

1: Writing a Letter To Your Future Self | Personal Excellence

Introductory Exercises. Take a moment to write three words that describe your success in writing. Make a list of words that you associate with writing.

A one or two paragraph text from a customer summarizing the project. In the following sections, we will describe the full "2-Page Format". However, the same principles hold for the shorter format. The "Theme" In [po] we encourage success stories that take on different "themes" - talking about the specifics of a customer rollout. Otherwise all success stories would be similar. The "theme" of a success story is a particular aspect of a rollout that is emphasized. Themes frequently correspond to a [po] process that is particularly important for the customer. Alternatives for themes are particular difficulties in a rollout that have been successfully overcome. A document that consistently talks about one area will be recognized by Google as belonging to that area and receive a "usefulness" extra score. To optimize this recognition please research the theme, please create a mind-map of concepts around the theme looking up the term in Wikipedia , use these concepts throughout the success story and explain these concepts in terms of the actual implementation. If possible, try to include the theme in the name of the success story and in links pointing to the success story for SEO reasons. Example of themes in past [po] success stories: These quotes can provide an important guide, some success stories are written around these quotes. Story Telling A success story is actually composed similar to a Hollywood plot: The hero corresponds to the customer organization who is the protagonist of the project The Initial Situation: The initial situation is usually unsatisfying for the hero. The pain points of the initial situation are the reasons why the hero has started his quest - the real reasons behind selecting and purchasing [project-open]. The pain points are worth telling because this pain must exceed the cost and psychological stress associated with implementing a new ERP system The quest corresponds to the rollout project. During the quest, the hero will face a number of challenges or "adventures" that he will finally overcome. At the end, the hero has managed to create a new stable environment that is better than the initial situation. Success Story Sections Usually, a success stories usually consist of the following section, and roughly in the following order: What are the pain points in the initial situation? How was the Challenge resolved? Present the theme in detail. You may provide an example, layout a bit of general business theory about the theme, explain design considerations and alternative approaches, and why these alternatives were not chosen. Explain the "adventures" that the hero experienced when leaving the initial situation. How did the hero overcome the difficulties? Approval Process The process of releasing a success story can be a surprisingly long and painful. Basically, you will have to ping-pong the story between your customer, yourself and your copy editor see below until it is OK for everybody. This process can take surprisingly long, because it usually involves the highest level managers in the participating organizations. Here are a few hints: Start to mention the plan to write the success story to your customer already before and during the rollout. At this moment, the customer will promise you to do everything After the successful rollout the customer will be busy again with his own business and will be very reluctant to invest time in seemingly 2nd priority activities like writing success stories. Quotes and Sound Bites: Start collecting quotes, sound bites and general ideas for the success story during the rollout. Start writing bullet points at first. Concentrate on what you want to tell, instead of looking for elegant formulation. Involving the customer in this early stage will greatly simplify the approval process later. Use a copy-editor to produce professional language if you feel clumsy with language or if you are a non-English native like myself. You can hire a copy editor for USD per hour to fix your text or even to convert your bullet points into fluid language. Try to lay out an approval plan during the last days of the rollout. General Comments and Hints Be authentic and use authentic language. You obviously have to avoid negative terms to describe the initial situation, but it is OK to mention the difficulties that occurred during the rollout. Start laying out the success story with a list of bullet points. Please use the standard [po] Success Story template contact support project-open. Please use high-resolution images and logos. Low resolution images will be perceived as unprofessional by readers. Remember to collect customer quotes during the project. Ask during a dinner towards the end of the rollout: Getting approval may easily take several months because of the

slow reaction times of the involved managers.

2: How to Improve Your Vocabulary for Writing & Speaking Success | Brian Tracy

60 Words To Describe Writing Or Speaking Styles articulate - able to express your thoughts, arguments, and ideas clearly and effectively; writing or speech is clear and easy to understand chatty - a chatty writing style is friendly and informal.

Agnes Kantaruk Have you written a letter to your future self before? Back in the early s, I came across the Yahoo! Time Capsule, where users could contribute to a digital legacy of how life was in , which would be opened at a later date. I then came up with the idea of writing a letter to your future self, where you write a personal note to your future self, seal it, and then open it at a future date. There are no restrictions on how far you should project your letter to – you can write to your future self 1 year, 3 years, 5 years, or even 10 years from now! Doing this exercise can be a really insightful experience. Advertisement Imagine writing to your future self 5 years from now – what would you say? What goals would you want to have achieved? It also makes you pause and think about how you are doing, and whether you are where you want to be in life. It provides you a different perspective and lets you see how much you have changed since then. Put the papers in an envelope. To be opened on [Date]. In this one year, work hard on your goals and vision! Personally I recommend to write your letter on your computer and store it, rather than using such a service. The second letter was to my future self 5 years later, on February 10, A year later on February 10, , I opened my first letter. One of the biggest changes was my materialistic tendencies. In terms of goals, I had reached and exceeded several goals. For Career, I leaped ahead of my predictions – in my letter, I predicted that I would still be working in my ex-company while working on my purpose on the side. For example for Love, I thought that I would have found my relationship partner by then, but I had not. In terms of Friendship, some friends whom I thought I would still be on great terms with had slipped away. An example, buying a car. It made me more conscious of how I have changed vs. It made me appreciate how far I have come. It made me look forward to the future. Identify a time period to write to, imagine what you would be like, and then start writing! Advertisement Follow the steps in the exercise above. Get working on your goals, then open your letter with pride a year from now! 3: Writing a Successful Proposal | Sponsored Research Services

To understand the criteria for effective descriptive writing Task: Describe a nightmare world Success Criteria: •A strong opening sentence •Use of the senses •Use of simile and/or metaphor.

After you write your proposal, create a table of contents. Mission Statement In 50 words or less, what is the mission of your project? Most importantly, this allows the reader to have an immediate understanding of what you are proposing right from the start without having to search for what you are trying to do embedded in the narrative of the proposal. Following is an example of a mission statement from a successful grant proposal: Abstract The well-written abstract is the single most important part of the proposal. Often, initial proposal review, or "first cuts", are based on the abstract alone. The abstract should not be the last part of the proposal that is written. Deadline pressures prior to submission of the proposal are often intense. The writing of this crucial aspect of the proposal should be given the time and consideration it deserves. The abstract should be written early in the proposal preparation process, and modified as needed as the proposal develops. The abstract be understandable to a scientifically or technically literate lay reader, and it should be suitable for publication. The abstract should be written in the third person. It should include objectives, methods to be employed, and the potential impact of the project. Statement of Need This is where you present the problem you are trying to solve. Our advice is as follows: Stick to one problem. Avoid circular logic in your thinking and in the development of your statement of need. Circular logic decrees that the lack of a solution is the problem. Requesting scholarship funds as a solution to the lack of scholarship funds is an example of circular logic. A more convincing argument is based on a problem with a much larger scope. For example, women are greatly underrepresented in engineering-related fields and scholarship funds will enable more women to pursue engineering as a career choice. Use a logical progression in your statement of need starting as globally as possible. You will need to prove that you have an understanding of the problem and the latest research on the problem. For example, if you are proposing a computer lab to serve a minority population your statement of need should focus on the "digital divide. Close with a discussion of what else is being done, and lead into the project narrative with a brief discussion of how your idea is better or different. To do this, you will need to cite that latest body of research and specific projects that are currently happening and how yours is different and better. Preparation is essential, and you are encouraged to pick up the phone and call people who are working on similar projects, call program officers at agencies, and gather as much information as possible. This is an area where the Sponsored Research Services office can offer guidance, advice, and assistance. Project Rationale Incorporating Literature Review Any successful grant application must incorporate a strong theoretical basis that is grounded with an extensive discussion of the literature. The rationale for the project comes from what the literature says works, does not work, is missing, needs to be looked at differently, or however you choose to broach this extensive discussion. This is how the proposal demonstrates that the individual making application is incorporating the latest research into the project. Project Narrative A project narrative has six main sections. Check the funding agency announcement for a specific outline; some agencies require a different organization of the proposal narrative. What are the major goal s and objectives of the project? Describe the expected outcomes of this project and how success will be measured in the project and reference the evaluations section below. What are the activities that are going to happen during the period of this grant? What are you are proposing to do? What timeframe are you accomplishing this during the project? Facilities, Resources, and Project Management. What facilities and resources are available? How is the project going to be managed? Who will provide leadership and management for the project, and who are the people involved in implementing the project? What credentials make this project team unbeatable? To the potential funding source, the deliverables of your project are the justification for your funding, so it is imperative that you have in place a comprehensive and accepted method to evaluate your outcomes. Be sure to give this section its due priority, and pull in an evaluator very early in the process of developing a proposal. Oftentimes, external evaluators are included in the budget for projects. SRS can refer you to persons on campus who are schooled and well respected in the field of evaluation; contact us for more information. Evaluation plans

should include both formative evaluation to inform development of the project and summative evaluation to assess the impact of the project on the target audience. Each proposal should describe a performance evaluation plan that includes goals, objectives, indicators, and specific measurements for assessing the progress toward the achievement of the goals. Information on data collection and analysis should be included. Examples of indicators that may be useful are: An outreach or dissemination plan is often required by program guidelines and will enhance any proposal. A proposal should include a detailed description of activities that disseminate information on the success and content of the project to other scientists and educators. Dissemination efforts should be tailored to specific customers and target audiences. Some suggested mechanisms for dissemination:

4: Definition Essay on Success | www.enganchecubano.com Blog

Recently, I decided it was time I needed a life coach. I was excited for the journey for some clarity to be revealed. One of the first things I was asked was to describe what success means in three (yep - 3) words.

Writing Language is a powerful tool, and the better you are at wielding it the better your results will be. If you want to engage your audience and pique their interest, you need to develop exceptional written communication skills. A big part of improving your writing skills is simply learning how to improve your vocabulary. Therefore, the more words you know and can use, the more likely it is that you will be able to find the perfect way to string together your thoughts into a message that will get the job done. Having a large vocabulary allows you to say the same thing in a variety of different ways. This means that you will be able to rewrite ideas from resources that you find without plagiarizing the original source. Of course, having a mastery of the English language will also improve the quality of your writing as well, and help you establish a sense of professionalism and expertise. In summary, if you intend to use written material to share a message or communicate with the masses, in any way, expanding your vocabulary is an excellent way to make it easier for you and for your readers. The good news is that no matter where you are starting out, the process for improving your vocabulary even further remains the same. How to Expand Your Vocabulary as a Writer Expanding your written vocabulary is, fortunately, much easier than expanding your speaking vocabulary. The reason for this is that writing offers two big advantages that speaking does not: Nevertheless, the goal is to eliminate the need for these things as much as possible. Mastering the English language overnight is no more possible than it is to master any other skill overnight. With that said, these strategies are still designed to help you improve your vocabulary skills as quickly and as effectively as possible. How can I Learn Vocabulary Words? Some effective strategies for learning new vocabulary words that you can put to use in your writing include: Read a lot Reading everything you can get your hands on is one of the most passive and most effective ways to boost your vocabulary. Keep a Thesaurus and a Dictionary Nearby Dictionaries and thesauruses are the two most effective vocabulary-expanding tools that you have available, and you can use each of them in a slightly different way. Meanwhile, you can look up words that you already know in a thesaurus at any time to find other words that mean the same thing. If you run through these flashcards just once a day you will be well on your way to expanding your vocabulary. Do you know the name of everything in your setting? What words would you use to describe the people around you? Ask yourself questions such as this and paint a mental picture of the world around you using the most descriptive language that you can. Exercises such as this will help you put the new words you use into practice in order to better commit them to your memory. Listen to Music In the same way that reading grows your vocabulary, listening can grow your vocabulary as well. Listening to music is one good option, especially if you are listening to artists that are creative with their verses and rhymes. However, listening to podcasts, audiobooks, and more can also improve your vocabulary over time as well. Each day, choose a new word to memorize and try to use that word as often as you can throughout the day. Daily Vocabulary Words Learning just one new word every day is a highly effective way to incrementally expand your vocabulary over time. To use this method, you can pick a word at random from the dictionary or you can use one of many daily vocabulary word programs that will send a new word to your inbox each day. However you choose your daily word, though, take the time to memorize the word and try to use it as much as possible in conversation or in your mind throughout the day. If you give your daily word enough focus, you should be able to make it a permanent part of your vocabulary after just 24 hours. Learn a New Word a Day Learning a new word a day is such an effective strategy thanks to the fact that it requires only a minimal amount of commitment and effort yet still allows you to add a new word to your vocabulary each and every day. Vocabulary List An effective addition to your strategy of learning a new word a day that you might want to consider is keeping a list of the words that you choose to learn along with their definitions. Your list will also serve as a visual example of how much your vocabulary has expanded, which can be a big motivator to keep up your progress. Vocabulary Activities to Help You Grow There are plenty of effective activities that you can use to put the words you learn into practice as well as learn new vocabulary

words in the process. These activities include things such as: Vocabulary Games There is a wide range of online games designed to help you improve your vocabulary. These games can serve as a fun and entertaining way to learn new words and put the words that you already know into practice. Many online dictionaries such as Dictionary. Vocabulary Test Vocabulary tests allow you to test your current vocabulary and receive a score at the end of the test that lets you know what level you are on. In addition to improving your vocabulary by exposing you to new words, these tests also allow you to gauge your progress so that you will know if and by how much your vocabulary is improving. As with vocabulary games, a wide range of vocabulary tests can be found with a quick Google search. Vocabulary Quiz Vocabulary quizzes are similar to vocabulary tests, but are typically shorter and may not provide a very detailed analysis of your vocabulary level once the quiz is complete. Nevertheless, vocabulary quizzes are still a great way to practice your vocabulary and measure your results. Vocabulary Worksheets Vocabulary worksheets come in a wide range of formats. Some can be completed online while others can be printed off and completed by hand, and the exact goal and instructions for the worksheet vary from worksheet to worksheet. Whatever format you choose, though, vocabulary worksheets are a great way to practice your vocabulary skills. What is the Best Way to Learn Vocabulary? There is no single best way to learn vocabulary, and the most beneficial approach will come from implementing a number of different practices and strategies. Hopefully, this guide has given you plenty of vocabulary-building methods for you to consider implementing. If you choose a handful of these methods and commit to them each day, you can rest assured that your vocabulary will improve over time, helping you write more effective content for your business. You may be searching to improve your vocabulary because you want to write a book. One big part of improving your writing and speaking skills is simply learning how to improve your vocabulary.

5: Writing for Success - Open Textbook Library

Comprehensive list of synonyms for words used to describe writing or to be successful or famous and will be found out words used to describe writing or speech.

Put simply, all of these different types of paragraphs simply involve layering on a different purpose or intent. What are you trying to achieve in this paragraph and in your whole composition? What is your purpose right here? Do you wish to describe? Do you want to evaluate? Is your goal to narrate? Is your intent to persuade?

After Pattern Based Writing: Check out the Pattern Based Writing program! Sunset is the time of day when our sky meets the outer space solar winds. There are blue, pink, and purple swirls, spinning and twisting, like clouds of balloons caught in a blender. The sun moves slowly to hide behind the line of horizon, while the moon races to take its place in prominence atop the night sky. People slow to a crawl, entranced, fully forgetting the deeds that still must be done. There is a coolness, a calmness, when the sun does set.

Informational Paragraph and a Narrative Paragraph 2. Its mission was to go where no human being had gone before—the moon! The spacecraft landed on the moon in the Sea of Tranquility, a basaltic flood plain, on July 20. The moonwalk took place the following day. On July 21, , at precisely It was July 21, , and Neil Armstrong awoke with a start. It was the day he would become the first human being to ever walk on the moon. The journey had begun several days earlier, when on July 16th, the Apollo 11 launched from Earth headed into outer space. The crew landed on the moon in the Sea of Tranquility a day before the actual walk.

Process or How-to Paragraph 3. Here is the perfect system for cleaning your room. First, move all of the items that do not have a proper place to the center of the room. Get rid of at least five things that you have not used within the last year. Take out all of the trash, and place all of the dirty dishes in the kitchen sink. Now find a location for each of the items you had placed in the center of the room. For any remaining items, see if you can squeeze them in under your bed or stuff them into the back of your closet. See, that was easy!

Compare and Contrast Paragraph 4. Oceans and lakes have much in common, but they are also quite different. Both are bodies of water, but oceans are very large bodies of salt water, while lakes are much smaller bodies of fresh water. Lakes are usually surrounded by land, while oceans are what surround continents. Both have plants and animals living in them. The ocean is home to the largest animals on the planet, whereas lakes support much smaller forms of life. When it is time for a vacation, both will make a great place to visit and enjoy.

The Blue Whales just played their first baseball game of the new season; I believe there is much to be excited about. Although they lost, it was against an excellent team that had won the championship last year. The Blue Whales fell behind early but showed excellent teamwork and came back to tie the game. The team had 15 hits and scored 8 runs. Unfortunately, they had 5 fielding errors, which kept the other team in the lead the entire game. The game ended with the umpire making a bad call, and if the call had gone the other way, the Blue Whales might have actually won the game.

Persuasive Paragraph and Argumentative Paragraph 6. The school fair is right around the corner, and tickets have just gone on sale. We are selling a limited number of tickets at a discount, so move fast and get yours while they are still available. This is going to be an event you will not want to miss! First off, the school fair is a great value when compared with other forms of entertainment. Also, your ticket purchase will help our school, and when you help the school, it helps the entire community. Every ticket you purchase enters you in a drawing to win fabulous prizes. Spend time with your family and friends at our school fair. Buy your tickets now! Even though you may be busy, you will still want to reserve just one day out of an entire year to relax and have fun with us. The school fair is a community event, and therefore prices are kept low. Perhaps, you are still not convinced. We look forward to seeing you at the school fair!

Narrative Version 1st person Last week we installed a kitty door so that our cat could come and go as she pleases. Unfortunately, we ran into a problem. Our cat was afraid to use the kitty door. We tried pushing her through, and that caused her to be even more afraid. The first step we took in solving this problem was taping the kitty door open. After a couple of days, she was confidently coming and going through the open door. However, when we removed the tape and closed the door, once again, she would not go through. They say you catch more bees with honey, so we decided to use food as bait. We would sit next to the kitty door with a can

of wet food and click the top of the can. When kitty came through the closed door, we would open the can and feed her. It took five days of doing this to make her unafraid of using the kitty door. Now we have just one last problem; our kitty controls our lives! Also, notice that the second paragraph is a process paragraph. It would be very easy to add an introduction and conclusion to these two paragraphs and have a complete essay! People often install a kitty door, only to discover that they have a problem. The problem is their cat will not use the kitty door. First, they may not understand how a kitty door works. They may not understand that it is a little doorway just for them. Second, many kitty doors are dark and cats cannot see to the other side. The first step in solving the problem is to prop the door open with tape. This means your cat will now be able to see through to the other side; your cat will likely begin using the kitty door immediately. Once your cat has gotten used to using the kitty door, remove the tape. Sometimes cats will continue to use the kitty door without any more prompting. If this does not happen, you will want to use food to bribe your cat. Open the door to show your cat that it is both you and the food waiting on the other side of the door. Repeat this a couple times, and then feed your cat. After a couple days of this, your kitty door problem will be gone. Cause and Effect Paragraph 8. This is also a first person narrative. I do well in school, and people think I am smart because of it. In fact, three years ago I struggled in school. However, two years ago I decided to get serious about school and made a few changes. First, I decided I would become interested in whatever was being taught, regardless of what other people thought. I also decided I would work hard every day and never give up on any assignment. I decided to never, never fall behind. Finally, I decided to make school a priority over friends and fun. After implementing these changes, I became an active participant in classroom discussions. Then my test scores began to rise. It seems to me that being smart is simply a matter of working hard and being interested. After all, learning a new video game is hard work even when you are interested. Personal Narrative Paragraph 9. Last year was the first time I had ever been the new kid at school.

6: BBC - GCSE Bitesize: Writing to describe - example

comprehensive ppt that helps students write real and interesting characters, lots of stuff in here, sample text, sample paragraphs, success criteria etc. works a treat.

By The Fastweb Team August 20, Writing an essay often seems to be a dreaded task among students. Whether the essay is for a scholarship, a class, or maybe even a contest, many students often find the task overwhelming. While an essay is a large project, there are many steps a student can take that will help break down the task into manageable parts. Following this process is the easiest way to draft a successful essay, whatever its purpose might be. You may have your topic assigned, or you may be given free reign to write on the subject of your choice. If you are given the topic, you should think about the type of paper that you want to produce. Should it be a general overview of the subject or a specific analysis? Narrow your focus if necessary. If you have not been assigned a topic, you have a little more work to do. However, this opportunity also gives you the advantage to choose a subject that is interesting or relevant to you. First, define your purpose. Is your essay to inform or persuade? Once you have determined the purpose, you will need to do some research on topics that you find intriguing. Think about your life. What is it that interests you? Jot these subjects down. Finally, evaluate your options. If your goal is to educate, choose a subject that you have already studied. If your goal is to persuade, choose a subject that you are passionate about. Whatever the mission of the essay, make sure that you are interested in your topic. Prepare an outline or diagram of your ideas. In order to write a successful essay, you must organize your thoughts. This structure serves as a foundation for your paper. Use either an outline or a diagram to jot down your ideas and organize them. To create a diagram, write your topic in the middle of your page. Draw three to five lines branching off from this topic and write down your main ideas at the ends of these lines. Draw more lines off these main ideas and include any thoughts you may have on these ideas. If you prefer to create an outline, write your topic at the top of the page. From there, begin to list your main ideas, leaving space under each one. In this space, make sure to list other smaller ideas that relate to each main idea. Doing this will allow you to see connections and will help you to write a more organized essay. Write your thesis statement. Now that you have chosen a topic and sorted your ideas into relevant categories, you must create a thesis statement. Your thesis statement tells the reader the point of your essay. Look at your outline or diagram. What are the main ideas? Your thesis statement will have two parts. The first part states the topic, and the second part states the point of the essay. The body of your essay argues, explains or describes your topic. Each main idea that you wrote in your diagram or outline will become a separate section within the body of your essay. Each body paragraph will have the same basic structure. Begin by writing one of your main ideas as the introductory sentence. Next, write each of your supporting ideas in sentence format, but leave three or four lines in between each point to come back and give detailed examples to back up your position. Fill in these spaces with relative information that will help link smaller ideas together. Now that you have developed your thesis and the overall body of your essay, you must write an introduction. Begin with an attention grabber. You can use shocking information, dialogue, a story, a quote, or a simple summary of your topic. Whichever angle you choose, make sure that it ties in with your thesis statement, which will be included as the last sentence of your introduction. The conclusion brings closure of the topic and sums up your overall ideas while providing a final perspective on your topic. Your conclusion should consist of three to five strong sentences. Simply review your main points and provide reinforcement of your thesis. Add the finishing touches. After writing your conclusion, you might think that you have completed your essay. Before you consider this a finished work, you must pay attention to all the small details. Check the order of your paragraphs. Your strongest points should be the first and last paragraphs within the body, with the others falling in the middle. Also, make sure that your paragraph order makes sense. If your essay is describing a process, such as how to make a great chocolate cake, make sure that your paragraphs fall in the correct order. Review the instructions for your essay, if applicable. Many teachers and scholarship forms follow different formats, and you must double check instructions to ensure that your essay is in the desired format. Finally, review what you have written. Reread your paper and check to see if it makes sense. Make

sure that sentence flow is smooth and add phrases to help connect thoughts or ideas. Check your essay for grammar and spelling mistakes. You have just written a great essay. Need Money to Pay for College? Every semester, Fastweb helps thousands of students pay for school by matching them to scholarships, grants, and internships, for which they actually qualify.

7: How to Be Successful at Writing: 6 Steps (with Pictures) - wikiHow

Writing For Success - Saylor Academy.

Subscribe to receive encouragement for your day. I was excited for the journey for some clarity to be revealed. One of the first things I was asked was to describe what success means in three yep €” 3 words. Seriously €” just three words. This question had me baffled. I knew how I would have described it years ago. That was the path I was on then. Polls today show that teens see success as being rich and famous. And maybe that is easy to see. Shows, movies, and billboards taunt that kind of lifestyle. Success is more than the big things we conquer. I also see the stepping stones we must conquer everyday as success. Sometimes completing what seems to be the littlest of things is success. Just ask the mom who cries herself to sleep at night sorry for the anger that she lashed out upon her children, but then conquers that anger one day. Have you battled loosing a few pounds? The struggle of defining success in the three words. As I jotted down notes and tried to flesh out this seemingly crazy question, I realized I do want to be successful. But if I never published another book would I deem myself a failure? If I never got to speak again would I think myself a failure? Finally the words living life passionately came to my mind. I liked the sound of those three words. There are so many things that I enjoy that it is hard to rule some out for the sake of being successful in another area. And I see true success as something that oozes true joy and peace. Something that stirs you soul, keeps you awake at night, and brings happiness to your every day. Later that evening I was recapping my day. It had been amazing! God had placed me at the right place at the right time to minister to a woman who was leaving an abusive relationship. I felt fully awake and alive! I still found myself pondering over those three words I had turned in. This was a friend who I had met over a year ago. Back then she rarely smiled or looked you in the eyes. We set our lunch plans in motion and I was thrilled. This was success for me. It was about slowing down to have time for those who needed a friend at the moment. Encouraging them to be successful. As I crawled into bed that night I was on cloud nine. Encouraging the abused, and being there for a new friend who is ready to move beyond her present circumstances!

8: How to write a Success Story

Describe: I am going to DESCRIBE a sunset! Sunset is the time of day when our sky meets the outer space solar winds. There are blue, pink, and purple swirls, spinning and twisting, like clouds of balloons caught in a blender.

Definition Essay on Success The definition of success differs from one person to another. Most people work hard throughout their lives to achieve success. One interesting view about success is that it means something different to each person. Also, perceptions of success can be faulty. A person may seem to be successful, but scandal and ruin can easily follow if a person has made poor choices to achieve his ideal of success. It is not uncommon to hear people confess that the people whom they thought were very successful in life turned out to be rather miserable. Some of the individual who are successful especially when measured in terms of material wealth are often afraid of other people trying to take advantage of them. Basically one common observation in life is that it is difficult if not close to impossible to be successful in every aspect of life. In most cases, one can be successful in one part of life and be a total failure in another. These include the self, business, family, environment, material things, community, work, spiritually, business, and friends. In order to be truly successful, one needs to balance each of these areas. It is rather obvious that these areas cannot be of equal importance to everyone, and this is why people tend to work towards being successful in some areas in their lives while neglecting the other areas. It is, however, not a good idea to ignore any of these parts even though it is important to set priorities. It is important to strive for a well-balanced life. For instance, if one works hard towards being successful and ends up becoming a workaholic, one may lose friends and family and in the long run, one may end up damaging his health or overall well-being. One should always try to keep each of the components of his life in harmony with each other. Some definition essay writing tips: When writing this kind of an essay, one should always begin by defining what success is. However, one cannot describe what one does not know. One should, therefore, demonstrate to the reader that he knows the meaning of success. He can offer the reader a definition and examples. After defining success one should write what success means in different areas of life. One should also note the importance of balancing priorities and offer an example or two. Are you looking for a high-quality custom essay written from scratch? Do you need writing assistance?

9: Essay Tips: 7 Tips on Writing an Effective Essay | Fastweb

Keys to Successful College Writing Embrace a Robust Conception of Writing When asked to define "writing," many people describe it as the act of placing thoughts into an alphabetic code.

Next Writing to describe - example Read through the following piece of text and spot the techniques which are specific to descriptive writing. Climbing Cryb Goch Anxiously I tug on my thick woolly socks. The sparkling peak of Snowdon looms like an iceberg above me. My skin tingles the air is so cold. Boots next, numb fingers fumble with the laces. Other walkers are getting ready too, chattering animatedly to one another, their voices seem amplified in the breathless, chilly air. We set off along the Pyg track, our boots crunching through the snow, Cryb Goch looms above, an intimidating sight. A shiver of fear runs down my spine and the hair on the back of my neck prickles. Someone fell off last week! Was it a trick of the light or did I see it twitch, preparing to send me tumbling? A butterfly of panic flutters in my stomach and I struggle to quell it. Slowly I set off on my crawl while my companions trip like mountain goats along the craggy ridge. How do they do it? The next hour is a blur of scraped knees, glimpses of dizzying drops and mumbled prayers. My prayers have been answered! I deserve a cup of tea. Is it just me, or does lukewarm tea poured from a flask you have lugged all the way up a mountain taste the best? I break off a big chunk of milk chocolate - the rich smell fills my nostrils. Now, how do we get down? Identify the descriptive techniques used Descriptive technique.
