatehouse simply led into the kitchen courtyard. Castles such as Windsor did not play a decisive role during the resulting Wars of the Roses 1455–1485 , which were fought primarily in the form of pitched battles between the rival factions. In 1485 , shortly after succeeding to the throne, he held a massive feast for the Order of the Garter at the castle.

Built in 13th century, it was re-modeled to look like a Tudor residence in 19th century Dec 2, Kate Bulo Photo Credit: One town, in particular, is famous for its fairytale castle. It is one of the most beautiful not only in the Czech Republic but all of Europe. However, the castle is not famous only for its beauty, but also for its long history. He decided to completely transform it into a Renaissance castle. Prominent Italian artists and some of the best-known craftsmen in the region were commissioned for this project. Once it was completed, the castle and its garden became a popular place for socializing among the nobility. But soon afterward, the castle was plundered and damaged on two occasions. In the 19th century, Johann Adolf II of Schwarzenberg and his wife, Eleonora, Princess of Liechtenstein, were not satisfied with the existing Baroque residence and decided to rebuild it. The couple had visited England on several occasions and admired the architecture they encountered, particularly the Tudor and Elizabethan style. The princess was very much involved in the interior decoration of the castle. Carved wood paneling is present in almost every room, which is unsurprising, given that she was fascinated by the Elizabethan style. The castle hosts the largest and most beautiful collection of rare Flemish tapestries in the region. Hluboka Castle in Czech Republic Author: To enlarge the garden, the existing disused farm was demolished and planted with trees and shrubs. Although it is considered a beautiful example of a Bohemian castle today, not everybody thought well of it at the time. Related story from us: It remained in their possession until the beginning of the World War II. When the war ended, the castle became the property of the state. Today, this romantic castle in Bohemia is the second most visited in the region.
